STATE POLITICS.

RUSSELL AND BUTLER STILL IN EVIDENCE.

Gibbs Wilson sticks by Guthrie. The Question of Fusion. Populist Organization. The New Democratic State Chairman.

JOURNAL BUREAU, RALEIGH, August 1.

Daniel L. Russell came in this morning. He was not in very high spirits and talked little. He was asked the pointed question, "Will the McKinley electoral ticket be taken down in this State?" He said "all the taking down will have to be done by our committee and the paps." He declined to answer as to any fact of his own coming down. Loge Harris and Bailey of North Carolina were with him. Harris told Russell in answer to his question regarding the notice of the Republican state committee meeting—that the notices had been sent out, that it met here on the 11th, instant. Russell was asked his opinion regarding the Democrat's executive committee resolutions in favor of fusion adopted Thursday night. He replied nothing was wanting save that the committee ought to have attached some "exhibits," there being editorials denouncing fusion as venal and involving moral turpitude. The Populist party (Miss Populism, suggested Harris) has jilted the Democrats for all their counting. But she is a mighty pretty girl all the same. "Won't you pay court to the lady too?" was asked by your correspondent. "Oh yes we had a bad case of affection in 1894" was the reply.

It was rather queer last night to see James H. Young, member of the Republican State Committee, waiting until the Conference between Senator Butler and Democratic State Chairman Manly ended, in order that he might have an interview with the Senator. Is the latter's pet idea and plan about to be realized, of getting all the silver men under one banner, without regard to race, color or previous condition?

W. A. Guthrie arrived here today. There has been a great deal of stir for a week past regarding his alleged attack on the Baptists. Othor Wilson is championing Guthrie stoutly. Sen. Butler's declaration, "The statement which Guthrie made at the alumni banquet was substantially what I said," shows that the Senator is also in line of battle for his devoted friend Guthrie.

It is almost as well to recognize the fact, say Democratic leaders, that nothing can stop fusion of the silver for us; that it is agreed on and that the masses, Democrats and Populists, demand it. "No power can prevent it," said in ex State chairman, one of the foremost men in the party council.

As Claude Dockery said the other day, "party lines are down in this State." The Republicans seem dazed, no matter if it was said the other day that their organization was better than in 10 years. The Populists have a perfect organization. Senator Butler always finds out what his people want and then he acts. Thus he may be said to lead without leading. It is perhaps the secret of his power as autocrat of North Carolina politics.

Populists are saying openly that they will never again vote for fusion with the Republicans. Ex State Senator, A. E. Green, of this county so says. It is asserted that Populists are now saying that county fusion is by no means settled. Up in Cleveland county they have done a queer thing, by fusing with Republicans, and J. Y. Hamrick, the nominee for the legislature, is pledged to support Pritchard for re-election as Senator.

Today some Democrats are saying: "If we fuse on the electoral ticket we ought to fuse on the State ticket too." But others swear there will be a storm if such a thing occurs.

Your correspondent heard a prominent man say today that in the western States there was actually talk of "secession;" that some people there wanted to get the South to go into such a movement. He added: "But it will never succeed."

This gentleman went on to say that if the Democrats had nominated Walter Clark for Vice President at Chicago there would have been none of the present Sewall-Watson complications.

Clemens Manly, the new Democratic State chairman, is a worker and a man of affairs. He said this morning he would today appoint his advisory or campaign committee. He chose the secretary, John W. Thompson, as a Raleigh man, for purposes of convenience.

Today Col. A. B. Andrews, acting president of the Southern Railway, was before the railway commission and especially urged it to reduce the rate of assessment on the North Carolina railway between Greens and Charlotte from \$12,500 to \$10,000 per mile.

Many lawyers were here last night in consultation regarding the Bank of New Bern case, more particularly regarding its branch J. S. Lockard, W. B. Allen, H. S. Hill, J. S. Adams, and others, were present.

The new shops of the Southern R. R. at Raleigh are completed and turned over. His hundreds of men with him employed.

The grain will be inspected at other cities.

Colorado Republicans Met.

Special.
DENVER, Col.—Every daily newspaper in the city condemns the conduct of the majority of the Republican State Committee for their action in endorsing McKinley and Hobart. The fact has been shown that the Denver men who held proxies for remote counties secured them by "misrepresentation," and their action will not be endorsed. Leading business men are deploring the effect this action will produce and they predict a defeat of the Republican State ticket and the return to power of the Populists. The effort to call the State Committee together again at an early date to repudiate the action will be strongly pushed.

No Money in Coffee Making.

WASHINGTON, D. C.—Copeland Schieffler at Vera Cruz, in a report to the State Department on a new tax placed by the Vera Cruz Legislature on coffee and tobacco planting wars Americans against embarking in the coffee raising industry and cites figures to show that in those parts of Mexico with which he is familiar the stories of great wealth to be gained by coffee planters does not apply. On land costing \$10 an acre it appears from his figures it would cost over \$50 in his years to get \$95 in return. He declares that the average annual product is near one-half pound per tree and three pounds as a better yield.

Henry Young, of New York, manufacturer of fixtures and ice boxes, confessed judgment aggregating \$12,000. His total liabilities are \$50,000 and his assets \$12,000.

WILMINGTON LETTER.

PLENTY OF MONEY TO BE SEEN ON ALL SIDES.

A City of Excursions. Hot Weather. Residences Going Up. Splendid Telephone Service. Profers McKinley and Good Money.

