## THE STATE CAPITAL.

## Four Million Dollars for Fertilizers Since December

Fewer Insurance License. The Way Appointments are Made. Russell Back from Wilmington. Governor to be Asked to Commute Bobo's Sentence.

JOURNAL BUREAU, RALEIGH, N. C., May 4. T. R Purnell will probably be conirmed Judge of the Eastern Court this week, but it will probably be too late for the term of court that should have begun in Wilmington yesterday.

So far only 101 insurance companies nave taken out their license to do business in the State this year. There have been about 115 doing business heretofore. The State Treasury shows that since the fiscal year began December 1st the tonnage tax is on 189,728 tons of fertilizers sold in this State for the last five months. This is more than the usual yearly sales,

at \$22.50 per ton, it will cost \$4,268,880. The executive committee of the Farmers Alliance meets on May 7th. A full statement of the financial condition of the Alliance, including information about the shoe factory and tannery will be sent to the subordinate and county alliances.

When the new penitentiary board met after the adjournment of the legislature. it was said that Mr. Vic. Dockery, son of Hon. O. H. Dockery, had been appointed steward. It now turns out that lovernor Russell opposed this appoint ment and has prevented Mr. Dockery from taking charge. It now comes to light that he has secured the place for James Mott, son of Dr. J. J. Mott.

Judge and Mrs. W. A. Montgomery, have issued 200 invitations to a reception o be given by them on May, compla mentary to Mrs. Governor Russell.

The last few showery days have given place to lovely May weather with a touch of coolness, which will soon give place to warmer weather, according to the lays predictions.

This year the North Carolina Press Association will meet in Morehea ! City. This summer resort seems to be catching all the large gatherings.

It is said that earthquakes were felt esterday afternoon at points West of ere, but all was quiet here.

The election yesterday testified in the ighest ways, the fact that the people were satisfied with the city administration of the past two years. Republicans tere say the Democratic victory can be secredited to Russellism. That Russell has done more to kill the Republican party than all other influences combined. It is said a delegation will come here and ask the Governor to commute the death sentence of Bobo, the negro who shot another at the New Berne Fair best spring. It is claimed that it was really

murder in the second degree. The R. R. commission has this year for the first time the making of tariff of street railways, and of rate making and assessment of telephones.

At a meeting of the City Council of Atlanta, Ga. an ordinance providing for the nurchase of the County Court House was passed. The purchase price was fixed at \$150,000.

The Dismal Swamp Canal will soon be opens for navigation of deep draught, essels. A cippel dredge forty feet wide is at work on the summit level of the canal, and two more dredges are under sideration, and will be put to work at once. No doubt now exists as to the mpletion of the canal.

Mr. John W. Starke, of Richmond Va., who has acquired considerable notoriety in connection with the Cuban cause, has been warned not enlist men for Greece. Mr. Starke received a letter from Assistant United States District Attorney B. Rand Wellford requesting him to call apon him with regard to this matter.

People in various parts of Virginia were startled by an earthquake shock which insted about thirty seconds. It began about 12.20 o'clock p. m. with a jarring sensation and a rumbling sound extending, apparently, from west to east and was followed immediately by the rattling of windows and shaking of crockery.

## GREECE TO FIGHT ON.

on the Volo Road, Greeks Holding their dwn at an Important Point A Big Fight Expected Today.

LONDON, -- The chief points of interest the situation are: First, that the lecision of the ministers who have re urned from the Greek frontier seems to se in favor of a continuance of war; and econd, that fighting continued almost inessantly at Velestino from last Tuesday intil Sunday, with the result that Generd Smolenski has been prevented from ctually assuming his new duties as chief of staff.

As a further result, the Greeks at Velstino have managed to retain their ositios, but they are too much fatigued follow up their success.

The Turkish army is advancing in three olumns on Pharsalia, while an addition al column is operating in the direction of Volo. As the Volo column could easily ake Velestino in the rear, the Greek po sition is very precarious. This probably explains the retention of General Smo lenski there, as it was natural to expec him to go Pharsalia to assume the supreme command. Everything points to in inevitable retreat by the Greeks on Domokos.

