FUSION UNNECESSARY.

POPULISTIC SENTIMENT WANING IN ALABAMA.

Such is Democratic View. Old Time Democrats Returning. Tom Watson Now Clearly Knocked Out. Various Opinions.

WASHINGTON, D. C. August 5.—The result of the election in Alabama, by which the Democratic ticket prevailed with some 40,000 majority as against the fusion of the Populists and Republicans appears to be in every way satisfactory to the Democratic campaign managers.

Senator Faulkner said the victory of the straight-out Democrats indicated a material decline in Populist sentiment, as the victory shows a gain of 15,000 over the vote of two years ago, when Oates defeated Kolb for governor.

The result in the white counties, he said, was especially significant, as it indicated that those who had formerly acted with the Democratic party were returning to their allegiance, and would vote with them for Presidential electors.

Although the Senator expressed the opinion that the Democrats could carry every Southern State without the aid of fusion with the Populists, he thinks there should be a fair and equitable division of electors on some basis that may hereafter be arranged.

Other Democrats, not tiring in official capacities, regard the result of the Alabama election as being a debatable to Watson. These believe that the Populists have heretofore only been dangerous in the South when they combined with the Republicans.

With the election as an example, other combinations of this character will be futile. If there is a Populist bolt in the South, they argue, it will not help the Republicans, and cannot injure the Democrats in all the Southern States the Democratic vote is sufficient to defeat both the Populists and Republicans as long as the two latter are separated. Any threats that may now be made by Mr. Watson will fall upon deaf ears.

The attitude of the Populist national committee now becomes of great importance, and the meeting of that organization is awaited with unusual interest. Senator Butler is expected here this week, and will have a conference with Senator Jones. It is believed here that Senator Butler is in thorough sympathy with Senator Jones, and will render him every possible assistance, not only in helping toward the election of Bryan and Sewall, but also in the work of getting Watson out of the way.

Secretary Turner, at the Populist headquarters, says: "I think a majority of the Southern Populists are ready to support Bryan and Sewall. They are too heartily in favor of silver to make any sort of fusion with the Republicans probable in the Presidential campaign."

Vice Chairman Apsley, of the Republican committee, said the result in Alabama was not in the nature of a surprise. The Republicans have not been in the receipt of any advice to the effect that there was a possibility of their carrying the State. It was simply a case of the Dutch taking Holland.

He did not believe the result would have any bearing on Republican chances in other Southern States, such as Tennessee, where the prospects are fairly good for Republican success.

The visitors and officials at Democratic headquarters were greatly encouraged by the returns received from the first election held in the State of Maryland since the beginning of the campaign, and which serves as a straw to indicate the direction of the wind.

The election was held in the town of Brunswick, near Frederick, which is a purely railroad and laboring town, the Baltimore and Ohio shops being located there. The town and county have heretofore been strongly Republican, but the Democrats elected the mayor and three out of four councilmen. This is regarded as the first decisive victory for free silver.

Senator Faulkner said the result at Brunswick was a good illustration of the direction in which public sentiment was drifting. He said the workmen and laboring classes were taking the matter of politics in their own hands, and henceforth would not obey the dictates of their employers.

This was indicated by the combined triumph of Democracy and free silver. Senator Gorman, who was present, also regarded it as a significant occurrence, showing the preponderance of silver ideas among the workmen.

It now seems to be definitely settled that Senator Gorman will not be chair man of the Democratic executive committee. It is his wish that no official position should be assigned him, but he proposes to work just as hard for the success of the ticket. He says:

"It is the same now as in 1888 and 1892, when I gave every aid in my power to Mr. Whitney and Mr. Harris, but would not take any chairmanship. In the present campaign I will aid Senator Jones in every way possible, but under no circumstances would I assume the duties of chairman of the executive committee."

Senator Gorman, who has of late been mentioned as a possible Vice Presidential nominee in case a third ticket is selected, has returned to the city, and announces in the most positive terms that while he believes in the gold standard, he will vote for Bryan and Sewall, will accept no position on any third ticket, and that when he retires from the Senate next March he will withdraw from public life for good and all. He does not believe that Mr. Watson will cut much figure in the State of Georgia or anywhere else.

ZEB VANCE WALSER.

For Attorney General on Populist State Ticket. Sentiment Among Populists is Against Fusing With Democrats.

RALEIGH, N. C., Aug. 5.—A prominent Populist says that his party will nominate Zeb Vance Walser for Attorney General.

It is asserted that Walser is one of the most ardent silverites in the State. It is said that there will be a fight in the Populist convention against Senator Butler if he tries to force fusion with the Democrats.

Columbia Qualites

What do we mean when we emphasize Columbia Quality? Here are two Watches. They seem alike. Examine the works. They seem alike. What is the difference between them? One is an ordinary Swiss watch and the other is a Jorgensen or Fred sham. They certainly look alike, yet if you want a TIME-PIECE the Jorgensen is worth a hundred of the other.

What the name of JORGENSEN is to a watch, what the name WORTH is to a garment, what the name PULLMAN is to a Railroad Car, the name COLUMBIA is to a Bicycle. It represents the most advanced ideas of Bicycle construction of today, backed up by two decades of practical experience.

It is a maxim of all nations: YOU CANNOT HAVE QUALITY WITHOUT COST. But to this should be joined the other maxim of all ages, the BEST is always cheapest in the end. COLUMBIA QUALITY is the most inexpensive for any wheelman to buy.
