THE STATE CAPITAL.

A Great Winter Resort to be Made Near New Berne.

Parnell of Raleigh Said to be Ahead.

Cold Weather and High Winds.

Inspection of Cadets. Pardons Granted.

JOURNAL BUREAU, RALEIGH, N. C. April 20.

The Supreme court yesterday limited the argument in the three asylum cases to four hours. The decision is of course not yet rendered.

There is anxious watching for the news from Washington which is promised today on the Eastern Jockeyship. The latest reports put Parnell of this city on top.

The promised cold spell was awaiting this morning. The wind blew almost a gale all last night and is still quite high.

Wake Superior court is in session with Judge Adams presiding. It is the civil term.

Mr. W. P. Whitaker who, for so long has been book keeper and cashier for the Raleigh News & Observer, has accepted that position on the Pres-Visitor, our evening paper.

Yesterday it was hard to find a vehicle or even a bicycle for hire after the early morning rain. The demand for the kind to carry the numerous picnickers, and fishing parties to their different rendezvous.

The U. S. Inspector inspected the cases of the Agricultural & Mechanical Society this afternoon on their drill grounds.

The city registration is very heavy for the municipal election to be held in May. An association of Northern club men want to establish a winter resort near New Berne, N. C., and they propose to use 213,840 acres of swamp land for a game preserve. Such a proposition is under the State Board of Education (in whose control is the swamp lands), from Fayette C. Giles, of "Turf Field and Farm."

Governor Russell has pardoned James Brooks from Pitt, who was put in the penitentiary for abandoning his wife, and today he pardons James B. Johnson, of Mecklenburg county who was convicted of forgery 3 years ago. He is over 70 years old and his people are willing to care for him. He forged a check but obtained no money on it.

It is said the N. C. R. R. lease question is tearing the Democratic voters in the Eastern rural districts all to pieces.

A dolphin was today received at the State Museum caught at Beaufort.

War Effects the Markets.

NEW YORK—The announcement that war had been declared between Greece and Turkey set the wheat market wild on Monday. On the heels of Saturday's cent rise in prices came another jump of 4 cent, May opening all the way from 88 1/2 cents to 92 1/2 cents. For an hour the market was in a furor, with valuations so wildly that it was next to impossible to follow their course. May values 88 1/2 cents on one of its wild spurts, which proved to be the high water mark for the day.

Suddenly foreign houses, local traders, and everybody who had claimed to buy wheat at the opening transactions. Large profits were represented by most of the wheat thrown over, as the middy unloading process was all swing, with prices going down as fast as they had ascended. May touched 80 1/2 cents before the selling movement could be checked. From this point there was a later rise to 82 1/2 cents, followed by a setback to 81 1/2 cents and subsequent rally, the close being extremely nervous. At the best point May was 82 1/2 cents above the bottom and 8 1/2 cent higher than the closing Thursday.

"I do not see," said a broker, "why the war should depreciate American securities. On the contrary, I should think that United States bonds and municipal securities would be in demand by investors abroad, inasmuch as they come from a country not likely to be drawn into a war with the powers of Europe, and their values are not liable to be affected by the war."

"I do not think a great amount of American stocks are held in Europe now. Many of the securities held by foreigners have been disposed of in the last two years, owing to an apparent lack of confidence in this country."

"Neither Greece nor Turkey," he continued, "use American cotton. The import large quantities of Russian lines. Unless England or Germany, which countries are large consumers of our raw material, engage in the fight the influence upon this country will be insignificant."

"It is a curious but notorious fact," remarked a cotton broker, "that on the declaration of war in a distant part of the globe cotton invariably declines in value. As at present it has gone down to 7 1/2 cents, which is one-half a cent less than a few days ago."

"There has been no unusual demand for it, as the present low figure would plainly indicate, and such demand, even in the instance of all Europe indulging in a general engagement, is not likely to occur at all."

Correll vs. Alsbaugh, from Forsythe, affirmed.

Raney vs. Hines, from Forsythe, New trial.

Guilford vs. Comm's fine, from Beaufort, affirmed.

WAR BEGUN IN BARNIST.

