SLY POPULISTS.

BUT REPUBLICANS DISCOVER THEIR CIRCULAR.

Populists Striving to Co-Operate with Democrats on Governor and United States Senator.

RALEIGH, N. C., October 1.—A confidential circular has been sent out by Populist State Chairman Ayer to the county Populist chairmen, asking their opinion of co-operation, in case it could be effected between Democrats and Populists on Governor and Senator, which ever party retained nominee for Governor to vote for the man taken down for United States Senator.

The Republicans in some way obtained one of these circulars, and gave circulation to it. Democratic leaders say their party would not for an instant consider such a proposition.

Philippine Insurgents Expulsed.

MADRID.—Official advices received from Manila, in the Philippine Islands, state that the rebels have attempted to invade Batangas but were repulsed with great loss. Another insurgent band has been defeated at Cavite.

Bohemian Coal Miners Strike.

PRAGUE.—A serious strike is in progress throughout the coal regions of North Bohemia, due to the incitement of anarchism. A band of about fifty strikers has been marching from pit to pit at Brunn, forcing the miners to stop work, and at Osegg and elsewhere the strikers are smashing windows or doing other damage, besides intimidating the miners. The managers of the mines have asked for military protection.

Jewish Quarter of Fez Burned.

TANGIER, Morocco.—The Jewish quarter of Fez, the principal city of the Empire of Morocco, has been burned and several persons have perished and many have been fatally injured. Five hundred of the residents of the burning quarter were compelled to fly in an unaided condition to the country until the flames were quenched. It is estimated that there are 10,000 Jews in the Fez out of a total population of 100,000.

Bulgarian Brigands.

VIENNA.—Advices received here from Belgrade say that the brother of the Austrian consul at Sere, Micedonia, who was carried off by a band of Bulgarian brigands some two weeks ago with a wealthy Greek land proprietor and others, has been murdered; with four of his companions because the ransom of \$50,000 demanded by the brigands as the price of their liberty was not forthcoming. At one time it was reported that it was the Austrian consul himself who had been kidnapped. This rumor, it now seems, was incorrect.

The Sudan Campaign.

LONDON.—It is semi-officially announced that no advance of the Anglo-Egyptian expedition south of Dongola is contemplated during 1896. The whole province of Dongola will be held; Korti and El Dabbeh, strategic points south of and on the road to Dongola, will be permanently garrisoned and gunboats will patrol the river. In addition the province of Dongola will be reorganized; British Egyptian administrators will be appointed; a police force will be established; only British troops, with machine guns and snipers, will be kept to the front; the railway will be completed to Kalbar, at the last out-stand north of Dongola, and the work will be done under the supervision of British engineers. It is further pointed out that further advance at present is impossible owing to the condition of the Egyptian finances.

BUAKIR.—Advices received here from the Turkish headquarters show that disputes have broken out among the Khalfa's lieutenants, and that, in consequence, the various Emirs are keeping their own followers around them. It is added that the influence of the Khalfa is shattered.

A Panic in Madagascar.

PARIS.—A dispatch received here from Governor Laroché, at Antananarivo, in the island of Madagascar, dated August 24, reports that various disturbances have been made by rebels, and that a panic reigns on the road between Tananarivo and Antananarivo. Governor Laroché adds, however, that the rebels obtained from attacking the environs of Antananarivo, the capital. This contradicting report received at Marseilles by mail from Madagascar in the effect that thousands of Tananarivo had surrounded Antananarivo and attacked the suburbs.

The Cotton Markets.

October 1st. TELEGRAPHIC information has again been scarce in consequence of the wires working badly. LIVERPOOL opened at 1-32 decline on spots and 3-64 on futures. New York news received showed a lower market January 2-20. The scarcity of telegraphic news causes dull markets throughout the South. The New York market has been quiet ranging between 7 1/2 to 7-3/4. Yours truly, J. K. LEHMAN.

Tuesday Night's Storm

RICHMOND, Va.—This was the severest storm Richmond has ever experienced in the memory of the oldest inhabitant. The Capitol square looked as if two great armies had engaged in battle there with heavy artillery. Trees were torn to pieces in all parts of the grounds. In Monroe park the conditions were even worse.

The same story of the storm comes from all over the State east of the Blue Ridge. Barns and small out houses were swept away, trees uprooted, residences unroofed, wires prostrate, and general wreckage prevails.

SAVANNAH, Ga.—The centre of the storm passed east of Savannah and struck inland, north of here. The damage on the South Carolina coast is believed to be heavy, but so far little loss of life is reported. The rice plantations on the Carolina side of the Savannah river and along the river west of here suffered heavily. The rice in the fields was little injured, being covered with water, but the store-houses and mills are wrecked, and the rice stored is a total loss. The plantations on the Ogeechee and Alabama rivers, on the Georgia side were heavily damaged.

The damage in the city will probably exceed \$1,000,000. Hardly a building escaped, and thousands of houses are roofless. The work of clearing away the wreckage from the streets went on all night and most of the streets are passable. The parks are pitiable sights. Tall trees, torn up by their roots, or broken in two, lie in swaths across shrubbery and flowers. The ruin is complete. The famous Bonaventure Cemetery, four miles from Savannah, on the Thunderbolt road, is a scene of ruin. There, and in picturesque Laurel Grove Cemetery, monuments and grave-stones are overturned, and in some instances the vaults are broken in. At the suburban villages and resorts summer residences were blown away and yachts and pleasure steamers were driven ashore, in some instances, high and dry on the low bluffs.

