NEW BERNE, N. C. FRIDAY MORNING, SEPTEMBER 18, 1896

ESTABLISHED 1862

BRYAN AT RALEIGH.

Introduced by Hal. W. Ayer of the Canadian. Eight Thousand Out. Expresses Delight With North Carolinians.

Special. RALEIGH, N. C., September 17.—Candidate Bryan arrived here at 7 p. m. to-night, and spoke to over eight thousand people.

Mr. Bryan was introduced by Hal. W. Ayer, Editor Caucasian.

He was given a very hearty reception and much applause. He expressed himself as delighted at his greeting in North Carolina and at the size of the crowds.

For Assisting Filibusters.

Special. New York, September 17.—Carlos Rutloff, Secretary of War of the Cuban Provincial Government, was arrested, and held in two thousand dollars bail, for aiding the filibusters.

He is a Major General on Gomez's staff.

Inhabited the Gas.

Special. New York.—Frank A. Morrell, the proprietor of the Harlem Hotel, White Plains, was found dead in his rooms in the Colonial Hotel.

Firmly clutched between the dead man's teeth was a rubber tube, the other end of which had been attached to a gas jet. The latter was turned full on.

No cause is known for the act.

No Revolution.

Special. HONOLULU.—For a few days a week or so ago, Honolulu was full of vague rumors of a movement to restore the monarchy with the young Princess Kaiulani as queen.

When traced to their source, these rumors were all found to originate in a recent expression used by J. B. Castle to a representative of a San Francisco paper that such restoration under Kaiulani was a "hypothetical possibility." There is a total absence of any indication of such a movement or of any tendency that way.

An absurd rumor appeared in a San Francisco journal, as coming from Honolulu, that United States Minister Willis had returned here empowered to negotiate for either annexation or a protectorate, or Kaiulani as queen, the choice of either form of government to be left to a vote of the people.

Mr. Willis decisively states that such rumors are absolutely without foundation. Nothing in his instructions or in his talk with officials in Washington in any way bore upon such matters.

President Dole returned on August 31 from his three weeks' outing on the island of Maui. He received large public entertainments at various points.

The return to Honolulu of the Princess Kaiulani is expected within a month, in company with her father, A. S. Cloughorn after eight years' absence in England.

She will probably receive more or less ovation on landing from natives and half-breeds, although many think that her friends will discourage such manifestations for fear that the might thereby imperil her pension of \$2,000. It is not probable that the government would feel much concern about any such demonstrations or interfere with any expressions of sympathy the natives might be disposed to show.

Telegraphic Items.

The Chicago "Alley L" road was sold at auction to Leslie Carter and George E. Adams, representing the first mortgage bondholders' protective committee, the price being \$100 over the upset price of \$4,000,000. Electricity will be substituted for steam power and the property thoroughly renovated.

J. Morton Hall, formerly general passenger agent of the Allegheny Valley Railroad, and well known in railroad and business circles, accidentally shot and killed himself at his residence in Allegheny Pa., while cleaning his revolver.

James Keenan, a Cleveland musician, is under arrest at police headquarters, on charges preferred by his common law wife. She alleges that Keenan, two years ago, killed Anna King, a handsome girl, twenty-two years old, who was an inmate of a disreputable house on Canal street, in Buffalo, and then fled the city.

At Louisville, Ky., Carrie Jennings, colored, in a fit of jealousy, stabbed Monroe Bell, colored, aged thirty-two years, to death, and then fatally shot herself in the head.

One workman was killed and three others were perhaps fatally injured by the falling of a pile of bricks at the site of the old Grand Pacific Hotel, in Chicago. The accident was caused by the caving in of the foundation of the hotel.

Dr. W. L. Breyfogle, of New Albany, banker and capitalist, was acquitted in the Circuit Court at Jeffersonville, Ind., on the charges of forgery and embezzlement, preferred by the stockholders of the New Albany Banking Company, whose sensational failures occurred two years ago. Nineteen other charges remain to be tried.

A prearranged railroad collision took place at Cross, Texas, on the Missouri, Kansas, and Texas Railway. There were six cars behind each engine; and the wreck of both engines as well as seven cars was complete. Nine of the spectators were fatally injured by falling wreckage two probably fatally. It is estimated that 20,000 witnessed the collision.

Not Disabled.

Special. HAVANA, September 17.—The reports that the Spanish cruiser Infanta Isabella was disabled at the entrance of this port is unfounded.

The cruiser is laid up for repairs.

In North Carolina.

Special. DURHAM, N. C., September 17.—Candidate Bryan arrived here at 4 p. m. this afternoon. He was given a rousing reception and spoke to several thousand people.

KITCHEN TALKS AGAIN.

Special. Denounces Populist State Committee and Attacks Senator Butler.

Special. RALEIGH, N. C., September 17.—Buck Kitchen is here. He denounces the Populist State Committee as the tool of Senator Butler, and attacks the Senator as being a trader.

Kitchen declares the Populists must repudiate and spit upon the action of the Populist Committee.

Don't Want Pops.

Special. BIRMINGHAM, Ala., September 17.—A conference of leading Democrats held today, decided to inaugurate a canvass for Bryan and Sewall, and leave Populists off the electoral ticket.

Bryan at Charlotte.

Special. CHARLOTTE, N. C., September 17.—Candidate Bryan began his campaign early this morning, leaving at 10 a. m. for Durham, after speaking at post office park.

