### THE PROVEN PROVED AGAIN.

Those grotesque creatures whose habit it is to advertise their own lack of the reasoning faculty by declaiming against the prevention of smallpox have been much rejoiced of late because the English Royal Commission that for seven years had been studying, or pretending to study, this very simple question, finally made a report not quite so emphatically in favor of compulsory vaccination as all sane people had expected they would do at the end of their ludicrously deliberate investigation To escape utter condemnation was such an unaccustomed piece of good luck that the anti-vaccinationists naturally over looked the fact that the Commissioners unanimously proclaimed the value of Jenner's discovery, and were only divided as to the nation's right to compel the citizens to undergo an operation to which, unless performed with care and skill, certain remote but well recognized dangers are incidental. It was as much of a triumph as these would-be propagators of a loathsome malady are ever likely to get, and they could hardly be blamed for making the most of it.

Now it is the turn—for the many a thousanth time—of people by whom facts and figures are not despised or ignored, to find new confirmation for their belief in vaccination as the safest and surest of prophylactic measures. It will not be necessary for them to show any particular elation, or even to take any particular plans in calling public attention to new support for a theory already safe from any possible attack. Still, it is well that the record should be complete, and therefore is there considerable interest, though not much practical value, in the report, summarized in another column, which was made by the special committee that investigated the recent smallpox epiedmic at Gloucester, England.

The work of this committee seems to have been done promptly, carefully, and with intelligence. Its findings are definite and detailed, and its conclusions are inevitable deductions from the data obtained. Nobody—except an anti-vaccinationist—can fail to see from the facts collected that this terribly fatal outbreak of disease was deliberately invited by a simply maniacal neglect of the means that would have made it absolutely impossible. For not one vaccinated person died of smallpox at Gloucester in those dreadful weeks when funeral processions moved in almost unbroken lines through all the city. There was not one exception, even for the proverb's sake, and the rule of safety must go without that poor proof. As it has every other, one can easily pardon the omission.—N. Y. Times,

### SWANSBORO.

Cool and pleasant weather with plenty of rain; health pretty good at this time.

Cotton nearly all picked out; gathering corn and digging taters in progress; cotton turned out some over half a crop.

Some of our merchants are getting in their goods. Dave Moore, H. Greenblot and John Pittman, have received theirs.

The fishing is getting good again some large mullets are being caught but the price is very low only 1 1-2c per pound, fresh. Lots of gray trout are being hooked outside now.

this Scribe with Capt. Joe Bloodgood and Tom Bartley, went out last Friday and hooked something over a hundred, this was the first trial trip of anyone outside this Fall

Our town is enlivened by a band of music, led by Prof, M. A. Cuthbert, the boys turned out last night in a parade, we wish them success.

Mr. A. F. Farnell raised some very fine Lecont pears this Fall, some weighed 21 oz. each; he sold $6.00 worth from one tree.

The Baptist church here is very slowly progressing, fears are entertained by some of its completion.

The steamboat is ready to launch and will probably be shoved off in another week.

Col. E. W. Fonville of Duck Creek, has the finest cotton in the county, we think, 7 feet high on an average of 6 acres.

Constable Young had a trial the other day with some law breakers, that made him say "Errah Errah" a dozen times or more, but he got through all o. k. and enriched the treasury department too.

Mr. D. B. Morton, was down to our Sunday school last Sunday and made an address to the school.

Mr. John M. Howland of Russell's Island near here, and Miss Nora Pate of this place, formerly of Goldsboro, took it in their heads to get married last week, so they got a horse and buggy and went to Jacksonville, got their license, and called Squire Billie Gardner, who took them to Mr. Geo. Gurganous' boarding house and made the two one according to law, the happy couple took a honeymoon trip on board the steamer "Purdy;" arrived here all right, after a three days pleasure trip.

Doctor Montfort makes a mistake when he said the Ward's Mill Correspondent, said he (the Doctor) would not vote the straight Democrat ticket; the correspondent said, "now we learn" that he would not do so, etc., he (the Cor.) did hear it for a fact, a gentlemen told him (the Cor.) that the Doctor's son Ed. said that he (Ed.) did not want Morton and Simmons to be elected, and furthermore hoped that no one would vote for these two men, and from the talk it was expected the Doctor was of the same opinion as his son. The correspondent thought it was so and was glad it was so, for that was the opinion of the correspondent, as well as many others. The correspondent meant no disrespect to the Doctor, on the contrary, holds him in the highest esteem. If he said anything wrong he begs the Doctor's pardon, for he didn't intend it, but he is sorry, sure, that the Doctor and his sons are going vote the straight Democratic ticket this year. Sorry that the correspondent don't see as they do, or they don't see as he does—but all friendly of course.

### To Registrars.

CLERK'S OFFICE, NEW BERNE, N.C.

September 7th, 1896.

The Election Law provides (Section 9) that whenever a Precinct, as laid off by the Clerk, shall not be identical in boundries with any existing Precinct at the election of 1894, then there shall be in such Precinct a new Registration. This provision necessitates a new Registration in the following named Precincts in Craven County where boundaries have been changed towit:

Maple Cypress, Vanceboro, Fort Barnwell, Core Creek, Dover, Temple's Stanton's, East James City, West James City, Riverdale, Rocky Run, Plesant Hill, Neuse Trent, St. Phillips and Pavietown.

It is further provided that where the Registration Book shall be mutilated or lost in any Precinct that there shall be a new Registration in that Precinct.

Therefore if in the following Precincts in which the boundries have not been changed the Registration book is lost or so mutilated as to render the names unintelligable, then and in that case Registrars are directed to cause a new registration of the qualified voters of the Precinct to wit: Truetts, Lee's Farm, Jasper, the First, Second, Third and Fourth Wards of the City of New Berne, and McCarthy's Precinct of the Fifth Ward of the City.

In each and every Precinct where a new registration is had each qualified voter offering to register must take the oath prescribed by law before his name can be enrolled. If there shall be no new registration in his precinct the voter can simply have his name transferred to the new book as heretofore without being required to take the oath.

Before entering upon the discharge of their duties Registrars must take and subscribe the oath of qualification before the Clerk, a Justice of the Peace or other person authorized to administer oaths, which oath must be filed in the office of the Clerk of the Superior Court.

The time at which the registration of voters shall begin is construed to be Saturday September 26th and continue for three consecutive Saturdays thereafter being October 3rd 10th and 17th.

That October 24th shall be the challenge day or day of entering challenges, and October 31st the day upon which the challenges are heard and decided by the Precinct Board and upon which the books are to be closed, at 4 o'clock p. m. except in Cities and incorporated Towns where they are to remain open until 9 o'clock p. m. of that day.

## Take Notice!

The best thing for New Berne that has ever happened. An enterprise that will be ever a success. We are now sawing cook wood, stove or range lengths, the very nicest kind, and storing it away under large shed house; keeps dry always in rainy weather, and never gets wet.

We keep a large stock of this kind on hand. We cut the prices on sawing, as we are better prepared to do it cheaper than heretofore, and we now deliver it in your wood houses or anywhere you want it, without any trouble to you, only give your orders to BIG HILL, the Shingle Man.

You can also do Big Hill a favor, by reporting to him, if his own carts don't deliver the wood anywhere the customer may want it put. We have polite draymen and nice teams ready to serve the good citizens of New Berne, if they will only take hold of an enterprise like this, one that has never been offered to New Berne like this before.
