"The Vendetta" Last Night.

The fact that it was Saturday night, the hardest evening in the week to devote to night except business, and the further fact that the circus performance divided the audience at the opera house was rather small but "The Vendetta" was rendered with as much spirit and effect as though the house had been crowded.

The plot of "The Vendetta" holds the attention from the first; the play is crowded with exciting situation and the acting itself was admirable; it is the best company that has been here for years, but the play would have been improved by the entire omission of profane and indelicate expression of which there were a few.

The company will play here again to-morrow. The play that will be rendered is "Uncle John."

THE CIRCUS PERFORMANCE.

Good Weather and a Large Attendance—Many Skillful Acts.

Hantings Circus gave their performance yesterday to a pretty well filled tent located in Dunn's field on the macadamized road.

There was only one ring, but that was no disadvantage, as the spectators were better enabled to witness all that took place. Two feats of bare-back riding were remarkably fine, and have been accomplished by a few—that of a rider turning a complete summersault on a horse under speed, and another leap from the ground on the back of a running horse that was entirely free of all harness or gearing attachments of any kind.

Among other skillful features were swinging and living trapeze performances, a portion of this was a w. and said to be accomplished in no other circus. Turning a summersault backwards to the ground from a ladder 30 feet high was a daring and thrilling act.

The general demeanor of all those connected with the show was far above the average. As far as we could learn there was no drunkenness, rowdyism, or impositions practiced.

IMPROVEMENTS AT THE ALBERT.

A General Renovation—The Hotel Will be Better When the Work is Finished Than When First Built.

Hotel Albert is undergoing a complete renewal in the way of repainting, repairing, re-arranging, etc. Carpentry of the hall's and stairs will soon follow. The work has been in progress under charge of Mr. Wm. Lane and will be continued about two months longer.

By the first of the year the Albert will present a brighter and more inviting appearance, than it presented even when first opened for new. The redecorating is in light colors and the papering in modest but cheerful and pleasing tints and designs.

Not only will these improvements be made but some changes for the better in the arrangements will also be effected. A barber shop will be established at the rear of the office and a reading room to its left.

Already the work is showing well—giving a premonition of what may be expected when completed.

The Albert intends slightly a bid to its force. Not only will the improvements in the building be made but every department of the hotel will be in charge of some one thoroughly experienced and competent.

New Berne has just cause to be proud of her present hotel accommodations. Their equal in a town of the same size could not easily be found.

EVANGELIST W. R. GALES.

His Consecrated Services, and Successful Labors—The Esteem in Which He is Held.
Evangelist W. R. Gales, who has just conducted a very successful series of meetings of two weeks duration in the Presbyterian church of this city left yesterday for his home.

His next meetings will be in Norfolk, Va. They begin next Sunday. Then he has several engagements in Kentucky. His first preaching there will be in Newport, Ky., at the beginning of the year.

Mr. Gales deserves the high place which he occupies in the estimation of the people who ever he goes for he is a polished and courteous gentleman and a fearless Christian worker, who unflinchingly goes right to the line, regardless of who is in the way. This high esteem for Mr. Gales is felt by all denominations for he labors first, last and all the time simply for the salvation of men, to awaken the careless, to point the convicted to the Savior and to lead the converted into the church of their choice.

BOLD ATTEMPT AT BRIBING.

New York Corruptionists, Actually Trying to Buy the Investigating Committee.

For weeks past the Lexow investigating committee have been listening to the stories of fraud corruption bribery &c. of New York officials, and on last Friday, the members of the committee were astounded to learn that the gamblers, green goods men and policy brokers of the city evidently going on the theory that every man has his price were actually planning to bribe them and had estimated their price at \$70,000.

The man who informed the committee from the witness stand that their reputations for honesty had been reduced to dollars and cents, was George W. Kay, eight years ago a policy broker of this city, but now a reputable business man. He testified that he heard the committee could be bought for \$70,000.

"What's that?" inquired Mr. Lexow angrily.

Senator Bradley whistled softly. Senator Cantor only smiled, while Senator Robinson appeared thunderstruck.

Mr. Coff informed whether a pool was being made up for the purpose of securing "protection" from the committee, but the witness assured him that he knew nothing about it, if such an attempt was being made.

Mr. John Rodgers, of Swanston, was the undertaker. Mr. Scott was buried in presence of many friends at Leelanon church on the 20th inst. G. W. W.

GROWING ROAD INTEREST.

VIRGINIAN'S ROAD CONVENTION—LARGELY ATTENDED.

The Importance of the Subject—Craven County's Activity in This Line—Private Citizens Take Hold With Wide-Awake Interest—News Road—Hackburn & Willett's And The National Road.

The good roads convention held in Richmond, Va., Thursday was more largely attended even than was expected. There were about eighty able delegates present representing all parts of the State. Hon. George L. Christian, President of the Richmond Chamber of Commerce delivered an address of Welcome and said he regarded this as one of the most important movements ever inaugurated in Virginia. He said he did not think the State was in condition to build macadamized roads but they could make good well drained and gravelled dirt roads. He recommended the framing of a law looking to road improvement.

A number of practical papers on road building were read. The importance of good roads is being recognized all over the country—the movement is not confined to any one State or section. The people are aroused to a point that they mean to have better roads and we are glad to see that our own State and our own county are up and doing on this important matter.

One of the statements made at the Virginia Convention was that it was estimated that bad roads cost the people of the United States \$300,000,000 annually. This may be correct or it may be a little excessive. At any rate the loss is enormous and North Carolina has been one of the great sufferers thereby. But these disadvantages are being realized and we hope to soon see by gradually and continued work the bad muddy, sandy roads become a thing of the past and in their place see highways that are a delight alike to pedestrians, to pleasure drivers and to teamsters with loaded vehicles.

The government macadamized road from this city to the National cemetery, Hackburn & Willett have just built from their Oak farm connecting with it and the portion of News road now being macadamized by private subscription with some assistance from the county is a good start in this direction. Let all Craven county citizens notice these roads and see how much more pleasurable travel is over them than over the old-style and resolve that the work shall spread until the whole county has roads such as it should have, and may other counties, especially neighboring counties, take up the work until a system of good roads extends around us in every direction.
