TUCKY AND NORTH CAROLINA WILL DO IT.

Hard for Protection. He Believes a Tariff Measure Along Republican Lines, Would Act to Such an End.

WASHINGTON, D. C.—In an interview with the Senatorial situation in North Carolina, Senator Thurston, of Nebraska, member of the National Republican committee, said last night: "The Republicans seem certain of forty seats in the next Senate. If the bill of Montana should act with us, we will have forty-three. We then need at least two more votes to secure the passage of a tariff. We hope to secure those two votes in Kentucky and North Carolina. The members of the National Committee, so far as I know their sentiments, are very anxious that a Republican measure should become operative at the beginning of the next fiscal year."

It seems almost evident that no tariff of a satisfactory character can be passed until the effects of the new protective tariff. We are, therefore, not interested very much now about any more.

It is one of the greatest impediments to the protective policy to be passed in the tariff bill.

Senator Fritchard is the choice of the voters of North Carolina. He came to the Senate two years ago with views favorable to the use of silver as money.

We understand that he is still a friend of silver. For my own part, I roughly understand that Senator Fritchard has been opposed, and is opposed, to anything which tends towards a monopoly.

His silver views, however, furnish no reason why we should not desire his return to the Senate. He is a strong protectionist—has always been so. I feel, therefore, that in spite of his views he would be willing to assist in passing a tariff act with reasonable protective provisions, and I do not think he would carry his friendship for silver to the extent of trying to force a free silver amendment on our tariff bill.

As I stated before, the National Committee, if I understand the feeling of its members, is not particularly concerned about financial legislation; it has no such intention to propose; it recognizes the fact that the country has declared in favor of the republican policy of protection; that the unemployed people of this country have the right to demand that the Government should be absolutely necessary to secure the passage of a Republican tariff measure.

It is not intended we will be more than a month in the Senate, and as a result the country may be left in a state of confusion without any chance of relief for the next two or three years.

In addition to this, Senator Fritchard has won the good will, esteem and friendship of the members of the Republican national committee by the honest and manly manner in which he has carried on his canvass and the canvass of the Republican party of North Carolina.

He has not sought to misrepresent as positions on the silver question, or to mislead his own people or the Republicans of the country. If he comes back to the Senate, we know he will still be a friend of silver."

WEYLER MAY BE DEPOSED.

The Spanish Government Disappointed With His Conduct of Affairs.

MADRID, Dec. 15.—The dissatisfaction with Weyler's conduct of affairs in Cuba grows apace here. The ministerial papers complain about his returning to Havana to receive an undesired ovation instead of rigorously pursuing the insurgents in the province of Pinar del Rio.

Other papers resent Gen. Weyler's alleged suppression of telegrams recording the ovations to Major Cárdena upon the receipt of the news that his command had defeated a largely superior force of rebels and killed their leader, Maceo. This action is attributed to jealousy on the part of Gen. Weyler, who, the papers claim, desires to have no one share with him the honor of suppressing the insurrection.

Credible rumors are current that the Government is not at all satisfied with Gen. Weyler's administration of the civil and military affairs, and that if the insurrection in Cuba does not shortly improve, Gen. Weyler, at present Governor of Puerto Rico, will succeed him.

Judge Knowles, of Montana, has decided that lands within the land grant of the Northern Pacific road upon which there is doubt as to their mineral or agricultural character, will be granted from the public lands. They have been considered by the United States Land Commission. The decision means an annual loss of \$2,000 to the State.

THE COTTON MARKETS.

December 16.

One spot sales in Liverpool today were 15,000 bales and this was the only encouraging feature in the days doings.

Futures in Liverpool and New York, have been weak, and while the net decline in either market is only about equal to 1/4c, it is almost wonderful it was not greater.

There was apparently no inclination to buy and only moderate pressure to sell through the decline was not greater.

The cotton trade generally are thoroughly staggered by this continued decline and in the general demoralized have— it seems—completely lost their bearings.

Futures may withhold marketing freely for a while and this is the only remedy in sight at present which will bring about better prices.

New York market has been very firm at 5 1/4 to 6 1/4.

Yours truly,
J. E. LATHAM.
