There was one conversion at the Tabernacle Baptist meeting last night, and the morning meeting was the best attended of any morning meeting yet held. The sermons are good and are listened to attentively by all.

Owing to the low water in Neuse and Trent river the supply of logs for the saw mills is almost exhausted. Some of the mills have been compelled to close down, and the others are running on half time. In some places in Neuse river between Kinston and New Berne, it is said, you can almost walk across the river.

Coming and Going.

Mr. Bradford L. McCotter, of Maribel and bride, nee Miss Jennie Sawyer of Bayboro, and Mr. and Mrs. U. C. Holton of Vanceboro were up to the city on the 2d and 3d inst. They visited at Mr. J. L. Feunress, Mrs. Feunress is a sister of Mr. McCotter and of Mrs. Holton.

Mr. W. E. Patterson, who returned Wednesday from an extended business trip, went up the A. & N. C. R. R. for a short trip on business Friday.

Creeks Running Dry.

The present spell is considered one of the driest known in a long time.

Farmers from Pamlico inform us that Goose creek where it crosses the public road is perfectly dry--a rare occurrence, and also that Broad creek, the dividing line between Craven and Pamlico, though not dry, it is so low that it has ceased running. This has certainly not occurred before in a long time of years, if indeed within the memory of any one.

Schooner Arrivals.

The following schooners arrived yesterday: May and Anna Beawick, Capt. Smith from New York, with cargo of merchandise for J. F. Taylor; Schr. Agnes S. Quillin, Capt. Huslin, from Baltimore, cargo of coal for Watson and Daniels; Schooner Ida Conly, Capt. Marshall, from Washington, light, to load with lumber.

Surface Water Affects a Public Pump--Drains Put In.
Drain tiling has been put in at the Lane pump to carry off any water that may get upon the ground by it. This will be much appreciated by the citizens of the neighborhood who depend upon the pump for their supply of water.

Water standing about the pump recently made the water in the pump bad, though it was splendid before. This shows the importance of good drainage, and the risk there always is of using water from a source that surface water can reach.

Cotton Exchange Officers.

The following are the newly elected officers and committee of the New Berne Cotton Exchange:

President, S. W. Smallwood; Vice-President, J. E. Latham; Secretary, James Redmond; Treasurer, T. A. Green.

Stole and Sold a Boat.

A negro boy, about grown, named Wm. Henry Robinson, stole a small skiff from Mr. F. H. Cook yesterday and sold it at a low price to Capt. John Moore, of a lumber barge loading at Stinson's mill.

The boy represented that the skiff was one his father left him. Soon after the sale the boat was discovered to belong to Mr. Cook and the boy was sought. He had been run down and kept secure on the logs until other land arrived, being notified that he was wanted, and took him in chains.

The trial was held before W. G. Brinson, Judge, and the boy was found guilty of Superior Court in the sum of \$100. He could not give the boat and a new one in jail.

SOMETHING NEW.

A Masquerade Cake Walk to be held Monday Evening.

An event is to take place in Stany Hall Monday evening that will be something new and full of fun for our citizens from beginning to end.

The event is a masquerade cake walk, and about fifty couples are expected to be on the floor, accompanied by a graceful move and a "loud" costume.

All the young men taking part in the walk are requested to make their engagements for this evening, and hand them in to either Mr. T. C. Daniels or W. T. McCartney, Esq.

The cake walk is for the benefit of the Red Team, and every member is expected to participate in the walk.

New Grocery--Armstrong & Baxter.
Mr. Edgar Armstrong, who for five years past has been clerking for Mr. C. H. Fowler, of Stonewall, moved up to New Berne Thursday to go into business for himself. He will be in partnership with our townsman, T. S. Baxter.

The firm will be Armstrong & Baxter. They will be in the store at the market ward adjoining Mr. S. H. Scott. The line will be groceries.

Mr. Baxter, who is a carpenter and builder does not propose to let the business interfere with that trade. He will follow that as heretofore.

THE PROFITS IN TOBACCO

And What Osnow County is Likely to Do Next Year at Raising It.

The attention of farmers all around us is being turned to tobacco as a money crop as it has never been before. They see what neighboring farmers have done and see no reason why they should not be equally successful. Those who had thought it a waste of time to raise tobacco, are now getting ready to begin to cultivate it.

Articles in the Jacksonville Times indicate that Osnow county will embark in the culture of the weed to a pretty good extent. Here are some of the statements we clip from the Times:

"We have been informed that Messrs. Frank Mills, Lewis Bynum and W. H. Mills of Moseley, will plant tobacco next year. No better land in the State for tobacco than there is around Maysville."

