## The Allies Reap Rich Successes On Western Front

Further Successes Reported for  
the Austro-German Armies  
in Galicia.

### REINFORCEMENTS FOR GERMANS IN THE WEST

Paris and Berlin Chronicle Little  
Activity in Western Theater—Gen-  
eral von Linsingen Drives Russians  
Across Zlota Lipa River—England  
Will Allow 10,000 Bales of American  
Cotton to Enter Sweden.

Vienna, June 29.—Tomascow, in  
Russian Poland, has been captured by  
the Austro-German forces, according  
to announcement made by the Austrian  
war office tonight.

North of Kamionda, nearly 30 miles  
southeast of Lemberg, the Austrians  
repulsed a Russian attack which was  
made in great force.

### Rumania to Remain Neutral.

Berlin, June 29.—Foreign Minister  
von Jagow and Chancellor von  
Bethman-Hollweg arrived from Vienna,  
declaring that they have assur-  
ances that Rumania will remain neu-  
tral during the war.

### Will Allow Cotton to Reach Sweden.

Washington, June 29.—England has  
agreed with the Swedish Cotton Men's  
Association to permit 10,000 bales of  
American cotton to reach Sweden  
Monday.

### War Summary.

London, June 29.—General von  
Linsingen has driven the Russians  
across the Zlota Lipa river, a tribu-  
tary of the Dnieper, where yester-  
day's Petrograd dispatches stated that  
the Russian army would establish it-  
self on a new line against the Aus-  
tro-German advance in Galicia. At  
the same time the German forces have  
crossed into Russian territory near  
Tomascow, Poland. The Russians are  
beginning to evacuate positions they  
have occupied along the lower San.

Enormous numbers of German  
troops are being transported from the  
eastern front to the west. The great-  
est secrecy surrounds the movement.  
Official reports from Paris and Ber-  
lin chronicle little fighting of a na-  
ture calculated to change materially  
the situation of either adversary.

The most notable action was the  
fight in the Vosges, where the French  
suffered a momentary check. Their  
advance posts were thrown back dur-  
ing the night and the contest continued  
in the morning. After a terrific coun-  
ter attack, in which the Germans were  
again dislodged, it is reported from  
Paris that the French again occupied  
all the ground they had lost.

A slight advance was made by the  
French infantry north of Verdun, in  
the Arras sector. In a sharp engage-  
ment the French gained the sunken  
road from Innes to Ablain and by dint  
of hard fighting were able to push  
their advance position a few hundred  
yards forward.

## KINSTON GETS A NEW ALL BRICK WAREHOUSE

New Central Will be One of  
the Most Substantial and  
Convenient in State.

### NEW BUILDING WILL COST NEARLY \$25,000

Has Floor Space of 33,000 Square Feet  
and Not a Post Anywhere—Light  
on Tobacco Will be Perfect in Any  
Part of Warehouse and Other Con-  
veniences for Patrons of House.  
Artesian Water Pipe Into Building.

Kinston, N. C., June 30th, 1915.—  
Kinston's first brick warehouse is  
nearing completion when the Central  
will be one of the most substantial  
and conveniently arranged warehouses  
for the sale of leaf tobacco to be found  
in Eastern Carolina or any part of the  
state for that matter. When the work  
that is now under construction is com-  
pleted, which will be soon, the build-  
ing will be an entirely new structure  
and very greatly improved in many  
ways from the warehouse as it was  
originally built.

Last year the proprietors, Messrs. J.  
H. Parham, H. C. Wooten and E. P.  
Wooten spent about \$10,000 in exten-  
sion and other improvements. This  
year between \$12,000 and \$15,000 more  
in improvements have been added  
which makes the warehouse an entire-  
ly new building. It is now 110 feet  
wide by 350 feet long, giving a floor  
space of 33,000 square feet. There are  
several new features that will make  
it especially valuable for the display  
of leaf tobacco on sale. There is not a  
post in the entire floor space and only  
two in the mammoth building, which  
are in the front and supporting sleep-  
ing quarters for patrons of the ware-  
house. The roof of the building has  
been lowered, which greatly aids in  
shedding light, a very important fac-  
tor in selling leaf tobacco on ware-  
house floors. There is not any part of  
the building that there isn't plenty of  
light to show off the tobacco.

