## WASHINGTON NEWS.

### SENATOR MILLS RED HOT CUBAN RESOLUTION.

Dingley Bill, A. S. Claim, South Dakota's Election, Eckels Financial Cure Play For Bigger Things, Other News.

**JOURNAL BUREAU,**  
WASHINGTON, D. C., Dec. 11. Senator Allen exploded a bomb that shook the Senate from center to circumference when he moved that the Dingley bill be taken up, and the motion was carried by a vote of 25 to 21. The vote in favor of the motion was made up of 23 Republicans, 6 Democrats, 5 Populists and Senator Pettigrew who is now classed as an independent, and the vote against it of 2 Republicans, 16 Democrats and 2 Independents, Cannon, Dubois and Mantle.

Senator Allen said he made the motion without consultation with anybody and solely to show that the Populist Senators were not standing in the way of revenue legislation. In reply to questions from Senator Aldrich Mr. Allen said that while he would not vote for the Dingley bill as it passed the House, it could easily be put in a shape that would get his vote and that of other Senators who are not Republicans, but he didn't mention what that shape was. The Dingley bill was before the Senate less than 30 minutes, when the expiration of the "morning hour" sent it back to the calendar. Mr. Allen having failed to get unanimous consent for it to be the "unfinished business" of the next day, it can be taken up at any time by a majority vote, but as the bill is now, owing to the action of the Senate at the last session, a bill for the free coinage of silver instead of a revenue bill, its passage in that shape would be merely duplicating the work of the last session.

Several Cuban resolutions providing for recognition of independence, have been offered in both House and Senate, but Senator Mills, of Texas, is entitled to the belt, and it ought to be a blood-red one, for having put the hottest stuff into a resolution that the oldest Capitol habitue remembers. His resolution directs the President to take immediate and forcible possession of Cuba, and to protect the Cubans until such time as they shall organize a government of their own. A factional Senator has already suggested that Senator Mills be the commander of the army of occupation.

Mr. George E. Nelson, who took the trouble to travel all the way from Indian Territory to Washington, with no better claim for a seat in the House as Territorial Delegate than a certificate of election signed by an Indian Agent and his own statement that he received 200 out of about 300 votes in an election held November 3d at several villages of the Territory, finds that members of the House not only fail to recognize the legality of his claim, but are also inclined to poke fun at him.

Senator Kyle, of South Dakota, professes astonishment at the stories that are being told about that State as about to throw out, on account of alleged fraud at the election, enough votes to give the State, and possibly the Legislature, to the Republicans. He said: "Every one out there thought the election was conducted in the fairest kind of a way. I did not hear it challenged on any side. I scarcely think the board would attempt to throw out enough members of the Legislature to turn it over to the Republicans. It would be a high-handed outrage if it did, and it would cause an uprising in South Dakota. I can do nothing but watch the course of events, but our men are on the ground all the time, and will bitterly contest any scheme to defraud us of our rights." Republicans are not talking of publication about this matter, but enough was said at their caucus of Senators to indicate that some of them expected a Republican to succeed Senator Kyle, whose term expires on the 3d of next March.

Comptroller Eckels has a plan which he says in his annual report he is certain would go far towards curing our financial ills. The foundation of his plan is to decrease the tax on National bank circulation and encourage the formation of banks of \$25,000 capital in small towns and villages and to allow them to issue currency to the face of five bonds they have deposited with the U. S. Treasury. Neither Senators nor Representatives have been falling over each other in their efforts to get the plan of Mr. Eckels before Congress, and there isn't the slightest likelihood of their doing so.

The House, as usual, is ahead of the Senate in the matter of doing business. It has passed the regular Pension appropriation bill and a number of minor measures.

The bolting silver Republican Senators were playing for bigger stakes than the forgiveness of their old party associates when they ignored the invitations sent them to attend the Republican caucus. They figure it that by maintaining an independent attitude they can dictate legislation in the next Senate, unless the Republicans happen to get a majority, and demand control of the Federal patronage of their States as well.

The only man who has mentioned the President's message in Congress is Representative Grow, of Pennsylvania, who in a few remarks ridiculed Mr. Cleveland's assertion that the present tariff law, if let alone, will produce all the revenue that the country needs. It seems that Mr. Cleveland has changed his opinion since he called that tariff bill a "horrible" one and refused to sign it.

## Royal Baking Powder

ABSOLUTELY PURE

the work for which he came to Washington, is about ready to return to Ohio and discuss what he has learned with Major McKinley. He has learned lots, too.

**Gold Crane Increases.**  
Special.  
Raleigh, N. C., December 11.—State Geologist, J. A. Holmes left today, for Granville and Vance counties where rich gold finds are reported.

He will make an investigation. Miners are arriving daily in that region.

**Returns to Mexico.**  
Special.  
Raleigh, N. C., December 11.—Minister Matt Ransom was here today, on his return to his post at the city of Mexico and was accompanied by his sons Matt and George.

Minister Ransom came to North Carolina two weeks ago to attend the funeral of his son, Thomas.

**TWO HUNDRED LOST.**  
German Lloyd Steamer Sailer Lost on the Spanish Coast. Heavier Reports Received.

LONDON.—Lloyd's agent at Vigo, Spain, telegraphs that the steamer Sailer has been totally lost on the Coruna Corrubeda shoals. Not a single person on board the steamer was saved.

It is believed in London that the disaster occurred on Tuesday, when a terrible gale along the European Atlantic coasts did extensive damage to shipping.

It is reported here that the Sailer carried a crew numbering seventy-eight persons.

Lloyd's agents here discredit the report that a large number of emigrants were on board the steamer Sailer, but they do not deny it.

