## THE GRADED SCHOOL.

The meeting held last Saturday night in the interest of the Lenoir Graded School, was helpful in many ways. It clarified to a great extent the conditions of the institution and will have a tendency to reduce the criticism of the management. The committee appointed to take the matter of amending the charter in hand, held a meeting and formulated a bill asking for the amendment, so as to permit the issuing of additional bonds to take care of the floating indebtedness of about \$9,000 and the bill also provides for the election of the Trustees by a direct vote of the voters of the district. The plan for electing the trustees provides for the election of two for one year three for two years and two for three years, which seems to meet the approval of the people as far as we have been able to learn. In regard to the issuing of bonds most persons we have heard express themselves as favoring it. Every body hopes that the usefulness of the institution will not be in any way be impaired and that the great work it is doing can be continued without serious interruption.

There seems to be plenty of money in the country, judging from the bank statements recently published throughout the state. All of them show large and increasing deposits, many of them having "time deposits" running into the thousands. Even in little country towns where the banking capital is ten thousand dollars or less, the time certificates of deposit often run up in sums equal to or in excess of the capital. This should make money easy to get for any legitimate enterprise and it is gratifying that such is the case.

It is to be noted that the present Legislature was not long in arranging new legislation looking to making more jobs for lawyers. Four new judges and four new solicitors, means eight more provided for. We have no quarrel with the legal fraternity on this score, for as the Good Book tells us "He that provideth not for his own, especially those of his own house hold, hath denied the faith and is worse than an infidel."

There is a general awakening all over the south on the subject of road improvement and if Caldwell does not catch the spirit, she is certain to be left behind in the race of development and progress.

Health makes wealth—and there is more demand for the finished article than the raw material.

## Avery County Items.

(Avery Vim.)  
The court room in the court house at Newland will be completed this week. It is one of the finest we have ever seen and is a credit not only to the county but to Contractor Campbell. He has put his best work here and the results are more than complimentary.

A few nights ago the folks of the Pineola Inn were aroused at 4:30 a. m. by Mr. Ed Robbins, Supt. Highland Nursery, ringing the phone; and said go out and look at the Air Ship passing low over the town and from the dashing of the light there is no doubt about it being an Air Ship. It drifted off south-east.

Mrs. E. H. Mortimer and son, Edward H., Jr., left for Kings Creek, N. C., Wednesday morning to visit her father and mother for two weeks. She was accompanied as far as Johnson City by Mr. Mortimer.

Mrs. Lexie Kincaid, of Morganton, is visiting her father, W. S. Sudderth.

## Had Need For One.

Edith was light hearted and merry over everything, says the Milwaukee News. So one day her mother decided to invite a very serious young parson to dinner and placed him next the light hearted girl. Everything went well, until she asked him "You speak of everybody having a mission. What is yours?"

"My mission," said the parson, "is to save young men."

"Good," replied the girl, "I'm glad to meet you. I wish you'd save one for me."

## Bought 300 Tennessee Mules.

(Nashville Banner.)  
The biggest sale of mules that ever occurred here took place when Mr. L. P. Henkel of Statesville, N. C. bought nearly 300 mules in and around Bell Buckle, paying between \$20,000 and \$25,000 for them. Over 300 mules were bought at one time here and at Shelbyville. While here Mr. Henkel was the guest of his friend, Mr. James Tapley.

There is a Retail Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Retail Store for nearly every ordinary human ailment especially designed for the particular ill for which it is recommended. The Retail Stores are America's Greatest Drug Stores.

A man of small caliber is the greatest bore.

Do you know that more real danger lurks in a common cold than in any other of the minor ailments? The safe way is to take Chamberlain's Cough Remedy, a thoroughly reliable preparation, and rid yourself of the cold as quickly as possible. This remedy is for sale by all dealers.

Love levels all things, with the possible exception of the head.

Here is a message of hope and good cheer from Mrs. C. J. Martin, Boone Mill, Va., who is the mother of eighteen children. Mrs. Martin was cured of stomach trouble and constipation by Chamberlain's Tablets after five years of suffering, and now recommends these tablets to the public. Sold by all dealers.

One or two generations ago most farm animals roamed at large but we have gradually found that this did not pay.

The barn yard fowls have been the last to feel the effect of business methods on the farm but at last they have to get in their place (in the poultry yard) and stay there.

The farmer who reads the magazines knows that today many a chicken farm of a few acres pays a bigger profit than a big farm did a few years ago. Every farmer keeps chickens because it pays and it will pay lots better and the farm will look better if they are kept in the poultry yard.

They are about the most profitable animals on the farm and it takes less space and less expense to keep them.

Enough of our poultry fencing to keep your fowls properly will cost very little and will be the best investment you ever made on the farm.

# THE GIANT HIMILAYA BERRY

Plant Now You Will Be Delighted.

This is the Greatest Berry the world has ever known, discovered in the Himilaya Mountains, Asia, its growth and productiveness is simply marvelous. It is perfectly hardy everywhere and grows from 30 to 50 feet in a season, and can be trained on arbors or trellises of any kind.

The fruit is black, almost coreless, and the large luscious Berries borne in enormous clusters will literally melt in the mouth. It is unsurpassed for eating fresh, cooked, canned or preserved in any form and is the most productive and valuable of all berries for all sections and all climates.

Everybody eat and will grow this Great Berry for it is the easiest fruit in the world to grow, is splendid for city people or anyone with limited space, for it can be trained up from the ground like a tree producing berries from three to four months in bearing season, and producing more and more fruit each year.

We guarantee this the Greatest of all new fruits. Grown as easily as the grape, lives on and on like a grape vine, and its great productiveness makes it very valuable, so much so that no other fruit yet introduced will anywhere compare with it.

The fruit is one of the best sellers on the market, beginning to ripen about the time blackberries are nearly gone, continuing until frost, being almost coreless and very rich, requiring very little sugar in cooking. They have a flavor all their own and unsurpassed for pies, jellies and jams. No comparison can properly be made between these and blackberries. They are good shippers, and do not readily spoil on the vine, and as a commercial berry they have no equal.

It is simply marvelous the way the berry succeeds everywhere. It is a magnificent berry for berry growers to raise to dry and is a money-maker in every way the fruit can be used.

The past season fruit just picked from the vines was shipped over a thousand miles, arriving in perfect condition.

They are unquestionably the laboring and poor man's friend, standing head and shoulders above every other fruit. They are fit for a King in his palace and are the wonder and delight of all classes.

Note the cut made Dec. 23rd of a two-year Himilaya which at that time still retained its beautiful green leaves. It may be noticed from the cut that the grower does things well, having used locusts posts and wire in making his harbor and trellises, who states he expects four hundred pounds from his vine the third season. It is a new only two year old people go for miles to see it.

BESURE YOU GET A FEW HIMILAYA PLANTS. It is a wonderful fruit. Set them where you want them to grow year after year.

Price of Himilaya extra strong plants prepaid to any address.  
One, 25c; Three, 60c; Six, \$1.10; Twelve, \$2.00