It is rumored that many officers have told the Crown Prince Constantine that the will return their swords unless they are led against the Turks. There is a strong feeling at Pharsalla that the troops must advance. The despair over the mistakes of the campaign has been olliterated by a desire to regain the esteem of Europe. Only 4,000 sordiere are actually posted at Pharsalia. The remainder are distributed in well-chosen positions Discipline is improving, though organization iss till somewhat defective.

## NEGROES AS POSTMASTERS.

dministration Has No Desire to Out rage the Sensibilities of White People in the South.

WASHINGTON, May 3.-Postmaster Jeneral Gary was asked today what the policy of the administration is to be with regard to the appointment of negroes as ostmasters in Southern States.

"It is a question that has not yet leer ousidered," he said, "and one which I cannot therefore discuss. It must be deermined, however, and until it is I can iot venture an opinion regarding it."

The appoint acut of a negro at Au gusta, Ga.; it is will, has convinced the Postmaster-General that further appointnents of a like character are apt to de nore harm than good. The question m arrasses the administration, inasnuch as it is un lerstood to be the desire of the President to recognize the negroe of the South in the distribution of offices out, at the same time, he has no wish to sutrage the sensibilities of the whites.

Southern republican leaders find them elves forced to urge the appointment of colored men, while the President realizes that a great deal is due them for the support they gave him in the convention at St. Louis. But, notwithstanding this t may be assumed that neither th President nor the Pestmaster-General wishes to appoint negro postmasters, and it is probable an effort will be made to obviate the difficulty by asking the local leaders not to urge them for such posi-

## Weekly Crop Bulletin.

The week ending Mon lay, May 3rd, was again generally favorable for farm work, but crops made comparatively slow growth on account of the drought which was, however, broken throughout the State by generous rains April 30th and on May 1st. In a few counties the rainfall was quite heav,, but averaged for the State about 1,50 inches. The week was fairly bright and warm until Sunday, when it turned cold. The cold weather following the rain will check growth a little, but the prospects are now decidedly better.

EASTERN DISTRICT.-Crops made slow growth this week-on account of the dry weather, but farm work progressed fav-orably, as grass is not yet troublesome. The early part of the week was cool in the Northeast portion, with light frosts, loing no damage, but over the greater portion of the district the weather was oright and warm. Sunday after the rain was very cool. The drought was broken by fine showers Friday and Saturday, which thoroughly soaked the ground, so that prospects for next week are much better. Cotton is pretty well all planted except in north portion, and a good stand is now insured. Corn about all planted and some being plowed; generally a poor stand reported; some damage by cutworms. Irish potatoes are coming out again. Gardens look better. Very large shipments of berries and truck took place this week. Transplanting tobacco pro gressing. Some water melons up and looking well.

CESTRAL DISTRICT .- A generally fair week; warm during the day up to Sun-day, but too cool at night for growth. Land dry and in had condition up to Priday. Very beneficial and much needed rains fell Friday and Saturday. Perhaps the bulk of the cotton crop has been planted and is coming up slowly; a good stand now assued. Some corn still to be planted; carly planted not a good stand and some is being plowed up and planted over, but late planted is coming up better. Some tobacco plants were set out and transplanting will be in full awing next week. Small grains, wheat, oats and sye, are heading and look well,

Becoming Valueless. HAVANA .- On Saturday last, the in surgents attacked the cultivation zone of Vueltas, Province of Santa Clara, and burned the [ward fof Santa Maria, fifty huts, a quantity of furniture and two thousand bales of tobacco, rendering our nundred families homeless. Tax military commander of the district has asked for assistance and the Ertremadura

battalion has been sent to reinforce him. La Lucha refers editorially to the serious character of the financial situation. This is aggravated, it says, by the instability of the government's resolutions as to bank bills and by the speculation in the war issues. At this rate, according to La Lucha, it will soon come to pass that no one will know the real value of a piece of paper currency, or how far to lepend upon it to procure the negga-ites of life, in spite of the government assoances that its issues are current and redeemable at full face value
