TO MERCHANTS—We can sell you goods at manufacturer's prices. **L. H. Carter & Co.**

THE STATE CAPITOL.

Some Supreme Court Decisions Are Necessary.

Signatures Omitted from Important Bills. Person, Negro Senator, Thinks His People Cheated. To Open Tennessee Centennial.

JOURNAL BUREAU, RALEIGH, N. C., March 11, 1897. It is a source of much pleasure to the many friends of Rev. Dr. Marshall to know that he has recovered from his serious illness and has returned from Morganton where he was under treatment. He was on the street here yesterday and received quite an ovation.

Yesterday Governor Russell appointed Chas. H. Sutton, of Cumberland, Judge of the Easter Criminal Court to take effect the 1st of April. This of course puts all hope for "relief" for Walter H. Henry aside. Mr. Sutton's caucus endorsed Mr. Henry for the position which he has now accepted at the hands of Governor Russell.

Dr. D. H. Abbott has been commissioned railroad commissioner to succeed Mr. Reddingfield.

Person, the negro Senator from Edgecombe says he thinks the negroes are to be cheated out of the patronage of the Eastern Asylum at Goldsboro. He says there will be a big revolt among the negroes if such is the case.

Capt. Chas. Price of Salisbury is a candidate for the U. S. Eastern Judge ship.

The new penitentiary board meets here on Tuesday. The new Agricultural Board meets March 23rd.

When the pension act was brought over for the Lt. Gov.'s signature, it was found there was an error in a figure, and was sent back to the House to be corrected. In the rush it was not presented to the president of the Senate again, and now the Secretary of State and Auditor say that to be signed now, there must be an order from the Supreme court.

The revenue and machinery acts may also require a Supreme court decision of a constitutional nature.

The council of State last night decided upon the plan of appointing new directors and State proxy of the N. C. R. R. Russell telegraphed Judge Simonson that he had removed the State proxy Wolfe and the 8 State directors and that any action of their's would be unauthorized and fraudulent.

Governor Russell is specially invited to open the Tennessee Centennial by pressing the electric button and starting all the machinery, North Carolina being the "Mother State" makes this very appropriate, but this State will have no exhibit there.

There were 776 acts passed by the legislature and 66 resolutions.

MURDER TO GET INSURANCE. MERIDIAN, Miss.—A remarkable poisoning case has been brought to light in Kemper county, this State.

Dr. W. H. Lipscomb, a prominent physician, and Guy Jack, a wealthy merchant of Seobola, have been indicted by grand jury on the charge of murdering C. T. Stuart for the purpose of obtaining the value of insurance policies on Stuart's life aggregating \$25,000 and sold by Guy Jack. A postmortem examination disclosed strychnine in Stuart's stomach. Dr. Lipscomb was put on trial at DeKalb, the county seat of Kemper county, and a jury was secured.

There are believed to have been more than a dozen deaths similar to that of Stuart's in Kemper county during the last few years. The authorities say they have proof that there has been an organized gang of men who have grown rich by insuring the lives of poor people and then poisoning them for the insurance money.

The Equitable, the New York Life and the Mutual Reserve Fund Life Insurance companies, of New York, and the Mutual Benefit Life Insurance Company, of Newark, N. J., are the heaviest losers and are prosecuting the case with great vigor.

Bismark has Insomnia.

BRUXELLES.—The Hamburger Nachrichten announces that Prince Bismark has lately been in poor health and is now suffering from chronic neuralgia which deprives him of the power of speech and renders it impossible for him to sleep. The ex-chancellor, the paper says, rather dreads the celebration of the eighty-second anniversary of his birth on April 1. Though he will not forbid the holding of the torchlight procession in his honor on his birthday, he will be a silent spectator of the parade.

Gen. Lee Requested to Remain.

WASHINGTON.—The Evening Star says: "In response to an inquiry from Congressman Lee, the Secretary of State has cabled him that the President would esteem it a favor if he would continue at his post until he shall have had time to consider the question of the selection of his successor. In view of existing complications, the President considers this a most important office, and desires to go slow in making a permanent appointment."

TO CURE A COLD IN ONE DAY

This Laxative Bromo-Codine Tablets All druggists refund the money if it fails to cure. 25c

Celebrated for its great leavening strength and healthfulness. Assures the food against all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

SENATE ADJOURNMENT.

Speculation as to the Reasons for Closing the Session so Abruptly.

WASHINGTON.—The exact reason why the Senate terminated its special session and adjourned sine die is not known. It is generally assumed that, having been informed that President McKinley did not wish to make any nominations before the beginning of next week, when the extra session of Congress begins, there was no work for the Senate to do. Another view of the case, however, is that many members of the Senate desired in the interval between now and the commencement of the extra session to spend some time with Mr. McKinley, discussing with him several of the appointments which it is rumored he has already determined upon.

