## TUBERCULOSIS FOUND.

At State Experiment Farm in Herd of Cattle.

Elopement of Married Woman. Application for Lease of State Swamp Lands made by F. S. Giles. New Berne Parties Favor It.

Special to Journal.

RALEIGH, N. C., May 11.—Tuberculosis is discovered in a herd of twenty cattle at the State Experiment farm.

Four of the cattle were killed after an examination by a Washington expert.

Mrs. George H. Glass, wife of the Manager of the Raleigh Telephone Exchange, has eloped with a young man named Hall, employed for two months by Glass.

Their whereabouts are unknown. She took her eight-year old son with her.

The State Board of Pharmacy is examining 22 applicants for licenses, as pharmacists.

Application was made today by F. S. Giles of New York for the lease of 239,000 acres of State swamp lands, for a term of six years.

Petitions signed by many New Bern people, for the lease, are filed.

## THE STATE CAPITAL.

Come From Baltimore to Meet his Colonel. Wake County Road State Items of Interest.

JOURNAL BUREAU.

RALEIGH, N. C., May 11.

Judge R. T. Bennett, the memorial orator yesterday was Colonel of the 14th North Carolina Volunteers, and he must have felt complimented at the number of his old command that came here from other places to hear him. One of his privates came from Baltimore just to hear and see his old Colonel.

At the annual meeting of the L. O. B. Branch Camp Confederate Veterans the roll call was answered by 193. The resolutions of the Daughters of the Confederacy regarding the history to be gotten on by the G. A. R. denouncing the Southern soldiers was read and approved. The will be presented at the reunion at Nashville and sent to every camp in the State. Delegates to the re-union were appointed as follows: Col. T. S. Kenan, Col. W. H. S. Burgwyn, A. B. Stronach, J. C. Birdsong, T. J. Edwards.

The Raleigh township roads are receiving prizes on all sides—at one time Mecklenburg county roads were claimed to be the finest in the State, but the county will have to look to her laurels for Wake county will soon pass her in good roads.

Grand Secretary B. H. Woodell, C. B. Edwards, J. N. McIlroy, C. F. Lumsden and W. P. Betts, have gone to Charlotte to attend the Grand Lodge of Odd Fellows.

It is said that Mr. A. Fairbrother will start another paper in Greensboro. Mr. Fairbrother, it will be remembered, has gotten into hot water in many places where he has tried to do journalistic work—and he was ordered by the court in Durham to edit no more papers in this State.

The State Normal and Industrial school commencement begins Saturday, May 15th, and closes Wednesday the 19th.

The papers here, are rather giving Bill Fife a poor write up. He has a keen eye for the dollar and watches the collection closely.

The Supreme court Library is closed this week so as to make some needed repairs.

Governor Russell has commuted the death sentence of Bobo, the negro who killed the man at the New Bern Fair, to life imprisonment.

Governor Russell is asked by the chairman of the home seekers association of Chicago to appoint 5 delegates to the annual convention in September to discuss the best methods of placing before the home seekers suitable localities. He is also asked to appoint a representative on the part of N. C., to furnish the international prison committee with information concerning North Carolina criminal laws and care of the criminal insane.

All the sewing machine companies doing business in this State last year have renewed license except the Domestic.

Hon. M. W. Ransom will deliver the annual address at Wake Forest College this year. There are forty in the graduating class.

## TO RELINQUISH CRETE.

A Reported Decision of the Greeks, which, if True, Will End the War.

ATHENS.—The conditions insisted upon by Germany, the chief of which is that Greece shall give her formal consent to the principle of autonomy for Crete, will be accepted by the Greek government.

The note of the powers has not been presented, but it has been drawn, and is to the following effect:

Upon a formal declaration by Greece that she will recall her troops and agree to such an autonomous regime for Crete as the powers in their wisdom shall deem best, and accept unreservedly the counsels of the powers, they will intervene in the interests of peace. The note will probably be presented after the German minister has received final instructions.

It is understood that Greece in her reply will assent to all these conditions.

The Greek fleet has left Volo, but the

French, Italian and British guardships remain. The town is quiet and has been occupied by the Turkish troops. A considerable number of the latter have taken up positions on the surrounding heights. The bulk of the Ottoman army, however, has been withdrawn and is marching in another direction.

Quantities of arms, ammunition and a number of ambulances were captured by the Turks at Volo.

All the heights commanding Pharsalia are now occupied by the Turks.

Ethem Pasha, the Turkish Commander, all his generals and a number of officers of lower rank have been decorated and many of the Turkish officers have been promoted.

## GOVERNMENT DECISION.

Text on Commutation of Bobo's Life. Imprisonment Instead of Hanging. Special Correspondence.

