Horse Exchange Burned.

NEW YORK .- The American Horse Exchange building, on Broadway be tween Fifth and Fifty-first streets, was totally destroyed by fire. Over 125 horses were killed, including the famous horse, Alfred G., with a record of 2:19, and valued at \$7,500. It is estimated that the damage on the building will be about \$200,000. The loss on stock is estimated nt \$75,0030 to \$100,000.

Murdered in Their Sleep.

HARLEM, Ga -A. T. Verdoy and George Edmonds of Columbia county were brutally murdered at the home of Edmonds, They were both attacked nati 8. while asleep in bed, the murderer using a large stick, which was found in the room.

They were both houribly beaten in the face. No clew as yet has been obtained concorning the identity of the guilty party and the crime is wrapped in mystery. Parties are out looking for the murderer and if found he will undoubtedly be sum marilo dealt with.

NEGROES LYNCHED. Bragged From Jall by a Mob at

Bryan, Texas. Housros, Tex.,-Lou Whitehead, George Johnson and Jim Reddick, three groes, were taken from the jail at Bryan, one hundred miles north of here, and hanged. Whitehead and Johnson were charged

with attempting to criminally assault the twelve-year-old daughter of Dr. R. H. Wison, Sunday night. Reddick had been convicted of the crime of rape on an Italian girl and sentenced to hang, but the decision was reversed by the higher court and he was held awaiting a new

Finally Determined. Pavo Reed Belegates, Sugar Planters In terested in Delegates.

Sr. Louis, Mo., June 12,-The Dela ware contestants not being ready, the National Committee this atternoon, took up contests of delegates at large.

In the case of Louisiana representatives the regular Republican party represented the contestants. They are Wm. Pitt Kellogg and Albert Leonard, (white), Reed men; Henry Demas and James Vance, (colored), McKinley men. Their oppo nents are nominees of the National Republican Sugar Planters' Convention, McGinnis, Carnsy, Anthony, Doberty and Hackney, all white McKinleyites.

Leonard's seat was also independently contested by Andrew Hero.

McGinnis' quartete had advantage the State Committee setting forth that it to St. Louis and take part in the antewas the regular convention.

It was argued that if the sugar planters' delegates were countenanced that Louisiana would go Republican. The Kellogg Delegates were unan

WASHINGTON NEWS.

DULL CLOSING OF 54TH CON-GRESS.

Great Interest in Financial Platforn at St. Louis, Naval Appropria. tion Bill. Compromise on Indian Bill.

JOURNAL BUREAU,) WASHINGTON, D. C., June 12. Never was there less interest shown in ession of Congress. Usually the galleries 12 1-2c., at are crowded, but in this instance there were only the everyday attendance of tourists and idlers who may always be found in the Capitol when Congress is in session. Owing to the anxiety of repubhaving certificate from the chairman of lican Senators and Representatives to get convention maneauvers there was the greatest difficulty in keeping a quorum on hand during the last two days of ses-

sion. The House revoked all leaves of absence and telegraphed the absentees to come back, but not only did none of those who had gone come back but others kept going all the time They knew that the only business that Congress would attend to was the reconciling of differences between the House and Senate on appropriation bills, and they were more strongly attracted towards St. Louis.

The interest in the financial plank of the platform to be adopted by the St. Louis convention has been intense all the week and will continue until the convention removes all doubts. All sorts of rumors have been flying around as to deals that were being made which would affect that plank. It was positively stated that Presilent Cleveland had offered to throw the influence of the administration to the ticket cominated at St. Louis, if the convention would adopt a single standard gold plank. The fact that Senator Teller, who is so prominently spoken of as the probable silver candidate, for President, was ignored in the numerous conferences which were held during the week by Republicans in both branches of Congress who are delegates to the convention caused much gossip. It is regarded in Washington as certain that the St. Louis convention will not declare for gold alone although many gold men are delegates. It is equally certain that it will not declare for silver. Its floancial plank is likely to mean gold, but to be so worded that it will not drive off the conservative silver men of the party.

The Naval appropriation bill which only rerebed the President the day before adjournment was in its most important features a compromise between the House and Senate. The House wanted four battleships, the Senate two; the bill pro vides for three. There was a read bot fight over the clause author zing the Secretary of the Navy to contract for armor plate at a given price. It being found impossible to reach an egreement, the whole clause was struck out of the bill and a clause instructing the Secretary to make no more armor contracts until further action by Congress inserted. Members of the House do not consider that the Senate Naval committee got to the bottom of the armor plate bus nees and they propo to do some investigating on

their own hook next winter. The long and at times the bitter contest between the Senate and House over that portion of the Indian appropriation settled by a rather clumsy compromise, which declares the government policy toward church schools to embrace educaaccount of the depression in the woolen the Indians only. It would take a smart trade and the uncertain outlook for the man to tell just what was meant by that declaration. The substance of the com-Four hundred quarrymen went on promise is contained in the clause which Stone Company near Beren, Ohio. The more of government aid to the sectarian men demand that all non-union men be Indian schools, to which was added another meanless provision—that the school funds shall be as nearly as possible equally apportioned among the schools of the various denominations.
