ESTABLISHED 1882

POPULIST STATE CONVENTION

GUTHRIE NOMINATED ON THE FIRST BALLOT.

O. H. Dockery Nominated for Lieutenant Governor. A Scrap Between Skinner, Thompson and Butler. Butler Wins as Usual.

Special.
BALTIMORE, N. C., August 13.—Congressman Harry Skinner is permanent chairman of the Populist State convention.

The platform adopted re-affirms the Populist national platform, and as to State matters endorses the present county government and election laws. It calls on the Legislature to exercise the power reserved by the State to make all United States coins a legal tender, and pass appropriate laws, such coins to include trade dollars, forbidding gold notes being taken, pledging a continuation of six per cent interest; pledging further aid to public schools, and more competent supervision of them.

Declares for an impartial judiciary; favors reformatory for young criminals; condemns the Democratic administration for failure to execute the Anti-Trust laws; favors law and equitable freight rates and aid to trucking industries; condemns the secret method of the lease of the North Carolina Railway to the Southern Railway by the Democratic party.

Calls for legislation, forbidding charters to lines of railway competing with present main lines.

Calls for a reduction of salaries of State officers.

W. A. Guthrie of Durham was nominated for Governor on the first ballot, getting 797 votes, Cyrus Thompson getting 322.

An intensely dramatic scene followed, when Senator Butler arose and placed in nomination for Lieutenant Governor Oliver H. Dockery, who was defeated by D. L. Russell as Republican nominee for Governor.

Congressman Skinner declared he would not submit to Dockery, that he opposed nominating any Republican or Democrat, now that the "middle-of-the-road" policy had been agreed upon and that Butler's plan was to divide the Republican vote and put in Democratic Electors.

Cyrus Thompson then attacked Butler, saying he would not submit to Dockery's nomination; that Butler had been dickered with Democrats and was now trying to force Republicans. Thompson said he had favored fusion with regular Republicans.

Skinner said if there must be fusion with Republicans it must be with the machine, and not with rebels.

Butler remained cool and asked the Convention to take a recess. The supreme act of his power is now being made.

Benjamin of Craven offered a resolution to continue the fusion of 1894, which was quickly killed. Benight said that the action of the Convention in nominating a State ticket was arbitrary as the Eastern Populists were given no notice.

The anti-Butler sentiment was knocked out, at night by Butler's lieutenant. Bob Hancock says the Republicans committee will next Saturday fill out the State ticket with straight Republicans. The fight will then concede on State and Congressional tickets.

O. H. Dockery was nominated for Lieutenant Governor.

Favors Chicago For Headquarters.

Special.
WASHINGTON, D. C., August 13.—It is stated here on good authority that Bryan favors Chicago for National headquarters.

Victoria Thanks the Nations.

LONDON.—Queen Victoria has issued a message to the nations thanking them for their expressions of loyalty and affection as the period approached when the length of her reign will have exceeded that of any other English monarch, but asking that any national celebration be reserved until she has completed 80 years of her reign. Queen Victoria was crowned on June 28, 1838.

To Have Armenia and Crete.

LONDON.—The Chronicle asserts that it learns that England and Russia are on the point of an agreement to save both Armenia and Crete from Turkish oppression without disturbing the peace of Europe.

An editorial in the same paper hints that the agreement will involve the presence of a Russian army in Armenia and a British fleet at Crete to guarantee Turkish compliance with the terms of the agreement.

The Berlin correspondent of the Daily News says that the Czar has written a letter to the Sultan on October 1st.

A Distinguished Painter Dead.

Special.
LONDON, Eng., August 13.—Sir John Mallie the distinguished painter died this evening.

The New York Times Bought.

Special.
NEW YORK, August 13.—The New York Times was this afternoon bought in by the reorganization committee for seventy-five thousand dollars.

The paper will probably be continued as the organ of the gold democrats.

Heavy Rains and Floods.

Special.
PITTSBURGH, Pa., August 13.—The total rain fall in Pine Creek Valley was two and twenty four one-hundredths inches in a couple of hours.

The creek ran so rapidly that it submerged all the property in the valley. Many horses and barns were carried away, the rivers in this district are all rising rapidly, the result of several inches of rain. Thirty lives are supposed to be lost.

Had a Good Effect.

Special.
NEW YORK, August 13.—Bryan's speech had a good effect on Wall Street, there was a general advance in prices.

The American Wheelmen.

Special.
LOUISVILLE, Ky., August 13.—The League of American wheelmen had their meet today.