A dispatch received here from Bremen asserts that there were 210 passengers on the steamer, including 1 German, 113 Austrians, 85 Galicians, and 61 Spaniards, and adds that it is feared that all of them were lost.

BERLIN.—Persistent reports reach here from Madrid that more than two hundred emigrants took passage on the Sailer at Corunna, and that all of them were lost.

CORUNNA.—The report of the loss of the steamer Sailer is confirmed. The vessel carried a crew of sixty men and all hands went down with the ship.

**ELBE WRECK RECALLED.**  
The loss of the Sailer is another of the series of disasters that have attended the fortunes of the North German Lloyd Steamship Company. It calls to mind the frightful loss of life that occurred early in the morning of January 30, 1895, when the steamer Elbe, belonging to that company was run into on the North Sea and sank by the British steamship Craythill. Of the 373 passengers on board the Elbe all were lost except 23, most of whom were members of the crew.

**Telegraphic Items.**  
The employees of the Pacific Rolling Mills, at San Francisco, numbering 120 men, are on a strike because of a reduction in wages. The business of the mills has been poor for some months.

The banking house of Jonathan Esterly & Co., of Columbiana, Ohio, established by Jonathan Esterly in 1875, has gone into the hands of receivers. The assets of the house are given as \$200,000, while the indebtedness to depositors is about \$105,000.

Harley Stockstill, of Maplewood, Ohio, aged fourteen years, blew his brains out with a shotgun because his parents refused his request to accompany them to visit neighbors. He placed the muzzle of his gun in his mouth, discharged both barrels, and tearing his head to pieces.

George Thomas, a merchant of Grand Junction, Colo., brought on an attack of nose bleeding three weeks ago by lifting a sack of flour. The bleeding continued at intervals in spite of all that the physicians could do for him, and he has just died in a hospital. His weight had become reduced from 180 to about 100 pounds.

Scar-Faced Charley, a noted Modoc chief, is dead of consumption on the Modoc reservation in Indian Territory, four miles from Seneca, Mo. He was a member of the conference with the United States committee, Gen. Canby and others, April 11, 1873, near the Lava Beds in Oregon, at which time Gen. Canby and Dr. Thomas were killed, and Mr. Maccham and other commissioners wounded.

Vernon White, a thirteen-year-old boy, was accidentally hanged at Omaha, Neb., as the result of a boyish prank. With his playmates he was playing police. When they captured criminals they were condemned to be hanged. He was condemned and a pillow slip was tied around his neck and he suspended himself by the neck to a bedroom door. Before assistance arrived he was dead.

**THE ONLY True Blood Purifier** prominently in the public eye today is Hood's Sarsaparilla. Therefore get Hood's and ONLY HOOD'S.

## GAINING IN THE PHILIPPINES.

Cuban Advice State That the Revolution is Growing.

WASHINGTON, D. C., December 11.—The Cuban delegation has received a communication from Hong Kong, from the Cuban agent there, who has been in communication with the revolutionary committee in the Philippines. It is as follows:

"If things continue as they are in the Archipelago, the Philippines will be free before Cuba. From most reliable sources it is learned that only the province of Novleta is wholly in the hands of the Spaniards. For the rest of the island, the province of Cavide is in the hands of the insurgents, while in the province of Manila the patriots are strong. In the province of Bulacan the revolution is making headway.

The Islanders are making a most successful fight for freedom throughout the whole country. The Spanish forces have been obliged to scatter in order to occupy many points at once, and are therefore unable to operate in large forces. The revolution is daily increasing, not only in the extent of territory occupied by the patriots, but in numbers and equipment.

"It is sad to compare the efficient aid that has been given to the revolutionists in the Philippines by the Japanese, and the hostility that, I am told, is exercised in the shipment of arms from the United States to Cuba.

"The Spaniards will probably initiate a war of extermination, confiscating property on mere suspicion so as to be able to carry on the war. Gen. Blanco has left the islands in disgust, as he disagreed with the despotic policy of the Spanish Government."

Senor Quesada said that he did not credit the news of Maceo's death, as the dispatches bore all the marks of fabrication by the Spanish.

"But," said he, "the world must understand that even if Maceo be dead the revolution is yet alive."

**TO CURE A COLD IN ONE DAY.**  
Take Laxative Bonna Quinine Tablets. All druggists refund the money if it fails to cure. 25c.

**THE COTTON MARKETS.**  
December 11.  
LIVERPOOL declined today, 5-64 for futures and the spot market was easier with light sales.

New York opened at yesterday's closing prices and declined to 7.92 for January. The close is 7.08, a net loss of 2 points for the day.

LATINS aside the question of what values may be later on, it is quite probable that the declining tendency is checked for the time, and it would be only natural to see some recovery from these low prices.

New Berne market has been steady at 64 to 65.

Yours truly,  
J. E. LATHAM.

**COTTON.**  
The cotton situation, both from the standpoint of supply and of demand, seems to be stronger than for several years past. The improving trade, both in America and Europe, promises to more than absorb a supply that seems now unlikely to be as large as had been earlier anticipated by many, and widely proclaimed by the bears. Despite this cotton has declined. The reason for the decline is that speculative holders of contracts for the future delivery of cotton being unable to margin their transactions, have been forced to sell in New York. The question is thus raised as to whether producers of cotton are likely most substantially to profit by purchases of contracts, or by holding spot cotton. We invite correspondence upon the subject, and meantime solicit consignments of cotton to New York or to Liverpool to be held as long as the owners may desire. We are willing to pay sight drafts against the bills of lading for such consignments within a reasonable limitation of their value, and will charge not over 6 per cent. interest on such advances. Special terms as to commissions, etc., on large consignments will be made on application. Correspondence is solicited. Address, PRICE, McCORMICK & CO., Box 263, New York.
