Apple Packing Demonstration.

The readers of this territory will be interested to learn that there will be an apple packing demonstration at North Wilkesboro Sept. 30th, and Oct. 1st.

Mr. Cooper, who will conduct this demonstration, is the man who put up the prize carload of apples at the National Horticultural Congress last year and hence, his record would indicate that he is the best apple packer in the United States today.

One of the most important things to consider in getting prices for apples is, that they be put up in an attractive manner and also in such shape that they will not shake about and bruise while in transit and it is only apples that are put up in this way, that can go into the open market and compete with apples that are properly packed. We have good fruit, but have always failed to put this fruit in the market in a saleable condition, hence, it behoves every apple grower to attend this demonstration these two days and learn how to pack his fruit in such a way that it will command the highest price.

The shooting of Watson occurred within a few feet of the place where Dennis shot and killed John T. White, a circuit court clerk of Hinds county in February, 1905.