In the front part of the building  
there has been constructed ample  
sleeping quarters for farmers who  
come here from a distance to sell their  
tobacco at the Central and this is to  
be made comfortable for them. From  
a great overflow artesian well water  
will be conducted into the warehouse  
and flowing all the time for the con-  
venience of those in the building. The  
office, which will be in the corner of  
the warehouse at Heritage and west North  
street, is to be handsomely fitted out  
and there will be double scales ser-  
vice, one in each end of the long  
building.

Kinston's tobaccoists are making  
extensive improvements to take care  
of the business for next season and  
the Central will be right in the fore-  
front.

Mr. and Mrs. John Mayo, of Bethel,  
are visiting Mr. and Mrs. F. J.  
Forbes on Evans street.

## CONDITIONS IN THE MEXICAN COUNTRY NOT IMPROVED

Says Bulletin Issued by State  
Department—Americans  
Fleeing from Capital.

### U. S. AGENTS ARE BUSY GUARDING NEUTRALITY

They Are Watching Mexican Leaders  
in All Parts of this Country—Gen-  
eral Angeles, Villa's Right Hand  
Man, Suspected of Being Involved in  
Huerta Plot—Suggestions for Action  
for the United States to Take.

Washington, June 29.—The Carranza  
agency here gave out a statement to-  
night that American citizens are flee-  
ing from Mexico City into the mili-  
tary camp of the Carranza general,  
Pablo Gonzales, which is about three  
miles southeast of the city.

The agency also says that a commit-  
tee of the diplomatic corps is asking  
the Zapata officials to protect the prop-  
erty of foreign governments. The  
Carranzaists here say that Zapata is  
about to evacuate Mexico City.

The state department gave out a  
short bulletin today stating that con-  
ditions in Mexico "are not reassuring,"  
and that Carranza is rushing troops  
to reinforce General Gonzales.

The navy department has received a  
dispatch from the New Orleans at  
Popolobambo stating that the town  
of Los Nachis was raided by the In-  
dians on the west coast on June 17th,  
when a British subject, John Jamis-  
ton, was killed, but that all is quiet  
in that section now.

Some officials here believe the time  
has arrived for a definite step in Mexi-  
can affairs. Two courses are now  
open. One is to increase the pres-  
sure on Carranza to compel him to  
negotiate with Villa and the other is  
to eliminate Carranza personally from  
consideration and attempt to get to-  
gether Villa and prominent men allied  
with other factions to hold a conven-  
tion to select a candidate for president,  
for whom all could concentrate. He  
would be assured of recognition by the  
United States, and the latter plan is  
believed to be the step President Wil-  
son will take.

Agents of the United States govern-  
ment were all over the country today  
watching carefully the movements of  
prominent Mexicans who have been  
active in Mexican politics, to see that  
there are no violations of American  
neutrality.

The arrest of Victoriano Huerta and  
Pascual Orozco at El Paso and the  
strict surveillance over Generals Felix  
Diaz, Hondragon, Blanquet and Felipe  
Angeles, now living in the United  
States, and others, is a part of the  
American government's policy to pre-  
vent the setting afoot of any new  
military movement in Mexico. Officials  
here feel that the revolutionary situa-  
tion in Mexico ought not to be further  
complicated by the introduction of new  
elements.

Possibilities that others may be  
identified with the so-called Huerta  
conspiracy intensified interest here  
today in the investigation by agents  
of the department of justice into the  
situation. It is even intimated that  
citizens of one of the European bel-  
ligerents are involved. It was said  
also that the department of justice  
was in possession of some evidence  
which seemed to connect General  
Angeles, Villa's right hand man, with  
the plot.

## Horrors of Barb Wire Entangle- ment Described

Mr. White Boosts  
Greenville Section

Mr. H. M. White, of Greenville ar-  
rived last night to attend the meeting  
today to be held in the Raleigh Cham-  
ber of Commerce rooms looking to-  
ward telling the world the truth about  
the state of North Carolina. Mr. White  
is the representative of the Carolina  
Club of Greenville. He states that  
if the world knew of the advantages  
offered by Greenville and Pitt county,  
their population would be doubled this  
year. He believes in his section and  
wants the world to know there is pros-  
perity, good neighbors and a welcome  
hand awaiting the folks who will  
come to live in Pitt county and are  
willing to work. And while he thinks  
something more of Greenville and  
Pitt county than he does of the rest of  
the state, he admits that what he  
claims for his particular section is  
largely true of the State as a whole.