RALEIGH, N. C., May 10.—In the matter of Charles Bobo, convicted of murder in first degree, at the February term, 1897 of Craven criminal court, and sentenced to be hanged.

Commutation to imprisonment for life is strongly urged by the trial judge and by the Solicitor who prosecuted; by many leading lawyers, physicians and citizens of New Bern, and by the County officers of Craven county. It appears that the homicide was not premeditated, that there was a fight between the prisoner and the deceased after which the prisoner in the heat of blood, got a pistol, reloaded the fight in the course of which he threw his pistol and killed. The worst feature about it is that he fired at the deceased twice and fired in the midst of a crowd of bystanders. But all this was a passion and the entire affair occurred within a period of five minutes. Our law imposes capital punishment only for premeditated killing. It is to be presumed that the trial court would have vacated this verdict but for the consideration that it involved a delay and expense and inconvenience of a new trial, all of which could be avoided by an Executive commutation.

Let the sentence be commuted to imprisonment for life.

## WASHINGTON NEWS.

Death Will be Recorder of Deeds. Bell Telephone Suit. Cuban Resolutions.

WASHINGTON, D. C., May 10.—The selection of ex-Congressman Cheatham, of North Carolina, to be recorder of deeds, seems to have been decided upon, and, unless the opposition is unexpectedly strong, his nomination will go to the Senate in a few days. The President this morning informed several delegations which came to endorse the candidacy of local politicians that Mr. Cheatham would be appointed, and it was believed his nomination would be sent to the Senate before it adjourned, but later in the day several Senators protested against the nomination and asked that it be held up for a time. It was also intimated that there might be some doubt of confirmation if the appointment was made.

The local Republicans have contended that the office being a district one exclusively some Washington man should be selected, but the President regards it as a political office and points to precedent to strengthen his opinion that it should just as well go to an outsider. One of the first delegations at the White House today came in the interests of a local aspirant for the office and were informed that Mr. Cheatham had been promised the place. Not discouraged in the least, they continued to set forth the qualifications of their man for the office and insisted that he should be appointed. The President candidly informed them, however, that he had promised the place already and that Mr. Cheatham would, without much doubt, be designated.

The Bell Telephone company has won the case brought against it in the Supreme court by the United States to annul the last Berliner patent. This decision, which was rendered today, has the effect of continuing the control of the telephone by the Bell Company for seventeen years from the date of the last patent, which was granted in 1891.

The Morgan Cuban resolution was discussed at considerable length in the Senate. For the first time since the day's debate began, the opposition sentiment expressed itself. Mr. Hale (of Maine) and Mr. White (of California) spoke against the resolution, while Mr. Turpie (of Indiana) supported it.

## Weekly Crop Bulletin.

The week ending Monday, May 10th, was not favorable for the growth of crops. The weather was entirely too cool and windy. The temperature was below the normal, notwithstanding the bright sunshine which prevailed most of the week. The cool weather has retarded growth of crops and sprouting of seeds considerably. The week was quite dry, light showers occurring at scattered points only on May 5th in the central and western districts. Farm work has been brought up to date now about everywhere. The stands of corn and cotton are not generally good. Everything needs warmth and moisture.

EASTERN DISTRICT.—After the fine rains at the end of the preceding week cooler weather set in, with brisk northerly winds, unfavorable for the growth of crops. There was plenty of sunshine and the latter part of the week was warmer. Light showers occurred at two or three places Wednesday and Thursday. The week was fine for work. The weather has been too cool for cotton, causing it to come up slowly and look

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

poorly; some may have to be replanted. Chopping cotton has commenced. Corn is being plowed first time; stand not good; cut worms are doing some damage. Considerable tobacco was transplanted first of week and many peanuts planted. Potato bugs are damaging potatoes in some places. Rice is about all planted and is coming up finely. Wild berries will apparently be plentiful. Shipment of strawberries has commenced in northern portion of this district also.

CENTRAL DISTRICT.—Notwithstanding abundance of sunshine, the weather was very cool until Thursday, and though the soil was sufficiently moist at the beginning of the week, the brisk northerly winds dried it rapidly; rain is still needed. Showers occurred at some points on the 5th. The weather was fine for work, but the growth of crops has been very slow on account of the cold, light frost, even, being reported from northern points. Cotton is quite backward and growing slowly; some being chopped. Corn is still small, comparatively poor stand, and some being killed by cut worms. Cinch bugs have done little damage as yet to wheat, and rust is reported by very few correspondents. Transplanting tobacco continues. There is considerable falling off of fruit, but there will be more peaches, apples and plums than expected earlier.

## THE COTTON MARKETS.

May 11.

The cotton market was without special interest, ruling firm and higher. Auction opened at 7.38 and closed at 7.43. COTTON TRADING.
