SIX PER CENT INTEREST NOW.

Full Text of the Bill Just Enacted Making that the Legal Rate.

The following is the full text of Senate bill No. 1 and House bill No. 407: The General Assembly of North Carolina do enact:

Section 1. The legal rate of interest shall be six per centum (6 per cent) per annum for such time as interest may accrue, and no more; and the taking, receiving, reserving, or charging a greater rate of interest either before or after the interest may accrue, when knowingly done shall be a forfeiture of the entire interest which the note or other evidence of debt carries with it, or which has been agreed to be paid thereon. And in case a greater interest has been paid, the person or his legal representative; or corporation, by whom it has been paid, may recover back twice the amount of interest paid in the nature of an action for debt: Provided, such action shall be commenced within two years after the payment in full of such indebtedness. Provided further, that in any action brought in any court of competent jurisdiction, to recover upon any such note or other evidence of debt, it shall be lawful for the party against whom the action is brought to plead, as a counter claim, the penalty above provided for, to twice the amount of interest paid as aforesaid, and also the forfeiture of the entire interest. And no cost shall be recovered by any party whether plaintiff or defendant, who may endeavor to recover upon any such contract.

Where it is Really Cold.

A person who has never been in the Polar regions can have no idea of what cold is. When we have the temperature down to ten or fifteen degrees above zero, we think it bitterly cold, and if our houses were not as warm as at least fifty degrees above zero, we should begin to think of freezing to death. Think, then, of living where the mercury goes down to thirty five degrees below zero in the house, in spite of the stove. Of course, in such a case, fur garments are piled on until a man looks like a great bundle of skins.

Dr. Moss, of the Polar expedition of 1875 and 1876, among other odd things, tells of the effect of cold on a wax candle which he burned there. The temperature was thirty-five degrees below zero, and the Doctor must have been considerably discouraged when, upon looking at his candle, he discovered that the flame had all it could do to keep warm.

It was so cold that the flame could not melt all the wax of the candle, but was forced to cut its way down, leaving a sort of skeleton of the candle standing. There was heat enough, however, to melt oddly-shaped holes in the thin walls of wax, and the result was a beautiful lace like cylinder of white, with a tongue of yellow flame burning inside it, and sending out into the dark many streaks of light.—Pittsburg Dispatch.

Two Lives Saved

Mrs. Phoebe Thomas, of Junction City, Ill, was told by her doctors she had Consumption and that there was no hope for her, but two bottles Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St. San Francisco, suffered from a dreadful cold; approaching Consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful that he is well, and he is naturally thankful that he is well, and he is naturally thankful that he is well.

BOGUE SOUND CORRESPONDENCE.

Enterprises, Improvements and Local Happenings About the Sound and at Swanboro. Mr. Hilliard Glancy, an old and respected citizen here, died last week of apoplexy, aged 75 years. He leaves a young widow, but to children and many friends and relatives to mourn his death. There were a few more hog killings last week by Messrs. K. N. Bell and Samuel Bell, also I. M. Thomas and George Dennis. The latter, is a son of the Col. Nash Dennis of Morehead City. Messrs Thomas and son, are putting up a new house for Mr. J. O. Pigott. M. W. Weeks and family, have moved to near Cedar Point this county. Rev. I. H. Fine, (M. E. C.) is holding a protracted meeting on Bogue Bank; we were over there last night, a large crowd was in attendance and 14 penitents. Rev. F. Reid our circuit preacher met appointment last Sunday at Bethlehem church near here, for the first time, we did not attend, but all say that heard him, he was "par excellence," his appointment here is every 4th Sunday at 11 o'clock and Rev. Dixon every 3rd Sunday at 11 o'clock till further notice.

