Mr. T. H. Carmine caught a white shad in one of his nets at the mouth of Neuse river Monday. This was the second caught in our waters in the last few days. They have made their appearance unusually early.

The cotton ginney and grist mill of Messrs. E. J. Martin & Son, near Mount Olive was burned yesterday morning about ten o'clock. The plant was quite a good one, and we understand that the loss could not have been less than \$2,500 dollars on that alone.

The schooners Ella R. Hill, Capt. J. J. Day, and Melvin, Capt. J. T. Sabiston, and the barge Edward are all at the Ellis coal yard wharf with coal. One is unloading and the others are waiting their turn.

Dr. J. S. Betts, of Maxton, son of Rev. A. D. Betts, has been called to Nashville, Tenn., to the chair of assistant demonstrator in the Dental department of Vanderbilt University.

Bridges or no bridges—the question is waxing warm. We give this morning a communication against the proposed move, and strong resolutions in another column for both bridges, with the suggestion of making them toll bridges.

The bicycle club holds its weekly meeting tonight. After the meeting the members expect to take a big drill. The membership is now twenty-two with two applications pending. Six of the members tried their wheels Sunday afternoon by a spin to Cranston and back.

Locomotive No. 3, of the W. N. & N. R. R. brought the regular mail and passenger train up Tuesday from Wilmington. It will not be on a regular. It has been off for about a month undergoing a thorough overhauling and now comes back in good shape, both in looks and capacity for service. Locomotive No. 1, will next be treated likewise.

**The New Coal Yard.**

Our young townsmen Messrs. Hollister and Cox, proprietors of the new coal yard received another cargo of coal Tuesday from Philadelphia, by the schooner A. L. Punder, Capt. Davis-n. This makes 700 tons in four distinct sizes that have already arrived and they have another vessel, the schooner Browning, Capt. Simpson which is now expected any day.

We notice also that they are disposing of a good deal of the coal around the city. The cold wave started the trade up quite briskly.

The application and enterprise of these young men in their business is deserving of success, and the patronage they are securing in the new branch of the business as well as the old gives promise of such results.

**TABERNACLE MEETINGS.**

**Full House—Good Sermon and Requests for Prayers—Two Conversations**

Mr. Broughton conducted two services at the Tabernacle Baptist church yesterday,—preached both morning and night as he will today at 10:30 a. m. and 7:45 p. m.

The morning subject was "Rest in Faith," based on parts of the 23rd chapter of Matthew.

The evening discourse was based on 2nd Corinthians, 5:10. Subject, "The Judgment."

Mr. Broughton discussed the subject as a court in which we all stand indicted, and must appear, some for good and some for bad deeds. Conscience was on the track of every man and we could not escape him.

Several requested prayer at the night meeting and there were two professions.

The public are cordially invited to all services.

**Sale of Cakes.**

The cakes left from the festival last night will be sold at auction at Stanly hall this morning at 10 o'clock. They are five ones.

### THE FIREMEN'S FESTIVAL.

**Well Attended and Highly Enjoyed—The Musical Features.**

A good crowd gathered in Stanly Hall last night to enjoy the festival and musical events connected therewith.

The following very select programme was rendered with highly pleasing effect.

Miss Rosa Dail, instrumental solo. Allegro scherzando by Haberman.

Miss Addie Cutler, vocal solo. "Happy Days go by."

Stullelzi. Accompanied by violin obligato by Miss Lulu Lee.

Miss Bessie Tucker, recitation, "Broganz on the Rhine."

Miss Nellie Coligan, vocal solo; Magdalen.

Miss Blanche Murchison Rhapsodie No. 14 by Litz. This was the first time Miss Murchison ever has appeared before a New Berne audience. The selection was a fine one and Miss Murchison's execution splendid. The hearty applause she received was a fitting testimonial of the highly favorable impression she made.

Miss Pearl Powell, the Mascot of the Atlantic Fire Company, adorned with the State Championship gold belt won at the late tournament, Eckerts Syrian Song.

Miss Lulu Lee; Ballade in D flat; Homer N. Bartlett, vocal solo. "When the Girl you love Loves You."

After the entertainment those present turned their attention to the refreshments. The tables were beautifully decorated and the refreshments were abundant and most delicious. It was between eleven and twelve o'clock when the crowd dispersed.

About fifty dollars was realized.

**Re-sowing the School Campus.**

Our suggestion as to removing all the grass from the school campus and re-seeding it seems to meet with approval.

