

New Berne Daily Journal.

POPULISTS FOR PRITCHARD.

WESTERN SENATOR HAS FOLLOWING AMONG THEM.

Western Senator Alford's Expenses show University, Southern Railway's Earnings. Governor's Thanksgiving Proclamation.

JOURNAL BUREAU, RALEIGH, N. C., Nov. 14. The movement to re-elect Pritchard U. S. Senator has a good footing among the Populists, it reports be true. It is stated today that Council Woolen, Populist member of the last legislature, is making a tour of the eastern counties interviewing Populist members of the legislature as to their preference for Pritchard. He said yesterday that Frank Woolen, Populist of Jones county, was in favor of Pritchard. The Senator was in Salisbury yesterday and when told of the Senator's declaration, that no gold could be elected Senator, asked if he would refer to him by name. Later he said he would do so on the evening of January 1st, when Butler and Pritchard make their joint Populist-Republican caucus. G. B. Alford, the Palmer and Buckner are the candidates for Congress in this district. He swears his election expenses were \$80.

There are now 155 convicts in penitentiary. The chief work done this week was making, and two and a half million. There are now 270 students at Shaw University, colored, in this city. Seven from foreign countries. The white Baptists in this State East of the Blue Ridge, have this year built 11 churches and are building 23 others. The railway commission today received a quarterly report of the Southern Railway showing the earnings of all its lines in North Carolina. The increase in earnings is compared with the same quarter in 1895 is \$164,000.

There has been for years much doubt as to the powers of magistrates to imprison a delinquent for a longer period than 30 days. The Supreme Court, in a decision just rendered, says that the imprisonment counts for a time long enough to cover the allowance, fine and costs. In this county where the rate is \$6 a month imprisonment could last a year.

The coldest weather of the season set in last night, and the change from the temperature is very grateful.

A dramatic club has been organized and will on December 1 present "The Boys." Governor Carr today issues his Thanksgiving proclamation. His reference to the soldiers is timely. Applications for pension to the Soldiers' Home are more numerous than ever before and there is a following is the proclamation: observance of one day in the year occasion of "solemn and public thanksgiving to Almighty God for past and future blessings for His country and care over us as a Nation" is a beautiful and timely custom of a Christian people and should be perpetuated among us and in a dignified and religious manner.

The people of North Carolina have much for which to be thankful to the Governor of every good and perfect gift." Although the past year has not brought the prosperity or the land yielded so abundantly, still our people have enjoyed a proportionate measure of these blessings and have escaped the dire calamities which have befallen some less favored Commonwealths.

Therefore, in accordance with the laws of this State, I, ELIAS CARR, Governor of the State of North Carolina, do hereby designate and appoint Thursday, the 20th day of November, 1896, as a day to be set apart by our people for public Thanksgiving to God for the many blessings bestowed on us. To this end let our people assemble in their usual places of worship or around their firesides and give thanks in prayer and praise.

On that day let us remember in our prayers and with substantial offerings, the poor and needy, the widow and orphan, the noble Charitable Institutions of the State and the unblest soldier who more than ever needs, in his declining years, the strong arm of the State and the assistance of her patriotic citizens to protect him from want.

In witness Whereof, I have hereunto set my hand and called the Great Seal of the State of North Carolina to be affixed. Done at the City of Raleigh, this 12th day of November, in the year of our Lord one thousand eight hundred and ninety six, and of the Independence of the United States of America the one hundred and twenty-first.

ELIAS CARR,
By the Governor
S. F. BELFAB,
Private Secretary.

The value of property owned by negroes in this State has increased to \$8,180,074 in 1895, as compared with the previous year, \$7,121,325, an increase of \$1,058,749.

Gov. Carr appoints A. G. Atkins, of Washington, W. G. Coleman, of Concord and Dr. L. A. Coggins, of Raleigh, three representatives negroes, to be delegates from this class to the negro department of the Tennessee Centennial exposition.

It appears that a large number of the new Populists and Populist officials will give credit to security companies.

The Secretary of the State has received all the official returns of the voters who electors save those from Union county. The votes will be added Monday. Until then no one can see anything save guesses at the totals.

TAX ON BEER.

An Increased Tax Would Increase Revenues and Make Good Deficit of Government.

SPECIAL.

WASHINGTON, D. C., November 14.—There are strong arguments being presented in favor of increasing the tax on beer from a quarter to half a cent per glass, the former being about the tax now, and yields the government three million dollars revenue a year.

The raise could be made without an additional clerical hire to the government.

The consumption of beer would be the same, and the government deficit, which is now thirty million dollars, annually would be overcome in this way.