### THAW IS SANE AND ALWAYS HAS BEEN

Dr. Bancroft, Alienist, Who Examined  
Harry in New Hampshire, Swears  
to This Opinion on Stand.

New York, June 29.—Dr. Chas. P.  
Bancroft, head of the New Hampshire  
state hospital for the insane and a  
member of the federal commission  
which examined Harry K. Thaw dur-  
ing his sojourn in New Hampshire  
swore on the witness stand today that  
Thaw, in his opinion, was not only  
sane, but always had been sane. Dr.  
Bancroft testified as an expert alienist  
in the jury proceedings to determine  
Thaw's mental condition.

Thaw's act in killing Stanford  
White, Dr. Bancroft said, was not a  
product of a systematized delusion,  
such as characterizes the true para-  
noia.

"The killing of Stanford White,"  
he said, "is apparent to us as a pas-  
sionate impulsive act growing out of  
a condition of mind due chiefly to  
anger and jealousy, which was the  
final culmination of a series of cir-  
cumstances that had been bearing  
down on him during a long time. It  
did not seem a type of paranoia, but  
was due to jealousy of Mr. White and  
not to a diseased condition of mind."

### GERMANY TO BE INFORMED WHEN U. S. VESSELS SAIL

Washington, June 29.—The United  
States government has adopted the  
practice of notifying the German ad-  
miralty through Ambassador Gerard  
of the time of departure of every  
passenger ship sailing under the  
American flag and approximately the  
hours during which it will pass  
through the war zone.

This precaution is being taken so  
that German submarine commanders  
may be on the watch for American  
vessels and prevent a repetition of the  
attack on the tanker Gullflight, which  
Germany says was mistaken for a  
British ship.

Mr. W. G. Lang has returned to  
the city after being gone several  
months.

## An Observer in the Middle- sex Regiment Gives Graphic Description Of How Soldiers Are Torn

London, June 29.—"They got as far  
as the wire. They hacked at it, tore  
it, until their hands were raw and  
bleeding and their uniforms went to  
tatters. From their starting point  
right up to the wire they left a deep  
lane of their dead and dying 120 yards  
long, a sight so poignant that men  
coming suddenly on that bloody trail  
broke down and wept at the sheer  
pity, at the undying glory of it."

In this way the official observer of  
the Middlesex regiment describes the  
horror of barbed wire in the battle of  
Neuve Chapelle.

A German trench, protected by two  
hundred yards of this terrible stuff,  
had been overlooked by the British  
artillery and charge after charge was  
sent against it.

First the Indians were cut up by  
rifle and machine gun from behind  
the deadly strands, then the Scottish  
rifles advanced in fruitless attack.  
The battalion went into action 1,000  
strong and came out with 150 survi-  
vors. The men who remained alive  
remembered nothing afterward save  
tearing at the barbed wire with their  
hands, stamping on it, jabbing at it  
with their rifles.

The one officer left unscathed ral-  
lied and withdrew his men and the  
turn of the Middlesex came. They  
sacrificed themselves in vain. Only  
when the British had fallen back and  
great shells had been fired upon the  
fatal wire patch, to loose charges of  
high explosives, was the difficulty over-  
come.

"General Wire" always fights on the  
side of the defenders, be they German  
or Allies.

High entanglements are used to pre-  
fect trenches from the bayonet charge.  
Stout stakes, five-foot high, are used,  
planted in five and six rows, six feet  
apart, and bewilderingly interlaced  
with cross wires. Such a man-trap  
as this brings the attacker to a stand-  
still in such a position that he has no  
shelter and is a mark for all the con-  
centrated fire (especially that of mach-  
ine guns) in the defended trench.

The assailant now calls for volun-  
teers to creep out and cut the wire,  
and though this is a disastrous busi-  
ness, it allures the regimental dare-  
devil, who is often prompted in the  
field for work of the "forlorn hope"  
order.

There is no outwitting this stuff,  
it brings to naught the most desper-  
ate gallantry of attack. "Some of  
the Germans" says a soldier's letter,  
"got partially over our wire, and there  
they swung and bobbed next morn-  
ing, fairly riddled. It is a character-  
istic sight in this pitiless war."

Mr. R. R. Fleming, of Pacton, was  
a visitor here today.

Mr. A. G. Cox, of Winterville, was  
in the city this morning.