Now is one good time for such work. Some tell us that fall sowing is better than spring. A lawn of well selected seed would be quite an improvement over that of which it now consists.

We had a gentleman of some experience with grasses to tell us that fall sowing is better than spring sowing. A good lawn from properly selected seed would be quite an improvement over the grass which now covers the campus.

**STORE AND HOTEL.**

**Of the Mayville Supply Co. Now About to Open—C. H. Foy, the Managing Partner is Moving There for the Purpose.**

Mr. C. H. Foy and family, who have been spending the summer at Morehead City came up moving to Mayville. They stopped to spend a day at Mr. C. E. Foy's and then proceed to their new home.

At Mayville Mr. Foy will enter into business as a partner in the Mayville Supply Co. They will handle general merchandise and run a hotel; all will be managed by Mr. Foy. It will be located in the large and admirable new building just erected for the purpose. It has a commodious, properly fitted up hotel. Mr. Foy's residence and store is in connection with it.

The building is fitted up with bath-room and other conveniences, and a good cistern of 12,000 gallon capacity is to be built at once. Later a bored well will be put down and a wind mill erected to raise the water wherever it is wanted.

No doubt but the store and hotel will be a great convenience to the people of Jones county.

**AN EDITOR-LAWYER.**

**C. L. Abernethy of the Beaufort Her.**

**Herald Procures Legal License.**

Mr. Chas. L. Abernethy, editor of the Beaufort Herald is now a full fledged attorney-at-law. He finished his legal studies at the University, successfully stood his examination before the Supreme court at Raleigh procured his license and passed through New Berne Tuesday night returning home.

Mr. Abernethy will continue publishing the Herald and be ready also for any one who desires his legal services.

There were twenty-one applicants for license at the same time and all passed. Twenty-six out of the fifty-one were University students.

**Do Not Want to Help Pay for the Bridge.**

The following is sent us for publication:

Ye: "Turn about is fair play." If the bridges are a necessity and must be built, let us suggest that we charge the cost to New Berne. Leave it to the voters of Craven county to say whether or not they shall be built. Allow the county to vote but let it be exempt from taxation. Some may object to this and call it class legislation and unconstitutional because it is representation without taxation. Well this may be true, but there is nothing strange about it. It is no new thing, and none may test it. If they do, you can just explain for us in this way: The county have the roads to work and make bridges over the smaller creeks, ditches, fences, ditches, etc., on the farms and much more that your people have not to do, then you would not be satisfied. To be more definite, let New Berne tax herself to build these bridges and let the county tax itself to make good roads to these bridges and to the city of New Berne. Not only to New Berne but to every village, station and landing in Craven county. Do this and we will be satisfied, and never before. We will do it. What will New Berne do? Come now, "Turn about is fair play."

Respectfully,  
FORT BARNWELL.

**A Perpetual Flowing Well.**

A LaGrange correspondent writes us that Mr. Thomas Dawson a few miles south of that place, is the fortunate possessor of an artesian well.

He had very poor water on his place and he concluded to bore through the marl and after boring 57 feet he went through and struck a water vein which flows up very strong. It has not been tested to see how high it would flow, but he now has a perpetual stream of most excellent water.

The Inter-State Iron Works, one of the largest manufacturing plants at Meridian, Miss., has been destroyed by fire.

### LIFE INSURANCE FAILURE.

**The Valley Mutual of Virginia Assigns—Assets Only \$11,250—Many Policy Holders in North Carolina.**

The Valley Mutual Insurance company has been doing business in New Berne for a number of years. How many policy holders it had here we are not informed, but enough however, to cause the news of its failure, now made public, to be regretted. A Staunton, Va., special to the Dispatch has this to say of it:

"The Valley Mutual Life Association of Virginia, chartered by the circuit court of Augusta, September 3rd, 1878, by its deed made September 27th, but recorded Monday, has assigned its assets to J. D. Clothier, trustee. Dr. P. S. Riddelle, of Shenandoah, president of the association, is the maker of the deed, on behalf of the association and the trustee is the associate secretary of the association. The property conveyed consists of other real estate, and the building of the association, situated in Staunton, together with office fixtures, furnishings, printing plant, and choses in action. All creditors are to be paid out of the fund pro rata 'without preference.'"

The net assets of the Valley Mutual are but \$11,250 and its liabilities \$130,000, in the shape of unpaid death losses.

"The company has many policy holders in Virginia and North Carolina."