O'Connor, Bambridge and Van Harek went a mile in a minute and fifty five seconds.

Newhouse of Buffalo, won a mile in the professional race in 2:17.75.

Says Nothing, but Disappointed.

Special.
CANTON, Ohio, August 13.—McKinley is silent on Bryan's speech, but a valuable assistant tells what a sore disappointment it was.

Heavy Failure.

Special.
NEW YORK, August 13.—Henry Casperfield the Jeweler has failed for two hundred thousand dollars.

Washington will be Headquarters.

Special.
NEW YORK, August 13.—The National Committee have decided to establish headquarters in Washington and it is understood that Congressman Richardson of Iowa, will be chairman of the Campaign Committee.

THE IRISH LAND BILL.

Special.
They Will Hardly Compel Ministerial Resignations.

LONDON.—The Irish land bill, as amended in the House of Lords, where it recently passed its third reading, was before the House of Commons again today. The Chief Secretary for Ireland, Mr. Gerald Balfour, indicated the proposed course of the government. He said they were prepared to acquiesce to the new clause, to Lord Inchiquin, the amendment dealing with procedure sales. The other amendments, he added would be accepted in principle, but on the question of pasture holdings the government would adhere to the £100 limit, and could not accept Lord Macnaghten's amendment omitting clause 5.

Mr. T. P. O'Connor's Sun says that Mr. Gerald Balfour's statement places the government in a critical position, adding, however, that it is improbable that the Lords, having once shown their strength, will compel the government to adopt a course which would probably involve three ministerial resignations.

NO AGREEMENT.

Special.
Powers Are Disagreed as to Measures to Prevent Oppression.

LONDON.—It is semi-officially stated that there is no truth in the report, published by the Daily Chronicle of this city, that Great Britain and Russia are on the point of reaching an agreement "to save both Armenia and Crete from Turkish oppression without disturbing the peace of Europe." Any agreement, it was added, would involve the presence of the Russian army in Armenia and of a British fleet at Crete to guarantee Turkish compliance with the terms of the agreement.

BRANDON ON THEIR FLESH.

Special.
Startling Charge Against Officers of a Secret Order.

WALTHAM, Mass.—Two Waltham men appeared before Judge Luce, of the District Court, and made the startling assertion that they had been seriously assaulted and branded on the body in several places with red hot irons while being initiated into Victoria Lodge, Sons of St. George, less than a week ago.

The hearing was a secret one, and but little could be learned of the proceedings. It is understood, however, that the complainants, Frank Peble and a man named Arch, together with three other named Graham, Tracy and Vickers, officers of Victoria Lodge who are charged

ed with the serious offense, appeared before the Judge and told their respective stories.

Both sides were represented by counsel. All the evidence and testimony of those concerned is alleged to be of a character damaging in the extreme to officers of the lodge. Judge Luce took the matter under advisement.

The Shah's Murder Avenged.

TEHRAN.—Mollah Reza, who assassinated the late Shah of Persia in May last, was hanged here this morning in the presence of an immense concourse of the people.

Andre's Balloon Sighted.

VICTORIA, B. C.—News has been received here from the North that Professor Andre's aerial expedition to the North Pole was believed to have been seen July 8 in the vicinity of Kenna river.

Severe Newspaper Censures.

ROME.—The provincial newspapers demand that the Government take action regarding the Hahnville lynching.

The Corriere Della Sera of Milan declares that until Americans are willing and able to protect the lives of Europeans they had better close the ports entirely to the immigration of whites as a bid against Chinese cheap labor, adding:

"Events such as have occurred at New Orleans and now at Hahnville cannot be tolerated by nations having any pretense of civilization."

Counterfeit Money Seized.

LONDON.—A dispatch to the Standard from Paris says that the police have seized upon 10,000,000 francs' worth of counterfeit French bank notes of three houses in Tunis. The banks' clerks were unable to detect the fraud. Several arrests have been made.

Christian Demands Rejected.

ATHENS.—The Turkish Government finally rejected the demands of the Christians of Crete, except so far as the provisions of the Halepa convention and general amnesty to the insurgents are concerned.

In a fight at Voden, Macedonia, between 150 insurgents and a body of 500 Turks, the former were reinforced after four hours' fighting and routed the Turks, 50 of whom were killed.

Macedonian peasants, armed with rifles stolen from the Turks, are joining the Greek raiders.

For a Floating Dock at Havana.

LONDON.—The Spanish Government is inviting tenders in England for the construction of a floating dock at Havana.
