Fads in Nedleine.

There are fads in medicine as in ever thing else and a "new thing" frequently sells for a short time simply because it is new. But in meticine, as is nothing else, the people demand and will be satisfied only with positive, absolute metit. The

fact that Hood's Saraparilla has stood its ground sgainst all competition, and its. ales have never wavered but have remained steadily at the top, demonstrates, beyond any doubt, the instrinsic virtues of this medicine. The new things have come and gone but Hood's Sarsaparilla rests upon the solid foundation of absolute merit and its power to cure, and its sales

continue to be the largest in the world.
