FILLING PRESCRIPTIONS is most important duty of a Pharmacist. A life often depends upon his skill and exactness, and the substitution of one drug or another is dangerous to life, disableness and a challenge to physician's intelligence, and justly entitled to his resentment. We give what is called for at fair prices. ABSOLUTELY PERFECT SERVICE. PUNCTUAL DELIVERY AND NO SUBSTITUTION. BENEVOLENT.

WASHINGTON NEWS.

Only Two Sessions But Committees Are Busy.

Democratic Officials Losing Their Places. Thurston on the Hawaii Question. Reason Why Congressmen Are Much Desired.

JOURNAL BUREAU,
WASHINGTON, D. C., April 30.

Congress has only held two "make believe" sessions this week, one yesterday and one Monday, but it must not be supposed that the week has been spent in idleness by those who did not go to New York to witness the dedication of the Grant monument. On the contrary, the week has been an unusually busy one with many members of the Senate.

The Republican members of the Finance committee have been finishing up the amendments to the tariff bill, which is to be considered for the first time by the full committee next Monday, and committees of all the parties have been engaged in trying to arrange a satisfactory assignment of Senators to the committee vacancies. This has been a difficult task, but it is now nearly completed and the vacancies will probably be filled next week. It is not likely that all the Senators will be satisfied with their assignments—they never are at any time—but they will be near enough satisfied to accept what is given them, because nothing would be accomplished by objecting.

The return of President McKinley to the White House was a signal for a fresh onslaught by the army of office-seekers, but that is becoming an old story now.

The Democratic chiefs of divisions in the departments are not finding the protection expected when their places were put under the civil service rules by President Cleveland. Every Democratic chief in the Pension Bureau has been asked to resign, and the same course, with possibly an exception here and there for personal reasons, is expected to be followed in all branches of the government service. The designation of a number of clerks in the Pension Bureau as "acting chiefs" is taken to mean that those positions will shortly be taken from under the civil service rules, and men outside of the service appointed to fill them.

Mr. Lorin A. Thurston, who was Hawaiian minister to the United States until virtually compelled to resign by Secretary Gresham and President Cleveland's treatment, and who is now in Washington as a special commissioner for the purpose of helping along the annexation idea, has presented a statement to the Senate committee on Finance showing why Hawaii doesn't approve of the proposition to provide for the abrogation of the reciprocity treaty, in the Dingley tariff bill. After enumerating reasons why the United States should not abrogate the treaty.

Mr. Thurston says: "If the treaty is abrogated, Hawaii will be free to make such arrangements with other countries as circumstances may require. Strong and steadfast as the American is in Hawaii, if the island products are barred out of the American market by a practically prohibitive duty, they will be compelled, in order to avoid ruin to their chief industry, to seek a market in Australia, Canada and England, and will be free to offer in compensation for special trade privileges accorded to Hawaii the rights and privileges heretofore accorded to the United States, and now exclusively held by it under the terms of the existing treaty."

Representative Hitt, of Illinois, has been telling some tales out of school which he thinks account for the enormous number of applications for consularships at the beginning of every new administration. He said: "It is the women you know how it is. Brown or Jones or Smith, when he has meant and leasur-likes to take his family abroad. When they come back his wife and daughters are filled with their experiences. The whole town is fired with emulation. Now, John Jones may not have the means to take his family to Europe, but he has influence in politics. When the political wheel turns and his party is up he looks around to see what the reward for his services shall be. Left to himself, he would probably be content with the post-office. But his wife and daughters have had to listen to what the Brown women or the Smith women say of life abroad, and, woman-like, they have listened with envy and a fixed purpose to some day enjoy the experiences for themselves. So, instead of letting John Jones ask for the post-office, they insist that he must be a consul somewhere. Their ideas may be a little indefinite about the nature and duties of a consul's office, but they know it means going abroad, and that is enough for them." Mr. Hitt ought to know, as in addition to his extended service in the House he has been Assistant Secretary of State and also abroad as a diplomat.

THAT EXTRA SESSION.

Governor Russell Thinks it Remote Possibility. Doing Business Illegally.