"We have the very best reason for believing that next year there will be a large acreage in Osnow and Jones counties devoted to the culture of tobacco. Our farmers have been slow in taking advantage of the opportunity of securing the handsome returns that result from the intelligent cultivation of this crop. His land is old pine field, light gray or sandy soil. Osnow has thousands of acres of this land--why not make it profitable?"

"Tobacco is a good crop for the small farmer; by the aid of his children and with but little hired help, he can cultivate and house four or five acres and make big money considering the outlay."

"1,000 pounds per acre is an average crop and as it sells from 12 to 25 cents a pound it is easily seen that it is one of the best paying crops in this section."

Baptist Missionary Lecture.
Rev. S. J. Porter, pastor of Middle Street Baptist Church give an interesting lecture Thursday night on Brazil to which to which country he was for some time a missionary.

The lecture took in a pretty wide scope historical, descriptive and religious. He described the country as a beautiful one and dwelt specially upon the beauty of Rio. He told of the people, the hold the Catholic religion has upon them and the need there is of enlightening them with the Bible and the news of its simple gospel salvation.

Much of the lecture was from the speaker's own personal knowledge.

Married.

Wednesday, Oct. 2d; at the residence of Mr. W. H. Sawyer of Bayboro, Mr. Bradford L. McCotter, of Maribel to Miss Jennie Sawyer, Rev. J. C. Jones, officiating.

A WONDERFUL LAND.

I will sing you a song of a wonderful land. Where the wheelwoman doesn't exist.

Where the girl that you love is as childish and bland. As the girl that your grandfather kissed.

Where the bloomers don't bloom, and the skirts don't divide. And the maiden don't box or make bets;

Oh, the girls of the South we assure you with pride. Don't talk slang and smoke cigarettes.

FIRST TELEPHONE PUT IN.

The Wires About Three Fourths up--Will be Ready For Operation Soon.

The first three telephones of the New Berne system were put up yesterday. The first one was at the water works, the next at J. H. Hackburn's store, the third at H. W. Simpson's. G. W. Wyman is doing this part of the construction work. He expects to put in about ten a day now, until all are in.

About three fourths of the work of putting up the wires is done. The system is expected to be ready for operation about the 10th inst.

NEWS IN BRIEF.

The Wilmington Star says there was only one foot three inches water in the river at Fayetteville Tuesday at 8 a. m.

Secretary Carlisle has accepted an invitation to attend the banquet of the Reform Club, at Boston, Mass., October 12, next. He will be the principal speaker at the feast.

Wednesday night fire started in Brookland, the town just across the Congaree river from Columbia, S. C., which completely destroyed eleven stores and residences, wiping the business portion from the face of the earth.

Secretary Hoke Smith is reported as saying that one more bond issue would kill the Democratic party in the South. He is completely out of it. A dozen more bond issues cannot kill the old party. But one more will help to kill those who favor it. There is a difference right here. Put the responsibility right--Wil. Messenger.

The dangers of rail are minimized and the United States railway service show "one passenger is killed for every 2,000,000 passengers carried, or every 44,103,228 miles traveled. One is injured for every 4,709,771 miles traveled, or one out of every 204,248 passengers carried."

Mrs. Langtry has made a formal demand upon the Union Bank of London, for the sum of £40,000 value of jewels she deposited with the bank, which were subsequently given to a stranger upon his presentation of a forged check.

The Durham Sun says: "Durham with her 8,000 population, is a church town. There is now in Durham and the suburban places, white and colored, no less than nineteen churches. Of this number the whites have thirteen. The erection of another one has commenced in North Durham, on north Mangum street, where the North Durham mission has been so successfully conducted for a number of years."

The cotton planters of the South are this year receiving about 2 cents a pound more for their cotton than they got last year. This is an advance of about \$15 a bale. Estimating the crop this year at 8,000,000 bales, which is 2,000,000 under some of the estimates, the 2 cents a pound will bring \$130,000,000 more into the cotton States than last year.--News and Observer.

"Some of the goldites, echoing Secretary Smith, say 'free coinage is un-American.' When did it become un-American? When John Sherman, after long trying, sneaked the demonetization of silver through Congress? Up to that time no Democrat ever opened his mouth against the free coinage of silver, which was the people's money, as it is now, and a money as honored as gold for 82 years, during most of which time the Democratic party was in power."
