TAPS VIRGINIA COAL FIELDS.

Award of Contract for a Railroad to Southport, N. C.

NORFOLK, Va.—The foreign and coastwise coal trade and the grain export trade of Baltimore and Norfolk are shortly to have a formidable competitor to the southward. The contract has been awarded for the construction of a railroad from Wilmington to Southport, N. C. At Wilmington the new road will connect with the great lines entering there; and will itself be extended westward. The latter, Southport, has one of the finest harbors on the coast, being accessible to vessels of the deepest draught. There will be located large coal piers tapping the coal fields of Southwest Virginia and the grain regions of the West via Yadkin Valley line. The new road will probably make Southport a formidable rival of Northern cities. J. E. Challenger, President of the Philadelphia Car Service Association, is one of the promoters.

HAVE NO TWO THIRDS.

GOLD MEN WIN MICHIGAN DELEGATION.

Illinois to Vote For Bland First Ballot Gold Men to Work Temporary Organization. Stewart Booming Teller.

CHICAGO July 6—It is reported here to day that Bland will get the Illinois delegation vote on first ballot.

The National Committee is in control of the gold men, and the first test vote was taken this afternoon at three o'clock on Nebraska case, it was cast on delegation for gold men who were placed on temporary roll by a vote of 26 to 23.

This means that the gold men will make up the temporary organization. The Michigan regular gold delegates were sent by a stronger majority vote than expected, and are headed by Don, Dickinson. The committee will be in session to a late hour tonight.

The gold men's victory in seating the Michigan delegates leaves the silverites without the greatly coveted two thirds majority.

Senator Stewart, of Nevada, is booming Senator Teller for the Presidency.

After a fight of nearly three hours this afternoon, the North Carolina delegation adopted the unit rule as to their vote on their candidate and platform.

This motion was carried by a majority vote of one.

The delegation is in entire accord as to silver, but are split on the candidate. If majority insist on unit rule in respect to the candidate, the minority assert that they will appeal to the convention.

Fell From an Excursion Train.

BRADFORD, Pa.—Bert Harrington, aged sixteen, of this city, accidentally fell from an excursion train on the Erie Railroad, near Poland Centre, and was instantly killed. Some truck laborers found the body lying along the side of the rail.

Shot by Tramps.

JAMESTOWN, N. Y.—Roy Wideman of Binghamton, N. Y., was shot by tramps in an Erie freight car in this city. He was stealing a ride and had gone to sleep. When he woke up he was being robbed by two men, and when he attempted to rise, one of them shot him, the bullet taking effect in his breast, over the heart.

Ravages of the Cholera Scourge.

CATRO.—The official cholera returns show that there were reported throughout Egypt 489 new cases of the disease and 383 deaths, including 27 new cases and 9 deaths among the Egyptian troops at Wady Halfa, on the border of the Soudan.

Bike Record Broken.

NEW YORK—Arthur E. Smith, the western bicyclist, who left Chicago Sunday for this city, in an endeavor to break the bicycle record of 142 hours and 15 minutes between that city and this, arrived here at 8:21 o'clock smashing the record by four hours and fifty-four minutes.

Miners May be Alive.

WILKESBARRE, Pa.—There is just a possibility that some of the men entombed in the Twin Shaft at Pittston may be taken out alive.

The rescuing party, on coming to the surface reported to Mine Foreman O'Brien that they heard rappings on the rails of the gangway road which may have been caused by some of the entombed men.

The rappings were clear and distinct as if someone had struck the rail with a hard substance. The supposed signal was answered by the rescuers in the same manner. After a short silence the answer came clear and distinct. The sound seemed to come a distance of some 300 feet from where the rescuers were at work.

When this news reached the surface there were only a few persons at the head of the shaft, but in a short time it was spread throughout the city of Pittston and an immense crowd gathered, among them relatives and friends of the victims, in whose hearts hope had awakened.

The rescuers report that in their opinion they are within 400 feet of the entombed men. The shafts have been increased from twenty men to thirty-five, who are relieved every half hour. They are still cutting through the rock and progressing more rapidly than at any time heretofore since the work commenced.

After prolonged efforts and the use of every method of signalling possible, they came back with a report of failure not the least bit of noise indicating that their labor in this direction had been successful.

Fraser River Floods.

VANCOUVER, B. C.—High water in the Fraser River undermined the track between Agassiz and Hope Stations on the Canadian Pacific, and when the east-bound freight, without warning, struck the weak spot, the train, consisting of eight cars loaded with tea and one with coal, was thrown into the river.

that the river is steadily rising. At Chilliwack considerable damage has been done to crops on low lying lands and the steamer Gladys has been busily engaged for the past few days in removing cattle and settlers' effects to high ground.

Word has just been received from Westminister that the water at high tide was two feet eight inches below the mark reached during the floods of 1894. The steamer Gladys brings word that Sumas is flooded and the water is up to the banks at Chilliwack. A large portion of Dewdney is also under water.

At Langely the water is level with the landing, and at several other places it is over the wharves. Latest advices regarding the strike of fishermen at Rivers Inlet are to the effect that the strikers will probably soon give way, as the canners have a sufficient number of men at work to keep the canneries working.

Strikers have attempted to intimidate the Indians, but several special policemen have been sent up by the provincial government to preserve order.
