#### NO GOLDITES WANTED.

#### SILVER MEN RESENT THEIR ATTEMPTED INFLUENCE.

Aitgeld Says One Bay Convention ! Silverites Control. Less of Bolt. Fight is Against Two Thirds Rule.

CHICAGO, July 2.- Many of the silver men here manifest a disposition to resent the announced intention of the gold advocates, who are not delegates to the convention, but who are coming to Chicago with the announced intention of influencing the course of proceedings.

Governor Altgeld says if the silver men have their way it will be a one day

Sepator-elect Money says it is an unheralded proceeding that such men as Whitney and Eckels, who have no credentials. should attend the convention with the intention of influencing the action of delegates on a question of principle, and their purpose should be justly resented. There is less talk, today, of a bolt

though a deadlock seems inevitable unless the two thirds rule is abrogated. It is maintained that under the rule to much power is given the minority, an

that the majority should rule. The Illinois delegation is making strong fight for the abrogation of the tw thirds rule. Other silver States are will ing to fall in line.

## Bodies Not Yet Beached.

WILKESBORO, Pa.-The situation at the Twin shaft is not so hopeful as it was, when considerable progress was made down the slope. No bodies have yet been recovered, and

there have been no indications that the botles are near, and it is doubt of if any will be found for days to come.

The work of rescue will be prosecuted through the slope. This decision of the officials was not concurred in by all the miners, and the opinion was expressed that possibly the cave is not so extensive next to the Clear Spring, and not so much work would be required as where the men are now working. It would be quicker to go over 2,500 feet and simply timber than to go 600 feet and dig and timber

the cave belond them, rushed toward the Clear Spring harrier and were there imprisoned in an open space, is colortained by only a few. At any rate it was decided to give up operations from the Clear Spring side and confine all efforts to the slope now being worked.

The bore hole which had been stated.

The bore hole which bud been started through the barrier that separated the Char Spring mine from the Twin shaft on the other side of the save was completed. The hole is only as inch or two in diameter and was put through the hundred feel of coat to find out whether there was water or gas in the mine. As soon as the drill was trawn, no water came through and there is very little gas \$300 fine, was received by clock Lincoln of the started district country, having in 1882 voluntarily adopted a came through and there is very little gas \$300 five, was received by clock Lincoln of the district court.

ator Harris for Temporary Chairman. Boies and Bland Strength Compared, No Compromise.

CHICAGO, July 2-Senator Bischburn, Kentucky, who is becoming prominent as a presidential candidate, says that while he did not want any delay in the convention, he was opposed to all gag law, and wanted the Convention to go on record as noted for its fairness,

This evening it was announced that the silver leaders had dec'ded upon Senator reductions. Harris, of Tonnessee as temporary chair man of the Convention.

This is declared to be a Bland victory. The talk is that ex-Gov. Boies has the greatest natural strength, though Bland shows great strength.

The silver men scout the idea of an compromise with the gold men.
