EFFECTS OF NEW JOURNALISM.
The twenty-second annual report of the New York Society for the Prevention of Cruelty to Children sets forth the effects of the new journalism upon the minds of children. Among other things, President Gerry says:
Child criminals are increasing in this community. Notwithstanding all the humane, legal, and religious influences at work, this unpleasant fact cannot be denied. In the first place, the class of child criminals seems to have entirely changed. The larger number are those of recently arrived foreigners, whose poverty and lack of intelligent education prevent them giving that care to the children, which the latter require. Many of these children are bright, intelligent, and precocious; they are ready to seize upon whatever may be placed in their way in the form of literature and to shape their own action accordingly.

They soon learn to read, and then comes the first cause of their training in vice—what may well be called vicious journalism. Lurid stories of crime, illustrated by vivid pictures representing criminals in daring and attractive attitudes; descriptions of criminals arrested for gross immoralities with the like pictorial illustrations; narratives of these, and especially of children charged with crime, where all the details are elaborated with the greatest care, with their pictures often of a salacious character, makes a deep seated and deep-rooted impression. Any one conversing with children held for crime may soon learn whence the suggestions of crime are derived. They are only too ready to talk on the subject, and frequently to compare their exploits with those chronicled in these newspapers. * * * The decent part of the community exclude such vile poison from their households, but it is greedily read and devoured by the uneducated classes, and this daily dose of poison poured in the minds of the young can be and is productive of but one result. Unless the poison is suppressed the number of criminal children must and will increase. * * * Dime novels are bad enough, but the criminal news costs almost nothing to purchase. It is the enemy of the human race, and especially of the poor and ignorant. The intelligent neither read nor believe it.

What a fearful arraignment this of the New York World and Journal, which are running a neck and neck race for the badge of infamy in modern journalism! What a fearful responsibility a newspaper takes upon itself when it lends its columns, from day to day, to a class of matter of which it can be said by a student of child-life, as Mr. Gerry, that is corrupting the hearts and minds of children and educating them for lives of vice and crime! It were better for the publisher of such a paper that he should have a mill-stone hanged about his neck and be cast into the midst of the sea.—Charlotte Observer.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.

DEATH OF EDITOR McDIARMID.
It is with sincere regret and sadness that the Press of North Carolina will learn of the death of its fellow member, W. W. McDiarmid, Editor of the Lumberton Robesonian.
Mr. McDiarmid was ever foremost in his efforts for the furtherance of a high and clean style of journalism, and his own newspaper was an example of this policy.
Conscientious and hard working, Editor McDiarmid, was ever persevering in his efforts, and throughout all trials and adversities was kind and genial, honest and faithful, in his likes and dislikes.
The Press of North Carolina is the better for having had Mr. McDiarmid in its association, his kindly impulses and hearty laugh has ever been an inspiration to its members, and will ever be fondly cherished.

Marvelous Results.
From a letter written by Rev. J. G. Gardner, of Dimondale, Mich., we are permitted to make this extract. "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Lives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little intermission and it seemed as if she could not survive. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Tried but free at F. S. Duff's Drug Store. Regular size 50c., and \$1.00. (H. L.)

AN EXCELLENT SHOWING.
The Rocky Mount Argonaut, in its Special Trade Edition last week, makes a splendid exhibit for its town, its tobacco showing being especially note worthy, as it shows Rocky Mount to be the third largest loose bright tobacco market in the world. The Argonaut is ever alert in keeping its town before the world, by exhibiting its commercial interests.
A Noted Atlanta Case.
For four years I have been afflicted with a very troublesome nasal catarrh. So terrible has its nature been that when I blew my nose small pieces of bone would frequently come out of my mouth and nose. The discharge was copious, and at times very offensive. My blood became so impure that my general health was greatly impaired, with poor appetite and worse digestion. Numerous medicines were used without relief, until I began the use of Botanic Blood Balm—B. B. B.—and three bottles acted almost like magic. Since its use, over a year, not a symptom has returned, and I feel in every way quite restored in health. I am an old citizen of Atlanta and take it almost annually living on Fisher street, and more particularly to Dr. L. M. Gillan, who knows my case.

GUNTON'S MAGAZINE.
A knowledge of economic and political economic questions and their practical bearing upon American conditions is most important to American citizens today than in the past.
The Republic hangs in the balance, and its permanency and prosperity will depend upon the education and good sense of the people upon these subjects, particularly the questions of Money, Protection and Labor.
To this educational work GUNTON'S MAGAZINE is exclusively devoted. It is not upon popular names, but upon carefully thought out ideas, principles and facts.
It aims to be strictly scientific in method, modern and accurate in data, and American in sentiment.
It is in reality a magazine of American Economics and Political Science. 25 cents a number; \$2.00 a year.