JOURNAL BUREAU, WILMINGTON, N. C., Aug. 1st.
Until this week we had to look at the calendar to assure ourselves that it was really summer. Wilmington had kept up her reputation as a summer resort. But for the past ten days, it has been so hot that the worst cranks on summer heat have retired from the scene in disgust. Even now when we see the temperatures from the interior States we cannot complain, as they have had eight or ten degrees hotter than we. Then our breezes. Ever fresh and reminding one of the near by ocean.
The politicians say free silver, or gold is necessary for prosperity, but our citizens listen indifferently for money is plentiful here. Witness the train loads of people going daily to the seashore, happy and contented.
Building has taken on a fresh impetus the past month, and a large number of ornamental residences are being put up in different sections of the city. Vacant lots on the good streets are becoming scarce, which is what we want to see.

Wilmington has undoubtedly the best telephone system in the State. Up to last spring we had to put up with the Bell telephone, which is all right in its way, but not modern. Now we have the Inter-state telephone, which is distinctly modern. Since this company's arrival the competition has reduced the price one-half, and now nearly anyone can afford a phone in his private residence. The lines extend down the ocean and seashore residents find it of immense convenience, to be put in such close connection with the city while enjoying summer life.

Mr. Gil Kidder has returned from Haiti. He will vote for McKinley and gold standard. He says he is glad to get back to civilization again. Has got very tired of carrying depreciated Mexican silver in his pockets. Takes so much of it to buy what he wanted.
Clarence Maffitt, well known to every one in Wilmington, arrived at home this week. He shipped on the schooner Woodruff as second officer. Unfortunately the schooner was wrecked at the Bahamas, and he was obliged to cut his trip off shorter than he wished.

There were seventy prostrations in St. Louis during the hot spell and ten deaths.

SAVANNAH, Ga.—Forum Troupe, who for seven years had dodged warrants for horse stealing, was killed by a sheriff's posse near Dublin, Ga. in trying to escape arrest.

CHICAGO.—The Jenkins Cycle Company, manufacturers of the Napoleon wheel have made an assignment. The dead places the assets at \$109,900 and the liabilities at \$77,163.

Six Chicago people attempted suicide Thursday. Four of them succeeded. They are John Carrington, Frederick Gross, and Eva Skulup, who were out of work, and Michael Oppelt, who was despondent over ill-health.

ATLANTA.—A special to the Constitution from Orchard Hill, near Griffin, says that George Taylor and James Whateley were killed there by lightning. Five others were seriously injured.

The movement to secure a suspension of the distilleries of Kentucky, for eighteen months has at last been successful. All preliminaries were finished at a meeting of the committee held yesterday morning at the Union Nation Bank, in Louisville. The agreement becomes effective at once.

The executive committee of the National Irrigation Congress met at Denver, Colo., and fixed the time for the fifth national meeting, which is to be held at Phoenix, Ariz., for Decem' or 13, 16, and 17. The session will be almost wholly devoted to consideration of the practical phases of the irrigation problem.

ATLANTA.—A special from Rome to the Constitution says that Tom Evans, a negro attempted an assault on a young lady named Doug, twenty-five mile down the Decatur railroad, Evans was captured and given his choice between being lynched or taking 100 lashes. He chose the lashes. They were duly given, and he was turned loose.

GRAND VALLEY, Cal.—A fire broke out to Angell's Opera House and rapidly spread until the whole block was ablaze. Twenty five houses and business premises were totally destroyed and twelve others partially burned. The total loss is about \$150,000. The fire is believed to have been of incendiary origin.

Two masked men walked into George Hotster's saloon, Cincinnati, Ohio, and demanded Hotster's money. Hotster refused. The masked men opened fire and shot Hotster four times, killing him. Hotster, however, had fired one shot and hit one of the robbers in the left eye. This robber, who was captured, gave the name of Thomas Carter. The other robber escaped.

HUNDREDS ARE DYING

Every Day With the Cholera That is Scourging the City of Alexandria.

WASHINGTON.—Advices received at the Marine Hospital from Alexandria, Egypt, show that the cholera outbreak there has got beyond the control of the sanitary authorities.
For nine months they have fought the disease with energy and as long as the infected areas were small the limit of force of European doctors were able to handle it. Now, however, the dimensions of the outbreak forbid any successful attempt to stamp out the disease.
The report dated July 11 says that during week before last fresh outbreaks occurred in 69 different places and last week 87.
During the seven days up to the 1st inst 1,200 deaths were reported, and in the following six days 1,700 deaths.
So far 8,069 deaths have occurred during the present outbreak and it is feared that these figures will be largely increased before the disease runs its course.

The sanitary condition of the city is dreadful. There is practically no system of sewerage and the streets are fearfully dirty.
The scourge cannot abate before cooler weather sets in, probably in November.

Columbia Qualites

What do we mean when we emphasize Columbia Quality? Here are two Watches. They seem alike. Examine the works. They look alike. What is the difference between them? One is an ordinary Swiss watch and the other is a Jorgensen or Frolsham. They certainly look alike, yet if you want a TIME-PIECE the Jorgensen is worth a hundred of the other.

What the name of JORGENSEN is to a watch, what the name WORTH is to a Garment, what the name PULLMAN is to a Railroad Car, the name COLUMBIA is to a Bicycle. It represents the most advanced ideas of Bicycle construction of today, backed up by two decades of practical experience.

It is a maxim of all nations: YOU CANNOT HAVE QUALITY WITH OUT COST. But to this should be joined the other maxim of all ages, the BEST is always cheapest in the end. COLUMBIA QUALITY is the most inexpensive for any wheelman to buy.