Special. Engineer and Fireman Killed. HAMILTON, Ont.—A yard engine on the Toronto, Hamilton and Buffalo Railway ran off the track at a crossing in the suburbs of the city and upset, killing Engineer James Facer and Fireman George Johnson.

Special. Killed by a Boiler Explosion. COMBER, Ont.—The boiler of Pettit Brother's hoop and stove mill, near here, exploded, badly wrecking the mill and killing Fireman Alfred Jacobs. Negligence on the part of Jacobs was apparently the cause of the explosion.

Special. THE RECENT MASSACRE. Started by Armenians. Armed Men Took Possession of the Ottoman Bank and Threatened to Blow up the Building.

Special. BOSTON.—A letter dated Monday, August 31, has been received in Boston from an American resident in Constantinople, describing the recent massacre there, as follows:

"Last Wednesday, about noon, twenty Armenian revolutionists, the two leaders being Russian subjects, loaded with dynamite bombs and armed with revolvers, made a rush into the Ottoman bank, closed the doors and held in duress all the officers and employees, some 120 persons, threatening to blow up the bank, and demanding the rights of the Armenians as the condition of preserving the lives of those in the bank and the bank itself.

"Soldiers gathered outside and fired into the windows. The object of the revolutionists was not to kill or rob, but to make a demonstration which would show that the Armenians had courage and pluck, and make an impression upon Europe and force intervention. They probably counted the cost of massacre to their own people.

"They escaped in safety and are on their way, it is understood, to Europe. But with their mad acts began a massacre in the city many times more bloody than that last October. Those killed have generally been of the poorer classes. Armenians only, the most serious loss of life falling upon the hamals or porters, who are from the interior, living without their families. It is not said that any were killed by the police or the soldiers, but that they did not attempt to control the mobs.

"On coming to the city Friday morning, it was evident that the government was master of the situation. We have it from good sources that the representatives of the powers on Thursday made strong representations to the palace concerning the killing of the unoffending people, and that on the evening of that day they sent a telegram to the sultan, couched in terms of very unusual urgency, some say accompanied with threatening intimations of foreign intervention, unless their representations were instantly complied with.

"Meanwhile, from every quarter, not however, extending up to the Bosphorus or over into Soutari or to the islands or towns of St. Stephanoz, but especially from Hhans here in the city, from Galatia, from Samatia, where there is a large Armenian quarter, from Hhamskey come accounts of murder and pillage which are fearful.

"Nearly all the killed are men, not women or children; and violation of women is not reported. At Hhamskey the police and army and restoring stolen goods to some extent.

"Some evil work was done at Bebek on Thursday night and on Friday the greater part of the British Bebek colony fled to a ship in the harbor, from which they returned to their homes yesterday under protection of the British postboat Bocharia, which has been in the Bebek Bay."

STILL SAILING FOR CUBA.

Another Expedition Preparing to go From Philadelphia.

PHILADELPHIA.—The Customs officers of this city are at their wit's ends in the endeavor to discover if it really be true that an expedition is being organized here to go to Cuba. It is no longer a case of Senator Congosta, the Spanish Consul, taking steps to stop such a movement. Minister De Lome, at Washington, has been fully informed, through the Consul General at New York, that such is the purpose, and a host of Spanish spies have come over here to watch out-going vessels.

In this connection it may be stated, and it has never been admitted before, that General Weyer's decree against the shipping of fruit was not really intended to stop that trade, but to prevent the filibustering steamers from Philadelphia, having a pretext for setting sail from this port. Minister De Lome has all along, it is understood, claimed that the fruit business was simply a cover for the transportation of arms and men, and that the United States authorities could not stop it.

Customs officers here say it is utterly impossible for such an expedition to get away. But Cuban leaders say to the contrary, and laugh at the idea of the Federal Government "stopping any of the goods until they are landed."

THE COTTON MARKETS.

September 17th. LIVERPOOL was quiet and easier with spot sales 10,000.

NEW YORK opened at an advance of 7 points and had been dull with small transactions, finally closing at the lowest of the day January 8 28. The transactions in futures are small and the daily selling by cotton dealers against purchases of spot cotton is quite a factor against an advance. The daily receipts throughout the South are now large and these supplies are not easily taken care of at present prices.

The consumers abroad are in good shape but they show no eagerness to buy freely. EASTERN and Southern spinners are buying in the most sparing manner and are likely to do so till finances and politics are more settled.

NEW BERNE market has been dull, but steady at 7.40 to 7.50.

Yours truly,
J. E. LATHAM.

The best thing for New Berne that has ever happened. An enterprise that will be ever a success. We are now sawing cook wood, stove or range lengths, the very nicest kind, and storing it away under large shed houses; keeps dry always in rainy weather, and never gets wet.

We keep a large stock of this kind on hand. We cut the prices on sawing, as we are better prepared to do it cheaper than heretofore, and now deliver it in your wood houses or anywhere you want it, without any trouble to you, only give your orders to **BIG HILL, the Shingle Man.**

You can also do Big Hill a favor, by reporting to him, if his own carts don't deliver the wood anywhere the customer may want it put. We have polite draymen and nice teams ready to serve the good citizens of New Berne, if they will only take hold of an enterprise like this, one that has never been offered to New Berne like this before.

Respectfully,
