TUESDAY, FEBRUARY 18, 1913.

As noted in this issue a very sensible measure is to be introduced in the Legislature, putting the matter of Wide Tires entirely in the hands of county commissioners, in Iredell. Caldwell should have that privilege also for then in case the people want to adopt broad tires they may do so by petitioning the county commissioners, instead of having a special act passed. We have not heard a single person say that broad tires would not be of great benefit to the roads and if the commissioners had the right to order them put in use say six or twelve months hence, the change could be made with very little inconvenience and expense. Let us have broad tires, if a man wants to persist in cutting up the public roads, let him pay for the damage by a heavy tax on his narrow tires.

The people of Caldwell must not let these pretty days get their minds off of the counties needs in the way of roads. We have a good bill drawn and it has been sent to our representatives in the Legislature to be enacted into a law, permitting the people to vote on the question of a bond issue. We have not yet seen where the bill has been introduced, but suppose it will be and then when we have the opportunity to vote on the question we can decide if we want it.

We note that an appropriation of \$8,000 for a public building site in Lenoir, has been favorably reported by the committee on public buildings, in Congress. This means that our post office building is coming along slowly. Now if the measure goes through congress there will be experts sent here to look over the situation and negotiate for a site not to cost over that sum.

Graded School Building Afire

Salisbury, Feb. 13. More than 1,000 school children made their safe escape this afternoon from a fire which destroyed a laboratory of the Salisbury graded school. Nine children were injured, none seriously. The fire started from a defective line on the second floor of an old frame structure and great haste was necessary in removing the children from the burning building.

Boys from a near by high school organized a volunteer fire department and before the regular apparatus arrived had two small streams of water playing on the fire. The boys also materially assisted in removing the other children from the point of danger. Heroic work saved other school buildings from being burned. The damage will not be heavy.

Here's Hopping
(Green's Lillie Reflector.)

With the number of judicial districts in the State being increased from 16 to 20, giving four more judges and four more solicitors, there ought to be considerable change in congested court dockets.

Alexander's Road Bill.

The following clipping from the Taylorsville Scout, shows that the people of Alexander are having trouble in getting their Good Roads bill before the Legislature. Caldwell is in the same boat apparently, as the road bill prepared and adopted by the citizens meeting, here some time ago has not been introduced in the Legislature. The Scout after telling of the mass meetings and the preparation of this bill goes as follows: "After the votes were taken a resolution was passed asking our members of the Legislature and Senate to introduce and have the bill passed.

Last week Messrs. Payne and Connolly were both in town. We learn that Mr. Connolly said he would not introduce the bill in the Legislature, and Mr. Payne said that he might introduce it in the Senate, by request.

This means that it will die in the hands of the Senate committee, and the wishes of the people of Alexander, in Mass Meeting assembled, will be defeated by the men we sent to Raleigh to represent us.

Now, we are not, at this time, advocating a Bond Issue or Direct Tax; but we are talking for our people. The majority, at the meeting on February 1st, want Bonds, and it is the duty of Mr. Connolly, after asking for an expression of the people and getting it, to introduce this bill and see that it passes the House, and then, when, it goes to the Senate, it is Mr. Payne's business to see that it is also passed by that body. If they refuse to do this they are certainly not carrying out the principle of true Democracy, for Democracy means that the majority shall rule. They should make this bill a law and send it back for the people of Alexander to adopt or reject at the polls. If they are not in favor of a bond issue they have the right of free citizens to come home and vote as they please; but they have no right, after asking and receiving the votes of the people of Alexander, to use their power as our representatives to defeat what seems to be the wish of their constituents without giving them an opportunity to express themselves at the ballot box.

Now, gentlemen, it is up to you, and we would suggest that you think well before you act. Will you heed the wishes of many or will you answer the call of a few?

[The Alexander county bill was introduced in the Senate Saturday "by request". - News.]

There is no better medicine made for colds than Chamberlain's Cough Remedy. It acts on nature's plan, relieves the lungs, opens the secretions, aids expectoration, and restores the system to a healthy condition. For sale by all dealers.

Raleigh, Feb. 13. A resolution was introduced in the Senate today by Senator Long for four per cent State bonds to meet \$500,000 of the deficit caused by the expenditure of that amount in round figures for permanent improvements at the State institutions and \$75,000 for equipping and heating the new State building and an amount necessary for rearranging the old Supreme Court building and to provide for covering into the State Treasury the \$217,000 standing to the credit of the Penitentiary.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, etc.
Take Hall's Family Pills for constipation.
