## WASHINGTON LETTER.

### GOLD AND SILVER MANAGERS STILL BLUFFING.

Gold Democrats and Hanna, Chairman Jones Explains His Remarks on Populists, Tom Watson to be Thrown Down.

JOURNAL BUREAU, WASHINGTON, D. C., Aug. 7th.

It would be interesting to know how long the gold and silver managers expect to keep their present meaningless bluffing, and what either side expects to gain by it. The silver managers started it by a series of newspaper interviews speaking in glowing terms of the tidal wave growth of silver sentiment in New England, New York, New Jersey and Pennsylvania, and the gold managers went back at them with interviews claiming that a great reaction was going on, against silver, in such States as Colorado, Idaho, Utah, etc., and that this reaction, together with the existing sentiment in favor of protection, would give McKinley the electoral votes of those States. Now, every man who makes even the slightest pretense to keeping posted on the drift of political sentiment knows that such statements are mere bluffs, and that the men who make them to be such, and further, that there is little probability that silver will get any electoral votes from the eastern States, and not much, if any, more that gold will get any electoral votes from the extreme west. It looks like the managers on both sides are making these statements for their effect in the States which they know to be doubtful, which include a considerable portion of what are popularly known as the middle western States. It is not flattering to the intelligence of those voters who are in doubt on the subject to suppose that they are more anxious to go with the winning side than to be right. Yet that supposition appears to be held by the managers of both the gold and silver tickets.

There was considerable amusement among the politicians when the report reached Washington that the gold Democrats of New York had tried to make a deal with Mark Hanna, on the basis of their voting for McKinley and Hobart and Hanna guaranteeing that the next New York legislature, if controlled by the Republicans and gold Democrats, would elect a gold Democrat to succeed Senator Hill.

The relations between the Democratic and the Populist managers are somewhat strained, owing to a number of things, including that unusually big Democratic majority in Alabama. Senator Jones, chairman of the Democratic National committee, tried to pour oil on the troubled waters of the political partnership by giving out, just before he left Washington for New York, where he expects to remain until after the Bryan and Sewall notification meeting, which will be held next week, a signed statement denying the correctness of a widely published interview in which he was made to speak very slightly of the Southern Populists as a class. Senator Butler, chairman of the Populist National committee, has not been in Washington since the meeting of the National convention, but he is expected daily at the headquarters which have been established. He is credited with a strong liking for Bryan, and a desire to shelve Tom Watson in favor of Sewall, but I am quite sure he has not authorized any body to say as much.

Speaking of Tom Watson, the impression is general in Washington that the Democrats intend to throw him overboard without ceremony in the end, but that they will postpone doing so as long as possible, so as to get as many Populists committed to Bryan as they can. It is thought that Watson has an inkling of this plan, and that he will make some trouble when they start to carry it out.

Logan Carlisle, chief clerk of the Treasury department, and a son of Secretary Carlisle, has bolted Bryan and Sewall and the Chicago platform and announced his intention to vote for McKinley and Hobart, unless a gold Democratic ticket is put up. This is regarded as indicating to a certainty the position of Secretary Carlisle, as it is probable that Logan Carlisle would not have come out so plainly on this matter without having discussed it with his father and it is reasonably certain that unless his father has thought as he did he would have kept his mouth shut.

Never Said It. BUREAU HAY, August 7.—President Cleveland denies giving any advice regarding the course to be pursued at the Indianapolis conference.

Said to be Losing Ground. CANTON, O., August 7.—Captain Washburn, of California, said that silver is losing ground throughout the West, particularly so in California.

Jones' Party. Secretary of the House of Representatives, will meet Mr. Bryan at Pittsburgh, and accompany him to New York.

## AMERICAN SHIP LOST.

Disaster Occurred in May—Details Have Just Been Received at the State Department—Twenty Persons Were Lost.

WASHINGTON, D. C.—The Falkland Islands, off the east coast of Patagonia, were in May the scene of a marine disaster involving the loss of nearly twenty American lives, which as yet remains wrapped in mystery.

Consul Miller reports that on the evening of May 14 news was brought to Port Stanley that a large ship, evidently of American build, had struck off the Billy Rock, and was in danger of breaking up.

The sea, however, was running so heavily that Capt. McPherson found it impossible to get close to the ship. He brought her, however, near enough to count fourteen men in the rigging, who hailed him in English and begged him to rescue them. The vessel was a large wooden ship of about 1,800 tons register.

Capt. McPherson put back to port for a life boat, and returned immediately, but before he rescued the ship she had broken up, and quantities of her cargo were floating in all directions. Capt. McPherson and his rescue party stood by all night in the hope of picking up survivors, but after sixteen hours of unwearying effort, gave up the hope of saving life, and returned to Port Stanley.

Late in May a diver went down into the vessel, but was unable to ascertain its name or hauling port. The only traces of humanity found on board was the body of a young woman about eighteen years of age, dressed in maroon colored dressing gown, a gold watch chain about her neck, but nothing to furnish a clue to her identity.

## THE POLITICAL POT.

### KEEPS MERELY BOILING AT THE STATE CAPITAL.

Change in Date of Republican State Committee. Colored Vote for McKinley. Lockhart to be Nominated. Gossip is Various.

RALIGH, N. C., Aug. 7.—The Republican State Chairman changes the date of the State Committee meeting from August 11th to August 15th.

It is remarked that this is probably done to give the Republicans an opportunity to make the last bid for the Populist support.

The chairman of the Republican Congressional committee of this district, says he knows only two colored Republicans who will fail to vote for McKinley.

James A. Lockhart will be nominated by acclamation for Congress by the Democrats of the Sixth District.

Cyrus B. Watson was here today on his way to Goldsboro to speak on Saturday. He will, during the campaign, discuss only National, and not State issues.

John R. Webster, of the Central Democratic committee, says the action of the State committee in declaring for Electoral fusion has put the patriotism of the Populists to the test.

Dr. J. J. Mott, says the silver Republicans and silverites will largely attend the Populist State convention.

## Columbia Quality

What do we mean when we emphasize Columbia Quality? Here are two Watches. They seem alike. Examine the works. They look alike. What is the difference between them? One is an ordinary Swiss watch and the other is a Jorgensen or Froelsham. They certainly look alike, yet if you want a TIME-PIECE the Jorgensen is worth a hundred of the other.

What the name of JORGENSEN is to a watch, what the name WORTH is to a garment, what the name FULLMAN is to a Railroad Car, the name COLUMBIA is to a Bicycle. It represents the most advanced ideas of Bicycle construction of today, backed up by two decades of practical experience.

It is a maxim of all nations: YOU CANNOT HAVE QUALITY WITH OUT COST. But to this should be joined the other maxim of all ages, the BEST is always cheapest in the end. COLUMBIA QUALITY is the most inexpensive for any wheelman to buy.
