MORE POPULIST BOLTS.

BUTLER'S ADDRESS SAID TO CAUSE BOLTING.

Republicans Ignore Populist [Vote Important Bills Introduced. Talk of Republican Democratic Fusion. Other News Matter.

RALEIGH, N. C., Jan. 22, 1897. All of the successful sides in the Senator fight have gone to other scenes. Senator Butler and his backers are left here to see what can be done with the situa

In his address "To the Voters of the People's party in North Caroliha" in which he laid down the law and read out of the party the bolters, he made other Populists mad, among them being Speaker Hileman, and it is said that there are eight more bolters.

Many were the telegrams of congratulation that poured in for Senator Pritchard and Congressman Skinner before they left here.

Last night the Populist caucus sent communication to the Republican caucus to know if the terms of co-operation made between the two parties last summer would be carried out, or whether the Republicans would look to the minority party to back them.

The reply was sent to the Populista in answer to this, before adjournment of the cancuses.

Now that the Senatorial question is settled, the legislature is confronted with five contested elections fights. This will probably keep them from making! some bad laws.

In the House yesterday the bill to regulate appeals was taken up and passed, providing that in appeals to the higher court the evidence shall be sent up at the request of either party to the action. It does not apply to magistrate's courts, city courts or mayor's courts,

Bill to provide that guardians, adminustrators and executors who misappropriate funds are liable to indictment for embezzlement, passed.

In the Senate. Mr. Grant, by unanimous consent, introduced, resolutions that the president of the Senata appoint five senators and the speaker of the House appoint eight representatives to consider the election law and the Subject of county government. The bill passes 2nd and 3rd readings.

A bill now before the legislature is to reduce the fees of register of deeds and clerks of courts about 331 per cent. Sc far as lien bonds and mortgages are con cerned the reduction is 50 per cent.

It is said that the salary and fees of the Secretary of State run up to about \$4500. Some Republicans are advocating that their party unite with the Democrats and cut loose from the Populists.

The new State Superintendent has is sued an address to the legislature urging that provision be made for a four month term of the public schools.

WASHINGTON NEWS.

SENATE MAKES ITSELF RIDI CULOUS.

plutons Diversified on Arbitration Treaty, Speaker Reed's Expertence. No Alarm'over Bubonic Plague, Senutor Billy Mason.

WASHINGTON, D. C., Jan. 22. It is neither flattering nor creditable to say that the most interesting thing in he Senate during this week was a running debate, occupying the "morning iour" of several days, on a resolution electric light companies of Washingto top work it was doing on a permit from he Commissioners of the District of Colimbia to extend its lines, but it is strict y true all the same. Without repeating my of the intimations which made this tebate interesting or caring which, if sither, side was right, most sensible perthe will agree that the U.S. Senate ought to be able to find something more aportant to do than to be playing comaon council for the city of Washington. Not only was it a waste of time belonging to the people of the whole country, out the tone of the remarks was calculaed to lessen the respect felt for the m tividual Senators against whom the inanuations of other Senators were aimed and consequently of the entire Senate by the country at large. If the Senate staties to kill time for the purpose of reventing legislation it should find a

oetter way to do it. The Secretary of State was the guest of the Secretary of State to be (Sen dor) therman) at this week's meeting of the Senate Committee on Foreign Relations. and the questions fired at him about the inferent clauses of that arbitration treaty opt Secretary Olney busy for about tions in honr. There are differences of oninon as to what construction may be placed gon several clauses of the treaty, and ling for four months public schools. It are is a disposition among Senators to slow in deciding whether the treaty call be amended, rejected or ratified. sic. Oluey told the committee that he ad not understand how any construction ould be put upon any clause of the reaty that would connect it in any way with the Monroe doctrine and assured the Senators that there were no hidden neanings concealed in the treaty.

Speaker Reed had a somewhat unique experience this week, when he was wait at on by committee composed of Repre sentatives Hicks, of Pennsyvainia; Cur tis, of Kansas; Hooker, of New York derman, of Oregon, and Henry, of Indiana, who represented a petition signed oy \$38 members of the House, asking that time be given for the consideration of twenty-two bills on the House calenfrom the window of his house. He was dar providing for public buildings in various sections of the country. The speakor pointed out to the committee the dieton, Ore., for six terms is short in accessity for rigid economy in public exhis accounts \$2,882. Lash is sick at penditures caused by the existing anaual deficit of \$58,000,000, and the comnittee went back at him by pointing out that none of these bills carried an appropriation; that they only fixed the maximant cost of the proposed buildings, leaving the appropriations to be made by future Congresses. The speaker expressad his dissent from this system, which ne called mortgaging the revenues of the government, and called attention to the obsence of the New York custom house idded, but the Speaker was candidly told that it could not be considered unas opposition plain he did not give a lefinite answer. When he does, if it be infavorable, there may be a revolt in the at the RIGHT PRICES.

The House committee on Public Lands nade haste to clear itself of the imputation of intention to pigeon hole the Free GOAL! domestead bill, by reporting that measare back to the House just as it passed he Senate. An attempt will be made in he House to amend the bill by exempting lands sold by the government as
