The capitol at Washington has cost more than \$30,000,000. It which is told in the lines: dome is 307 feet high and 135 in diameter and is exceeded in size only by St. Peter's in Rome, St. Paul's in London, the Invalides in Paris and St. Isasc's in St. Peters.

The French Government, recognizing the deteriorating influence of tobacco upon the young, has prohibited its use by students in the public schools. The Swiss Government will not tolerate that tobacco be sold to juniors. Boys found smoking in the streets are now promptly arrested and punished.

Rawitzer Bros., of Stafford Springs, are mentioned as having settled with their dissatisfied weavers, giving them a 25 per cent. advance in wages. This wage ad- burg. vance is more than the American Reconomist could find in any proteeted industry during the first two years of McKinleyism.

The Army Temperance Society of Beautort. of the Brittish army in India has af Wilson. grown from 13,000 members in 1890 to over 22,000 members today. Out of Cumberland. of 1,100 regimental courts-martial for 1893, only 39 sat to try members of the Temperance Association, of Granville. and of 2,680 courts-martial of all Sixth District-Jas. A. Lock classes for that year, only 73 con- lart. cerned temperance men.

If indefatigable push and persistence can accomplish the capture of the north pole there is no doubt but that an American will be the first to lay hooks on that much sought for and still unlocated prize Nash. of hordes of Arctic explorers. Fresh lots of sanguine would-be pole finders are constantly discuss ing and planing to start there, undeterred by the failures of those who have gone before.

The Clinton Democrat tells of seeing a Populist the other day who had an idea in his head that a Democrat was necessarily an enemy of the farmer. Poor deluded fellow. The Democratic party is the only party that champions the right of the farmer. Republicanism has crippled the farmer, but the suc cess of Populism would rain bim. It would bankrupt the country in one administration.

Gladstone being asked what he regarded as the brightest hope for the future, replied: "I should say a maintenance of faith in the In- of Wilkes. visible. This is the great hope of the fature, the mainstay of civilization. And by that I mean a living faith in a personal God. I do not hold with a 'stream of tendency.' After 60 years of public life I hold more strongly than ever this convicon, deepened and strengthened by long experience of the reality and the nearness and personality of God." .

MAXING VEW IDEA.

Fort In the Air That Would Cost a Formue, but End a Wart

The celebra ed inventer of the Maxim gun, one of the most for-midable of modern weapons, is nard at work, as he has been for a long time, upon the old problem of aerial navigation. In one impor-tant respect Maxim is working on different and less difficult lines than those which other inventors have tried to follow. To-y have simed at the devising of flying machines which would be operated at a cost not too great to admit of their use in the ordinary business affairs of life. The inventor of the Maxim gun, however, is very ap propriately working, primarily to produce a machine which can be used in warfare. For this purpose it is not at all necessary that the expense of air navigation should be low enough to bring it within reach of commerce or travel. What he is aiming at the creation of a new and terrible engine of war, and everybody knows that the great powers of Europe take little account of cost when they are dealing with the armaments which they regard as essential to their very

If a flying machine or airship can be invented which will be efficient in ordinary weather and will enable the power possessing it to attack the fortresses and camps of its enemies from above, there will be a mad rush to obtain plenty of the new engines of destruction, no matter how much they may cost to build and operate. The picture of wholesale destruction which is held up before the military mind when an inventor talks Bishop Tuttle, ot Missouri, who of pouring dynamite shells down great height and thus blow it into atoms, without risk or possible defense, is too attractive to permit money to stand in the way at all. ## **LARGE SORES ON FACE**

Lost Use of Hands from Blood Polso ing. Physicians and Remedies
No Benefit. Cured by
Cuticura Remedies.

I have used your CUTIOURA RESERVING, and can truthfully say that they are everything and more than you represent them. Last spring I was greatly troubled with blood polaoning caused by Diphtheria. Large sores made their appearance on my face, and my hands were in such a condition that I could not use them. After trying numerous physiciana and remedies and receiving no benefit therefrom, I was advised to try the CUTIOURA REMEMBERS, and did so, and I am now free from all myskin trouble. I cannot speak praise enough for your remedies.

BABY SEVERELY AFFLICTED My haby was severely afflicted with some dreadful skin disease. Its head, face and hands for awhile were nearly one solld sore. I had doctors prescribe for it, tried several symedies, but all seemed to do no good. I saw an advertisement of the CUTICUEA REMIEDLES, and concluded to try them. I bought a complete set, and began using, and now my little girl seems to be completely cured. GEO. W. TURNE, Teacher, Bryan, Texas.

**CUTICURA WORKS WONDERS** ing 200, is summent to rest the virtues or these great curatives, there is now no reason why thousands should go through life tortured, dis-figured and humiliated by blood and skin dis-eases, which are speedily cured by the Curioura REMEDIES at a triding cost.

Sold throughout the world, Price, CUTICURA, 500.; SOAP, 25c.; RESOLVENT, \$1. POTTER DRUG \*\* How to Cure Skin Diseases," mailed free. PIMPLES, blackbeads, red, rough, chapped, and oily skin cured by Cuvicuna Soap.