Lively Fighting All Day Yesterday, and Numbers Killed on Either Side. The News of Success Causes Widest Rejoicing at Athens.

LARISSA.—The battle of Sunday, resulting in giving the Turks possession of the Pass, was waged with the most admirable courage and determination on both sides. The whole pass rang with the roar of artillery and the rattle of musketry. It was, however, around the two Greek blockhouses that the most serious conflict occurred. They were defended with the utmost valor and tenacity.

The hill slopes on the northern side of the pass are strewn with the Greek dead. As details come in it becomes more and more apparent that the fighting in Lissa Pass was of the most stubborn and savage character.

Col. Manos, with 25,000 men, having crossed the Arakphos under the protection of the Greek artillery batteries, now in Epirus, where, it is believed, his force is considerably in excess of the Turkish. It is reported here that a large body of Albanians, estimated at upward of 2,000, who had crossed the Greek frontier with the avowed intention of pushing on to Larissa, has recrossed, and is now ravaging Epirus. Arta is practically deserted.

While the incidents of the day alone have eastern portion of the frontier have been of notable importance, the situation at the Gulf of Arta and in the vicinity of the Albanian frontier have become more favorable for the Greeks. The bombardment of Prevesa was resumed at day break, with but feeble resistance from the Turkish batteries at Hamieh and Pantocratoros. The position of the Turks is untenable, and it is believed that the town will fall into the hands of the large Greek force in the vicinity, which is waiting for the demolition of the remaining batteries.

By an order received at Prevesa from Constantinople the Gulf of Arta was officially closed to all but Turkish ships.

Telegraphic Items.

The Senate has agreed to vote on the arbitration treaty on the 5th of May at 1 o'clock.

The Assembly at Albany, N. Y., has passed the bill to prevent the wearing of high hats in theatres.

At a cabinet meeting held in Paris it has been decided not to modify the policy of non-intervention in Greco-Turkish affairs recently adopted by France.

The man who committed suicide at Niagara recently by jumping into the river above the falls is believed to have been Ernest F. Markham, who was connected with the advertising department of the Boston Journal.

It has been suggested that President will probably be called upon to issue a proclamation of neutrality, now that war has begun between Turkey and Greece. The officials have looked into the precedent in cases and have concluded that the conditions at present do not require the issue of such a notice.

A demonstration has been held at Santa Clara, capital of the province of the same name in Cuba, to celebrate the pacification and to do honor to General Weyler. The mayor and aldermen presided over the demonstration. There was a large meeting of the inhabitants in front of General Weyler's residence. The latter, through his adjutant returned thanks for the ovation which he received, though deprecating such demonstration in his honor.

ROYAL BAKING POWDER CO., NEW YORK.

IN FEAR OF THE FLOOD.

A Fever of Excitement in New Orleans Great Height of the River. Levee Breaks Again.

NEW ORLEANS, La.—This city is in a fever of excitement, and although the authorities insist that the levee line is well protected and no danger exists, the people have held several mass-meetings and urged action, pledging all the money needed. This has induced the board to build the temporary levees two feet higher after having already provided for a temporary rise of two feet. A large force of men is at work night and day on the upper levees.

The Carrollton levee, about which most of the agitation is in progress, stands at the head of the finest residence avenue in the city, and as a spectator stands at the top he looks upon the roofs of mansions while almost wetting his feet in the nighty river that is now eager to break its bonds. One glance at the picture is sufficient to account for the anxiety which has led to such bitter attack upon the really good work of the levee board.

The first break on the Concordia parish front has occurred, the Glascock levee having given way. This levee is in Louisiana, twenty-eight miles below Natchez.

There was a large force of men at work in the levee Sunday morning, raising and strengthening it. They were working their way to the lower end, when sudden water began to bubble up at that end, and an instant later the water tore a great hole through it.

After the break started it was impossible to stop it and work on the embankment was abandoned. All stock and other valuable property had been previously removed from the neighborhood.

Three negroes in a skiff were caught floating along in the shadow of the levee and a fusillade was promptly. The boat was swiftly darted toward the opposite bank but not before one of the oarsmen was wounded.