NORFOLK, Va.—The damage to shipping along the Atlantic coast is said to be very great. In Pennsylvania the storm also did great damage, several deaths resulting.

Norfolk's escape is most remarkable. Norfolk luckily escaped the fury of the hurricane predicted by the Weather Bureau Tuesday night. As it was, however, the gentle forty mile an hour breeze that soured through the tree tops and tossed branches and other loose things, like telegraph wires and cross arms, about the streets, was about as lively an experience as the average citizen cares to encounter. As seen by The Virginian's telegraphic dispatches, however our sister cities of Petersburg and Richmond were not so fortunate. The shipping was not suffered greatly so far as heard, but the government wires down the coast being prostrated from Cape Hatteras to Norfolk, news of wrecks will be very slow in coming in.

Telegraphic communication with Washington and other northern cities has not yet been restored, and no telegrams could be received from Atlanta and Southern cities.

BEAUFORT, S. C.—Beaufort was suddenly visited by almost as fearful and destructive a cyclone as that of August, 1893. During its continuance for one hour and a half, it equalled if not rivalled in intensity its memorable predecessor. Nothing but the lack of the tidal wave or the prevalence of inordinately high tides caused by the meeting or piling up of one tide upon another by a continued gale of hours, prevented its being as disastrous a calamity as that which made 1893 a black letter year for this city. The wind shifted from Southeast to Southwest, and only lessened its violence when it appeared that the fury of the gale had abated sufficiently for persons to emerge into the streets to catalogue the disasters.

There are a great many other disasters to property all over town. It is impossible to estimate the damage, but will probably reach a large figure. No loss of life in town is reported. Two colored women from the Oakland plantation, on this island were killed, by falling in of their house. No news has been received from the island, from Port Royal the damages to the railroad properties are said not to be very considerable.

Italian Squadron at Salonic. SALONICA.—The Italian flying squadron, consisting of the two steel barbed battle-ships Santauga and Sicilia and the torpedo gunboat Euridice, under Vice Admiral Canevara, has arrived here.

THE COTTON MARKETS.

October 1st. TELEGRAPHIC information has again been scarce in consequence of the wires working badly. LIVERPOOL opened at 1-32 decline on spots and 3-64 on futures. New York news received showed a lower market January 2-20. The scarcity of telegraphic news causes dull markets throughout the South. The New York market has been quiet ranging between 7 1/2 to 7-3/4. Yours truly, J. K. LEHMAN.

STROWD ENDORSED.

Wake County Republican Convention Pledges Him Support. Orders Imperative from Committee on Endorsing.

RALEIGH, N. C., October 1.—Wake county Republican convention today endorsed Strowd for Congress, and pledged him the support of the R-publicans of this county.

A resolution to this effect was introduced by A. C. Lehman, who is clerk at the Republican State Committee headquarters.

A telegram was received from Pat Massey, Republican nominee for Congress saying, "I am still a candidate." But though this was prior to Strowd's endorsement, no attention was paid to it, as orders are imperative to Republicans of the district by State committee that Strowd must be endorsed.

Rioting in Posen.

LONDON.—The Berlin correspondent of the Standard says that there has been serious rioting and bloodshed in the province of Posen, and the old question of partitioning among the neighboring provinces is being ventilated.

To Hold the Danube.

LONDON.—A Vienna dispatch to the Daily News says that as an outcome of Emperor Francis Joseph's visit to Bucharest, the King of Roumania has promised to join the Drubund, while Austria and Roumania have agreed to hold the Danube as a sacred trust, whatever happens in the East.

Boarders Wanted.

Call at MRS. S. E. STERLING'S No. 87 Craven street. GENTLEMEN PREFERRED.

Say !!!

Do you want to be comfortable this winter? Do you want to save your temper this winter? Do you want to save half your fuel bill? If you do just go down to the SLOVER HARDWARE CO'S STORE and buy you a

Wilson Heater.

The greatest heating stove ever invented. Ask your neighbors about them. We sold them one last winter and they are going to use them altogether this winter. They are made of best Russian iron and have draft opening at the top, which prevents fire from popping out. They also have automatic smoke doors which no similar stove has.

NOW IS THE TIME to point your hearts and anthers. We have the patent.

We have the BUCK'S Cook Stoves, and when you are passing drop in and let us show them to you. A little child could see their superiority over any other stove. Fire Bricks warranted to last fifteen years and we will replace any that do not last that long.

A nice lot of FOOT MATS on hand. Remember we guarantee the price of every article we sell you. No one undersells us. We solicit your patronage. Respectfully Yours, Slover Hardware Co.

Dress - Making

DEPARTMENT.

Orders for Fall and Winter Costumes will be accepted by our Dress Making Department on and after September 15th. This date is late enough to enable us to make up with certainty the accepted foreign styles that will be in vogue during the season.

We have just perfected arrangements by which we will be put in touch with Paris and Berlin within two weeks of the date of the appearance of any special style or mode. This is quite enterprising for a North Carolina house, and no Dress Making Department in America will turn out more creditable or stylish work than ours. We bespeak your patronage. Correspondence Solicited.
