THE BORO.
Meetings of the Past Week.
In our incubations in this department it is not our purpose to originate, but simply to reflect the public expressions of opinion, on current happenings during the week.
In this connection the Editor of the JOURNAL is the most commendably talked of man in the community, and deservedly so.
Instead of burdening his editorial columns with stale platitudes, and rehashing a lot of political clap-trap which no matter how spicily written, or vigorously presented, is of a necessity but the same old tune with variations, he has started a campaign for the upbuilding of New Berne and incidentally and necessarily, its contiguous territory.
In small communities, this is the highest field of Journalism, as it best accomplishes that which should be, and is, the highest aim of a public print, the development and upbuilding of the business interests of the place and consequent increased happiness of the people.
You have struck the right key—persist in it, "keep everlastingly at it" and while results may not materialize at once, yet be assured that in this, as in all other instances where a good cause is persistently advocated, it is sure in the end to be successful.
We look for very great results from Your Campaign of "Industrial Progress."
Your suggestion the other day of shelling East Front street was a good one, and I am heartily in favor of it, after upper Pollock and Broad streets have been similarly treated.
The latter streets are the traffic arteries of the city, over which are drawn the various vehicles that visit us from the country, many of them heavy laden, and at the end of their journey the drivers, if not the poor horses, naturally look for better travelling when in our corporate limits than they did upon the county roads, but they traverse half the city before they find any improvement. This should not be so, and we therefore insist that the preference should be given the vehicles of traffic rather than those of pleasure (who would be benefitted by the improvement of East Front street) which now have a number of splendid streets upon which to drive.
It is to be hoped that the agitation for the return of the revenue cutter Winona may result in her early return to these waters, for aside from the pleasure obtained by having as citizens, the clever gentlemen who are officers of the vessel, there is a utilitarian side to the question.
The monthly pay-roll leaves more than one thousand dollars per month with our merchants, and house owners, and in a town of this size adds in no small measure to the volume of our currency.
By the way, it may not be generally known where the name of the cutter is derived. It is true it is named for the city of Winona, in Missouri, the home of Mr. Windom, who was Secretary of the U. S. Treasury when the vessel was contracted for, and who named her, but the name of both city and vessel is Indian and is written and pronounced—We-noh-nah and means "the first female child."

Narrow Escape from Drowning.
Mr. Wm. S. Parsons, boarding officer in the quarantine service, had a very narrow escape from being drowned yesterday. He was returning from the quarantine station in a small boat when a squall struck and the boat capsized about a half a mile from shore. The ferry boat at once went to the rescue, running down to him with the intention of picking him up, only by the merest chance Mr. Parsons dodged the boat and missed being run over. The ferry boat came to, and dropped anchor a little distance from him.
A canoe was on the river at the time of the accident and immediately the occupants headed the boat for the man in the water and succeeded in picking him up. If Mr. Parsons had not been perfectly at home in the water, it would have been unfortunate, as it was he swam around until the canoe came within reach, and he was taken out of the water.
Crops, Not Like Weather.
The rain has proved a blessing to our farmers and most of them are now full of thanks and joy. They smile sweetly upon all the world to think of the promising crop of cantaloupes. The citizens living around Taylor's circle, or Frog Pond, before it took upon itself the more dignified name, amused themselves all day yesterday by seeing the choking dust strangled by the rain. All were exuberant but the cyclists. Mud everywhere! The wheelmen said—The wheelwomen pouted, were ill at ease, and would not be satisfied.
Wants a Warehouse.
Adolph Cohn, who lives in Craven county, about eleven miles from this city, was a caller at the JOURNAL office last evening, exhibiting a picture of a field of his tobacco, and a very handsome sight it made, with the plants looking strong and large. Mr. Cohn says that on the 25th of May, he measured some of the leaves which were eighteen inches long and twelve wide, and there were twelve to sixteen leaves on each stalk.
There are twelve acres of this tobacco in 'one place, and it is need less to say that Mr. Cohn is an earnest advocate of the establishment of tobacco warehouses for New Berne.

VOICE OF THE PEOPLE.
Again Those Sidewalks.
Editor Journal:
In Wednesday's issue of your paper, I noticed a communication signed Progressive Citizen, relating to the miserable condition of some of our sidewalk pavements.
I thoroughly approve of the sentiments of that writer, and think the pavements on Middle and Pollock streets (with some exceptions) a disgrace to our city. Some years ago these same sidewalks were as badly in need of repairs as they are at present, and despite the complaints of our citizens, the persons who owned the property where the repairs were needed, would make no move to remedy the evil.
Finally the city authorities took the matter in hand, repaired the pavements, and sent the bills to the owners of the stores in front of which the improvements were made. Now if the persons who are at present responsible for these evils will make no attempt to correct them, I for one, am in favor of the city fathers taking it in hand for them again.

Electric Bitters.
Electric Bitters is a medicine suited for any season, but perhaps more generally needed, when the languid exhausted feeling prevails when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison, Headache, Indigestion, Consumption, Dizziness yield to Electric Bitters. 50c and \$1.00 per bottle at F. S. Duff's Drug Store.

Tournament at Vanceboro, N. C.
A correspondent from Vanceboro writes that a grand time is anticipated at the bicycle tournament which will be held there June 20th. After the tournament a coronation ball will be held. For the accommodation of the New Berne people who wish to go the steamer Carolina will leave here at 7 o'clock in the morning, and return at night, Messrs. O. D. Lewis and A. J. Gatlin, have been appointed managers of the tournament.

Take Notice!
The best thing for New Berne that has ever happened. An enterprise that will be ever a success. We are now sawing cook wood, stove lengths, the very slicest kind, and storing it away under large shed houses; keeps dry always in rainy weather, and never gets wet.
We keep a large stock of this kind on hand. We cut the prices on sawing, as we are better prepared to do it cheaper than heretofore, and we now deliver it in your wood houses or anywhere you want it, without any trouble to you, only give your orders to BIG HILL, the Shingle Man.
You can also do Big Hill a favor, by reporting to him, if his own carts don't deliver the wood anywhere the customer may want it put. We have polite draymen and nice teams ready to serve the good citizens of New Berne, if they will only take hold of an enterprise like this, one that has never been offered to New Berne like this before.
Respectfully,
BIG HILL, The Shingle Man.

REMOVAL!
DR. LEHISTEN DUFFY has removed his office from Broad street to the Brick Building opposite Mrs. Kaler's bakery on Middle Street. The building will be used both as an office and as a residence.
NOTICE.
A new enterprise, one that New Berne has been waiting for a long time. We are now sawing cook-wood into stove lengths and are cutting prices on sawing as we are prepared to do so. We can deliver your cook-wood in your woodhouses or anywhere you want it with our own carts, without any trouble to you. Only give in your orders to Big Hill, the great shingle man. This wood is kept under large sheds, and never gets wet in rainy weather. Give me a trial.