Special to Journal.
RALEIGH, N. C., April 30.—Governor Russell was this afternoon asked by your correspondent whether a special session of the Legislature will be called.

He replied "the possibility is very remote."

The Secretary of State, ascertains that the National Industrial Beneficial Endowment Co. of Virginia, is doing business in North Carolina illegally, and has notified the Solicitor General.

THE STATE CAPITAL.

Proceeds of the Opera. Officers on the Retired List. At the Penitentiary. Probable Result of City Elections.

JOURNAL BUREAU,
RALEIGH, N. C., April 30.

The Ladies Hospital Aid Association, under whose auspices the Norfolk Dramatic Company played, "Bonnie Princes" here last, should be very well pleased with the result—for the opera was performed as professionals would have done, and the large audience was delighted. It netted \$225.00.

Two of the State Guard officers, Col. F. A. Olds, and Lieut. J. F. Jordan have been placed in the retired officers' list at their own request. Their military record is fine.

Miss Edna Robeson who has been appointed stenographer of the Eastern Criminal Court. This district embraces 10 counties.

Four hundred copies of the 19th volume of the North Carolina Supreme court report were today received and will be immediately distributed.

In the penitentiary there are now 95 life prisoners—11 others are on the farm. The brick workers turn out from 17,000 to 20,000 per day. Forty rooms are being prepared for the criminal insane, and very shortly 20 will be put out there.

The Supreme court will adjourn for the term tomorrow.

There is much talk here as to the probable calling of an extra session of the Legislature. Some are urging Governor Russell to call it—the State officers oppose it.

Ex-Judge Spier Whitaker who had an attack of paralysis a few days ago is not so well.

There is little doubt but what the present mayor, Russ will carry the election by a big ticket on Tuesday next. There are many negroes who will vote for him.

ORDER RESTORED IN ATHENS.

Turkey May Want Indemnity. Political Agitation Subsiding.

LONDON—The European press is anticipating the terms of peace. It is assumed that Turkey will demand as the price of peace an indemnity for the cost of the war, taking the Greek navy in part payment. The recall of the Greek force from Crete will be insisted upon. M. Delyannis, the new prime-minister in an address issued yesterday afternoon, suggests that it would be expedient to abandon Crete in exchange for part of Macedonia—the part which the Berlin conference of 1881 proposed to give Greece.

The change of government seems to have quieted the disorderly element at Athens. There is new hope. Quiet will probably continue till events again disturb the popular equanimity. The agitation against the royal family seems to have subsided.

In Thessaly the Greek army at Pharsalia is strengthening its position against the approach of the Turks. A fight with the enemy is said to have occurred yesterday at Aivalide. The reported battle at Velesino turns out to have been merely a series of skirmishes. Volo is almost deserted in view of the approach of the enemy. Meanwhile, the Greek population is returning to Larissa on assurances from Edhem Pasha that they have nothing to fear.

Late News Items.

Col. Mosby has had a very quiet day. He is rather weak yet, but Dr. Nelson, his physician, says that everything indicates that he will soon be restored to his former vigor and activity.

According to advices by steamer the Japanese government is aroused over the refusal of the Hawaiian government to permit immigrants to land there, and has ordered warships to Honolulu to enforce what the Japanese immigrants consider their rights.

The scramble of Chinese to get into the United States under the pretense that they have been engaged to work at the Tennessee Centennial Exposition, which opens May 1st, is assuming a serious aspect and action has been taken by the Treasury Department to keep them out.

The Queen Regent of Spain has signed a decree providing for the application of the agreed-upon reforms for the Island of Cuba. Her Majesty's action was due to the receipt of a cable message from Captain-General Weyler announcing that the Western part of the island is completely pacified.

Greenville, S. C., is soon to have a \$300,000 electric street railway plant. The city council has passed an ordinance giving J. B. Lawrence and his associates the wealthy concern which has just completed an electric system in Charleston, a thirty-seven-year franchise, conditioned that they equip within twelve months a system of four miles in Greenville. If nothing prevents work will be begun about two months.
