## WASHINGTON LETTER.

### STATEMENTS ON PRESIDENTIAL RESULTS.

Republicans and Gold Democrats. **Fan in Presidential Campaign.** Bryan Running His Campaign. Counter Accusations on Intimidation.

JOURNAL BUREAU, WASHINGTON, D. C., Sept. 28.

Politicians consider the announcement that the republicans and the gold Democrats are to work together in several of the Southern States an important one, although few of them go so far as to believe that it will result in giving the electoral vote of any State to the gold Democrats, but it may help the Republicans. It is claimed by some of those who have been instrumental in arranging this fusion, that the gold Democrats of Alabama are strong enough to carry the State, if they can get the entire Republican vote and if they can get the votes counted, and if the silver Democrats and Populists fail to fuse. It will be noted that there are several important "ifs" in that claim, not to mention that it is ridiculed by the silver Democrats who say that the number of gold Democrats in that and in all the other Southern States, has been greatly exaggerated. A gentleman with sporting blood came very near to sizing up the general opinion of the actual situation when he said: "I would look upon it as so much money found to find anybody who would bet that Palmer and Backner would get a single electoral vote in the South or anywhere else."

In politics everything depends upon which side does a thing. When Mr. Bryan came to Washington to make a speech, the Republicans made fun of him, saying that it was a waste of time for him to speak in the District of Columbia where there was no voting. Now these same Republicans are preparing to do the very same thing, and are shaking hands with each other and jubiling generally because Speaker Reed and Representative Cowan of Maryland, Receiver of the B. & O. railroad, have promised to address a big Republican meeting to be held in Washington early next month. Is it any wonder that the few men who have no political prejudice—your correspondent claims to be one of them—manage to extract lots of fun out of a Presidential campaign?

For sometime complaints have been pouring into the Bryan headquarters in Washington, concerning the intimidation of employees by railroads and other large employers of men, and now the other side comes up with an intimidation story. Complaints have been made to McKinley headquarters that Republican speakers are being intimidated and otherwise intimidated in various portions of Virginia, and the Post Master at Jonesville, in that State, is charged with having suppressed campaign literature mailed from Washington, and with having arrested the man who found it out and confronted him, with the accusation. Charges have been filed with the Postmaster General against this Post Master, and there is much interest in the disposition of those charges by the Post Office Department.

If there were any doubt that Mr. Bryan was personally heading his campaign in the withdrawal of Senator Hill's candidate for the Governor of New York ought to remove it, as soon as Mr. Thacher's letter repudiating the Chicago platform was made public, Mr. Bryan positively stated that he should come off the Democratic ticket. Those who believed that Senator Hill was all powerful with the Democratic machine in New York said that Mr. Bryan had made a break; that Thacher was Hill's man and that Hill would not allow him to be taken off the ticket. Mr. Bryan went to New York, and Thacher has taken himself off the ticket. Some people think that Hill will resign this interference by coming out for Palmer and Buckner. The Bryan people in Washington say it doesn't matter what Hill does; that the result in New York is already practically settled and that Hill has lost whatever influence he may have had outside of that State.

The Bryan and the McKinley managers continue to do some stiff claiming for their respective candidates, but it they have no better foundation for the claims they make than the letters from individuals in the several States which they make public, it is a little better than a question of faith and hope on both sides. It is comparatively easy to take a statement that either candidate has made a certain percentage of gains in some locality and by spreading on the same percentage of gains throughout the State to show—no matter what the State will give a certain majority; but those with retentive memories know that such figuring is seldom, if ever, anywhere in the neighborhood of what the actual vote of that State shows to be. It is altogether probable that both sides have made gains of every kind in this and have found so many names unremembered that they do not dare to make public the result of those polls. It is known that there are a large number of names—nominally growing larger as each meeting—who do not connect themselves with any party and who do not tell anybody how they are going to vote. This is the element which has brought about the present reported and unreported results of the Presidential and Congressional elections of the past twelve years. They were the element in addition to the political

El-Bebbeh and El-Khandak are situated at almost equal intervals on the river between Merowi and Dongola.

The gunboat Abukles has returned from the pursuit of the dervishes. ## NO FURTHER CHANGES.

### SO SAY MANLY AND FURMAN.

By Watson to Stay up. Rumors of Change Said to Come From Republican Sources.

Special. **RICHMOND, N. C., September 28.**—Upon careful inquiry your correspondent is assured that the rumors which became current yesterday, that W. A. Guthrie would become the joint candidate of the Democrats and Populist for Governor, and that C. B. Watson would be sent to the Senate, are all started by Republicans.

Democratic State Chairman Manly says: "There is not a word of truth in the rumor. I never heard that such a thing was in contemplation as the taking down of Watson."

State Auditor Robert M. Furman said: "It is an utterly unfounded rumor. There will be no further change of tickets so far as Democrats are concerned."

## TOWN WASHED AWAY.

Terrible Destruction Done by a Cloud burst in Texas.

**SAN ANTONIO, Tex.**—A tremendous cloudburst struck the city of San Marcos, about six miles south of here, at 10 o'clock Saturday morning, and washed away a large portion of the town. The Missouri, Kansas & Texas and International & Great Northern Railway tracks were washed away for three quarters of a mile, and the joint depot badly wrecked. The damage to these two roads will reach \$200,000.

The cloudburst swept everything before it. All bridges over the San Marcos river, which runs through the town, were washed away, and a large number of residences are in ruins. It is thought at least five people have been drowned.

## Assassinated While at Super.

**RUSTON, La.**—A dastardly assassination took place near here, the victim being Edward Beatty, the ton of his head being literally blown off by a load of buckshot fired from a shotgun while he was eating supper at his home with his family. Every effort is being made to capture the assassin.

## Iron Gate Removed.

**BUDAPEST.**—The great engineering work of removing the obstruction in the Danube, known as the Iron Gate, between Alt-Osava, in Hungary, and Gladova, in Servia, has been finally accomplished, and the river was opened to navigation with elaborate ceremonies by Emperor Francis Joseph.

His majesty was accompanied by King Carol of Roumania, and King Alexander of Servia. A large number of diplomats, ministers of state, and distinguished men were present.

Included in the program was a procession of steamers through the Iron Gate, which afforded proof of how successfully the work of removing the obstacles to navigation has been accomplished.

Great crowds from the neighboring towns were present, as was also a large number of troops. The day was fine and the ceremonies passed with much eclat.

## Victory for Insurgents.

**HAVANA.**—Through the efforts of Consul General Lee, an order has been issued by Captain General Weyler, directing the release of Samuel T. Tolson, the American citizen who was arrested recently on board the Ward Line steamer Seneca, at this port. A condition attached to his release is that he shall leave the island.

Thirty-five Spanish volunteers, commanded by Lieut. Romero, were surrounded by a superior force of insurgents as they were leaving the town of Quivican, province of Havana.

A desperate fight ensued, the Spaniards attempting to cut their way through the rebels. Their efforts were without avail, but they did not cease to fight until twenty-three of their number were killed and four wounded.

Among the killed was Lieut. Romero. The volunteers who escaped report that severe losses were inflicted on the rebels.