A circumstance that would seem to indicate the possible correctness of the latter theory is the announcement from various sources of reputed reliability that Mr. McKinley has selected the men for some of the most important positions and will be ready to send the nominations to Congress before the end of the week.

A Costly Mistake.

CHATTANOOGA, TENN.—Through a clerical error of the paying teller, the First National Bank, of this city, is a loser to the extent of \$3,600.

A few days ago a Tennessee river logger presented an order given by Shadlock & Fields for \$100 at the bank. Chas. Knoedler, the teller, opened his cash drawer and tossed out eight bundles of bank notes, each containing ten fifty-dollar bills. The raftsmen whose home is on the French Broad River, in East Tennessee, soon disappeared. The mistake was not discovered until notice of the payment was sent to the lumber firm of Hodggrass & Fields who produced the cancelled check made out on its face for \$100.

The raftsmen was seen in Knoxville pending money lavishly.

Business Activity.

CHICAGO.—The Industrial World says: "The Western steel market is stronger this week. Nails are in good demand and some Eastern makers are still selling a little territory. The wave of activity is extending to other products. The railroad companies are heavy buyers. They are beginning to order freight cars and are also negotiating for much bridge material. Tin-plate mills are everywhere well filled up. Large consumers are everywhere seeking to cover their need for long periods. Bills and shingles are in demand and heavy transactions have occurred in sheets. We quote steel rails \$21; Billet \$18; Northern foundry pig-iron, No. 2, \$40.67."

Telegraphic Items.

Heimes & Seckell's boot and shoe manufactory, Hillsville, Ont., was burned. Loss \$50,000; partially insured.

A sugar bounty bill has been introduced in the New York Legislature. It appropriates \$100,000, and fixes the bounty at 1 cent a pound.

The Seabright Hotel, at Atlantic City, was damaged by fire to the extent of \$10,000. The fire is supposed to have been of incendiary origin.

Gov. Black committed to imprisonment for life the sentence of death imposed on Will Youngs, the Fort Hunter wife murderer. Youngs was to have been executed.

A bill has been introduced in the New York Assembly which authorizes the city of New York to appropriate \$100,000 for the equipment and maintenance of a farm colony near New York City.

Thirty-one men were temporarily entombed by an explosion at the Berwin-White coal shaft at Dubois, Pa. All were rescued, though several miners were severely burned.

The St. Louis express on the Illinois Central, north-bound, collided with a freight train at East Cairo, Ky. Fireman Walters Rogers, of the express, sustained fatal injuries, both legs being crushed off. The mail car and engine of the express train were demolished.

The special committee appointed to investigate the police administration of Kansas City has made its report to the Missouri Senate. The report is a severe arraignment of the police of Kansas City. The charges that gamblers were in conspiracy with officers of the police department and that their games were practically under police protection are sustained by the report.

Besting on the Fight.

NEW YORK.—Interest in the coming struggle between Fitzsimmons and Corbett seems to be on the increase. Persons who heretofore have shown a dislike to anything on prize fights are becoming interested in the result. They wager money, too, but will not say how much, for they dislike publicity.

A reporter, in his visits to the hotels during the past week, discovered that prominent public men and actors are talking about nothing except the big fight.

As already stated, the excursion parties which are preparing to leave for Carson have not secured many passengers. The promoters who figured on taking hundreds to the battle grounds, are now content to carry as many as see fit to go along. F. F. Kenny and his party will leave at once, and will join "Baron Davis" train at Chicago.

Kenny declares that he has heard from "Bat" Masterson, and that the latter has \$10,000 to place on the exchange.

Will Not Return to Mexico.

WASHINGTON.—Ex-Senator Ransom, minister to Mexico, was on the floor of the Senate. It was the first time that he had met his old associates in session, and his greeting was cordial in the extreme.

After having been embraced by Senator Murphy, of New York, and effusively greeted by Senator Morgan, of Alabama, he was taken possession of by Senator Allison, of Iowa, and the two indulged in several minutes' confidential chat, after which the minister retired from the chamber.

Although preserving his usual reticence as to his future intentions, it is well understood by his friends here that he will not return to Mexico for some time. His resignation has been in the hands of the President since his induction in office, and he now only awaits the appointment of his successor.

Grain in Farmers' Hands.

WASHINGTON.—The crop report of the department of Agriculture estimates the corn on hand at 1,161,000,000 bushels, or 11 per cent. of the last crop, against 1,072,000,000 in March, 1896. Both the proportion and the quantity in original units at this date are unprecedented. The wheat reserves in farmers' hands amount to 29.6 per cent. of the crop, or 8,000,000 bushels, against 125,000,000 bushels last March. Of our there are 113,000,000 bushels, or 14.2 per cent. of the 1896 crop yet in farmers' hands.

THE COTTON MARKETS.

March 11. Far cotton market has been a small affair again today, with the tendency to shade lower. May delivery closed at 70. Yours truly, J. E. LINDAM
