We notice that our former young townsman, Mr. S. W. Hancock, but now of Washington, is to be the orator of the occasion. THE JOURNAL would be glad to get a report of the event.

Our valued Wilmington exchange of Sunday did not reach their New Berne subscribers until Tuesday noon. It has happened several times that they did not come on the day of publication. We do not know what the cause is but we do know that they are highly prized both by us and their subscribers, and all feel considerably disappointed whenever a delay occurs.

COUNTY GOVERNMENT.

Judge Russell, Republican, Declares that Negro Rule Will Not be Permitted.

The Raleigh correspondent of the Norfolk Virginian has this item: "In the course of a very long interview, Hon. D. L. Russell intimates that while the county government system will be made elective by the new Legislature so far as the western or white counties are concerned, it will continue to be appointive as far as the negro majority counties in the east are concerned. Judge Russell says this with entire frankness, strong Republican as he is. In other words he declares that negro rule will not be permitted."

"Our New Berne friends should hold on till the boys come."

WASHINGTON LETTER.

Congress at Work in Earnest—North Carolina Personal—No Closure.—No Tariff Legislation.—State Boards of Health.—Civil Service Extension.—Mr. Ewart's Scheme.—Will North Carolina Have Two Republican Senators.

The close of the second week of Congress shows a good record, particularly for the House of Representatives. The House has passed three appropriation bills.

Hon. John S. Henderson, Chairman of the Post Office Committee, has drafted the Post Office appropriation bill and has it ready for his committee.

Hon. Sidney Alexander has secured a favorable report from the Charlotte Mail for his bill. The bill, which was carefully watched by Messrs. Andrews, Galloway, Wilson and other prominent North Carolina railroad men, passed the House by a good majority, every member of our delegation voting for it except Hon. W. T. Crawford.

All the members of our delegation are here now, Messrs. Bunn and Branch having arrived Monday. Mr. Woodard has the largest majority of any democrat who was re-elected. What is better, he richly deserves the compliment paid him. His plurality at the recent election was about 5,300 or something like 3,300 greater than two years ago.

It has been generally supposed that the second North Carolina district has a majority of negro voters in it. That is erroneous. According to the census returns there are fully 1,200 more white voters in the district than colored. It used to be a "black district," but the confines were changed four years ago. Ex-Congressman Cheatham, who expects to contest Mr. Woodard's seat, is said to be banking on proving that there are more negroes than whites in the district, and, therefore, he ought to have been elected.

Thirty officers of the State boards of health have been in session at the Elbert this week. The North Carolina board is represented by President George Gillet Thomas, of Wilmington, and Secretary R. H. Lewis, of Raleigh. Dr. Thomas says the body is apparently a good working one. Its purpose is to consult together, compare systems and suggest matters having reference to inter-State health.

The body meets annually in this city. Dr. Thomas went to Baltimore Friday. The discussion of the first afternoon session was opened by a paper by Dr. Richard H. Lewis of Raleigh.

The President has issued an order putting store-keepers, gaugers and clerks in offices of collectors of internal revenue in the classified civil service. This increases the list of persons who are thus protected by the civil service by about 2,000.

Senator Ransom spent several days at his home recovering from his wounds. Yesterday, Senator Jarvis voted to take up the sugar bill. He wants to strike out the tariff. The bill which is the most widely discussed of the "pop-gun" bills was promptly killed. All the pop-gun bills are virtually dead. Another effort was made to adopt a cloture resolution which proved futile.

Tariff legislation is impossible. The Government cannot afford to reduce revenue unless expenses are cut down in the United States Capitol. This is the proper starting point for economists, but as the alleged "economists" will be the ones to suffer, the Senators and Members will continue to squander money on themselves. Failing to get begun mileage money, some of them are now pocketing their stationery allowance!

Expenditures of the Treasury Department for this month exceed the receipts only \$4,000,000 and this difference will almost be wiped out by the end of the month. Nearly \$7,000,000 of the \$10,000,000 received have been paid out for pensions.

Suppose our "Mary Ann" fails to be Senator Butler after all. That shy and able "son of the Mountains," Hon. Hamilton G. Ewart has been here and convinced the National Republican leaders, that the White lion in North Carolina was a Republican, not a Populist victory, that North Carolina wants two straight out Republican Senators, and that Republicans in tend to reap all the spoils of the recent election! Ewart left here Saturday for Raleigh where he has opened his campaign on this basis. Bob Douglass, H. C. Cowles, Tom Reed, John Sherman, &c., agree with Ewart. This state of things means a lively fight in Raleigh when the legislation meets.

N. C. COTTON MANUFACTURING.

The Successful Growth of This Industry in Our State Attracting Attention—New Bernians Should Stir Themselves Along This Line.

There can be no doubt that North Carolina is rapidly becoming one of the great cotton factory States of the Union. We have before us a list of the new factories that have been established, and the old ones that have been enlarged in that State, within a few years, and very pleasing it is to those who desire the extension of manufacturing in the South. In a single county (Alamance) there are twenty-one of them, all running on full time with a full force of operatives, and employing both white and colored people. Wages are pretty good, and strikes are rarely ever heard of. In that county alone there are nearly as many cotton factories as there were in the whole of North Carolina twenty years ago, and most of them have been established within a few years.—New York Sun.

North Carolina, one among the most backward states, in manufacturing, is now making rapid progress in this direction, more rapid than the general even of her own people realize. It has not been long since North Carolinians would read, possibly with some degree of envy of one here factory after another being started in some neighboring State and of the great impetus to business they would cause in the localities in which they were located, while only here and there a small factory could be seen in this state.

But the little factories once started prospered and grew, and their numbers multiplied until before our people were aware of the extent to which they were quietly building, they were startled by the announcement in industrial journals that North Carolina had come to the front and had a larger number of mills and more spindles in operation than any other Southern State.

Such progress as the above is a matter of congratulation to all the people of the State and it should inspire our New Berne people who have too long for their own best interests, neglected textile manufacturing, industries to resolve that they will do so no longer, that in some way or other, a cotton factory, large or small, they must and will have. Let the start once be made on a proper basis and we have no fears of the result. As the industry has grown in other towns and villages so it will grow here. We have better conditions for such a factory than many a place in the state which started with a small or medium sized one, and now has several good ones.

Let not the year 1895 pass away without a beginning of industrial development along this line having been made.

A Pointer to Buyers.

The success of our great Furniture wonder of the 19th century is not a mere accident but is due alone to its well-earned merit based upon its quality and price and we have them both. Come and see for yourself. Goods must go.