Your correspondent took a trip to Swanboro last Saturday, his home, found every thing as usual, changes in favor of improvements. Mr. Thomas is the new merchant there and is doing well for the place. H. Greenblatt is another merchant there who is doing good business, so he says. Mr. Dan H. Ward "our boy," has left Jacksonville, N. C., to go as fireman on a steamboat at Cape Lookout and Beaufort waters. Messrs Prettyman and Palmer have concluded to build themselves a steamboat for the purpose of getting their lumber off. They have now about three vessel loads ready to ship and can't get transportation for it. The boat will be about 150,000 feet capacity to go to Norfolk, Baltimore etc. Capt. R. Foster and sons, will be the builders. There are three schools in Swanboro now, 2 day and one night school. Miss Lizzie Barber from Richlands, teaches one day school and Mr. C. B. Frazelle of Swanboro take 1 day and 1 night, both have full schools. The town, we learn, will soon be incorporated, with Thos. Bartly Mayor.

Bogue Sound has disgorged her fish, all gone somewhere, can't get one to eat, clams are good worth 40c. a bushel now. Ducks, 75c. pr. oysters 25c. to 50c. a bushel. Dr. Sanders is resting now at home building a "Silio, he is always doing something new. Mr. F. D. Koozee Jr. will close his public school at Rock Spring school house in two weeks, when he expects to have a general examination, and as he is one of our best teachers, and has some advanced pupils, we will have an excellent exhibition, the time will be given out, so all outsiders can go to see and bear the exercises. We are teaching the public school at Welcome school house.

Our Mr. John Lewis of Bogue Sound sold during the late cold snap, 5,800 large mullets at from 1 1/2 to 2cts each, and 5,100 smaller size at 1c each, killed 50 raccoons and about 100 ducks, now he is resting on the interest of his money. About the death of Mrs. Fanny Russell, we might have misquoted the name, her name was Annie and she was a widow of the late Habakuk Russell as we said.

Uses For Salt

There are a number of persons who do not know in how many ways common table salt may be used or of what practical value it is aside from cooking purposes. To such, the following will prove interesting. One pint of fine salt mixed with two pints of wood ashes and mixed with water will mend cracks in stoves. When clinkers accumulate in the grate, throw in a handful of salt, let stand a few minutes and they will be easily removed. A teaspoonful added to the water in which cut flowers are placed, preserves them for time indefinite and a little rubbed on the griddles before greasing, will prevent the cakes from sticking. Damp salt will remove the discoloration caused by tea on cups and saucers; if sprinkled immediately

Pianos Tuned and Repaired.

A. E. Marseller, practical tuner and repairer of Pianos and Organs, 25 years experience, satisfaction guaranteed, will tune your piano for \$2.50; piano and organ polish, 25 cents per bottle. Preparation applied to keep tuning pins from rusting and strings from breaking, 50 cts. You can have your pianos attended to by the year as I live in Wilmington. Best of city reference. Orders left at Eaton's Jewelry store, 97 Middle Street will be promptly attended to. ml 1w.

If the Baby is Cutting Teeth.

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

North Carolina Inventors

Have given to the world many notable inventions. There is not a community in the State that does not possess one or more local geniuses, who have ideas that are patentable, and which if properly developed will bring fame and fortune to their owners. It is often the case that some simple little appliance devised by the house wife, the storekeeper, the farmer or others to expedite work or lessen labor, puts into play an entirely new principle in invention which may have far greater value than is known to the originator. North Carolinians who have evolved such ideas owe it to themselves and the industrial enlargement of their state to ascertain if the same is patentable. All such are requested to send a brief description, sketch or photo to the Patent Law Department of the Associated Trade and Industrial Press, 610 13th Street, Washington, D. C., and they will receive something to their advantage. This enterprise is managed by a well known North Carolinian who will take a personal interest in the furtherance of inventive genius in the Old North State. Other state papers are requested to copy this notice and send marked copy.

ately over any spot where something has boiled over on the stove, there will be no odor and the spot will be easily cleaned. A teaspoonful put in a kerosene lamp will make the oil give a brighter light, and a small pinch added to the starch will prevent it from sticking to the irons. If your ingrained carpet looks dingy, sprinkle a little salt over it and let it lay for at least five minutes, then sweep it thoroughly and you will be surprised to see how much brighter it will look. One of the best things for cleaning brass is salt dissolved in vinegar. Cotton fabrics are less likely to fade if allowed to lie for a short time in a strong solution of salt and water.
