THE BELT IS OURS.

The success of the Atlantic Reel Team, representing this city at the annual meeting of the Firemen's Association, held at Salisbury, last week, was most creditable and worthy of the demonstrations shown the victors, who returned last ht.

In the several contests, the young men from New Berne have proven that they can cope with the best teams in the State, and carry off most of the prizes.

In the five contests, in which the New Berne team entered they took one, first prize, the State Championship Belt, two, second prizes, one, third place, and were rulled out in the horse hose reel race.

second prizes.

But there are no regrets over anything the team did at Salisbury. throughout, and their failure to secure more prizes has nothing to do

late members of the Reel Team, and the splendid showing they made at Salisbury, both as contestants and in their social intercourse while in that city. Coming from New Barne, nothing more or less could be expected from them.

And now let there be no further mistakes in the future. Let us keep the Belt.

AN EDUCATIONAL BOOM.

The efforts of the Trustees of the New Berne Academy, while meeting N. C.: with fairly good success and encouragement from the citizens of this city, yet their efforts do not promise to be crowned with a success commenaurate with the object which they are attempting to attain and which deserves success.

There are booms of different kinds which benefit a city, but no boom is more important in immediate and future results, is such a producer of benefits to a community, as an educational boom.

An effort to give New Berne s first-class Academy, a school that will be not merely a local one, but one which can draw from all of Eastern North Carolina, is one which ought to commend itself to every citizen of this place, and receive the overwhelming endor sement on all

An educational boom possess many elements which other booms sek. It does not merely appeal to the financial side, but it does to the moral side of a community. It is an upbuilder of the good, true and beautiful. It does not enrich one person or class, but enriches every person, directly or indirectly.

Inaugurate an educational boom and it does not interfere with existing industries, but gives an impetus to them. It is never a rival or competitor with any industry that has in it the welfare of a community.

Same insurance in order to a would have cost me And I consider that my protection under said policy is just as good as that offered by any other insurance company.

(Signed), S. H. Lopton, Prest. Bank of Kinston.

support, and handsomely support, a first class Academy, is not to be denied. It is not, but will it?

The city is offered the splendid opportunity of having a school for children, and the children of this entire section, included.

of learning in this city means much no hesitation in recommending Dr. King's them to have their children at home, and saves them money, which will give them the opportunity of cending their children to school lonthe parents of children, it permits most marvelons in the case of my wife. ent school or college.

the standard will be a high one, as my one can easily understand by eferring to its faculty.

This is the time for every one to ome to the front and give New Berne's educational boom, as represented by its Academy, a good start. Make it a glorious success from the very beginning, and the future will prove the correctness of those who believed and assisted in giving it such a start.

EDITORIAL PARAGRAPHS.

Joe Caldwell's efforts in trying to curb Col. Tipton's editorial utter ances, prove "Joe" to be built of heroic stuff.

If the Charlotte Observer, and the Raleigh News-Observer are not cereful, they may get to saying personal things about each other.

In its rush after political news, the Ruleigh News-Observer, seems to have overlooked the circumstance and either letters or inclosures. Nor will that the Firemen of North Carolina held their annual Convention at Salisbury, last week.

> That much hunted fellow, the gold bug, while he has been kept busy dodging the missiles fired at him, does not seem as yet to have taken to timber, but remains in the open.

> Colonel Tipton, of the Rutherfordton Democrat, is a haid fellow to muzzle and is very apt to speak out and publish his "thinks," which are not positively over assuring, and of the sixteen to one order, but verge on dangerous ground. But then the Colonel knows no fear, least of all political fear.

\$100 Reward \$100.

The readers of this paper will be pleased In two of the contests, with a lit- to learn that there is at least one dreaded tle more care exercised, New Berne disease that science has been able to cure might have taken first instead of in all its stages, and that is Catarrh.