A bill to this effect will be introduced in Congress.

The Dynamiter Trial.

SPECIAL.

NEW YORK, November 14.—There is a sympathetic Irish movement here, as this city is all agog over the appearance of the British Government spy, Thomas Merrick Jones, at the trial of E. J. Ivory, the Irish American dynamiter, in London.

Boaters in Collision.

SPECIAL.

NEW LONDON, Conn., November 14.—The schooner Post Roy, of New York and the schooner Julia and Martha, of New York, arrived here this afternoon, after having been in a collision on last Friday night.

One sailor was drowned, and both vessels are badly damaged.

Not With Cleveland.

SPECIAL.

NEW YORK, November 14.—Secretary Carlisle accompanied by his wife, returned to Washington this afternoon.

The Secretary denies that his purpose is to enter into a law partnership with President Cleveland in New York, after the expiration of their terms.

DON'T BELIEVE JONES.

The Irish National Alliance Deny its Truth of Statements Made by the Spy.

SPECIAL.

LONDON, November 14.—The members of the Irish National Alliance deny absolutely the truth of Jones's statements at the Ivory trial, especially those which tend to show that the Brotherhood is organized to encourage revolutionary measures and to use dynamite in securing Home Rule for Ireland.

Foot Ball Yesterday.

Heavy Failures.

SPECIAL.

GALVESTON, Texas, November 14.—J. Rosenfield & Co. wholesale millinery, and Marx & Blum, wholesale shoe dealers, have failed. Liabilities \$800,000.

THE COTTON MARKETS.

November 14.

LIVERPOOL did not quite participate in our decline of yesterday though the spot prices were only 7,000 bales and spot cotton was 1-16 of a penny lower. New York opened at 7.83 for January quickly declined to 7.75 and closed steady at 7.79 a net gain of 1-100 compared with yesterday.

The receipts continue large; in fact, the movement is enormous.

COTTON has lost some of its statistical strength the general tone is bullish. A LITTLE further decline will "shake out" most of the fellows who are holding on slender margins and the market will then be in better shape for a substantial advance.

New BEANS market has been steady at 7 to 7.15.

NERVOUS Troubles are due to impoverished blood. Hood's Sarsaparilla is the One True Blood Purifier and NERVE TONIC.

though he would not promise to vote for it, expressed himself thusly concerning the attitude of other Senators: "Further opposition to the Dingley bill by the silver Republicans, the gentlemen who do farwell to their old party at St. Louis. I do not anticipate at the coming session. They fully demonstrated their faith in the cause of silver in the last session, and have nothing to gain at the present time by a continuation of such opposition."

Mr. Morgan thinks that the state of business three months hence will determine whether a spring session of the Fifty-fifth Congress be called as soon as President McKinley assumes office. There will be Republican opposition to taking up the Dingley tariff bill in the Senate this winter, and it may be effective if the Republicans are sure to control the Senate after the 4th of March. In fact, the strength of the opposition will be governed entirely by the control of the Senate. If the Republicans control it, the opponents of the Dingley bill will argue that it is useless to adopt a temporary tariff law, only intended to be in effect two years, when in a few months a permanent protective measure can be presented and passed. These Republicans who believe in taking everything in sight when you get an opportunity, will try to have the Dingley bill passed any way.

One of the curious things noted in our cabinet speculations is that none of the cabinet probabilities appear to take into consideration the fact that New Hampshire is represented in the McKinley cabinet. It is thought that will occur the offer that most people think will be made him to become a member of the Cabinet. The tenth man will argue that President McKinley will not slight a section that was so loyal to him as New England was said to be and put the excellent cabinet material he has in men like Dingley, of Maine, Lodge, of Mass., Aldrich, of R. I., and others of equal prominence and ability.

While there are a number of members of the Diplomatic corps in Washington who do not like the submission of the dispute over Venezuela's boundary to arbitration, the corps is unanimous in believing that the treaty agreed upon by the United States. For the first time since the promulgation of the Monroe doctrine it is recognized by a European power, and the greatest merit that can be claimed for that policy will be taken.

It is believed that Germany will take its place among the mass of nations, and that the United States to maintain its equality with European or other great powers, must show the people that a treaty upon the American continent will never again be made. It is not a national sense, but a sense of honor that will impel the United States to insist upon a recognition of the Monroe doctrine as an event of the first importance in the history of the world, and the diplomatic policy will be guided by that.

Mr. Winslow's Southern system has been used by millions of Millers for their children since teaching, with perfect success. It teaches the child, when the years, allays all pain, cures wind colic and is the best remedy for Diarrhea. Twenty five cents a bottle.
