## WASHINGTON NEWS.

### United States Likely to Act on Cuban Question.

#### Appropriation for Improvement of Pearl Harbor. Senator Kyle Denies any Deal with Republicans. A. P. A. in Session.

JOURNAL BUREAU, WASHINGTON, D. C., May 14.

Again Cuba! And this time business is meant, not more buncombe on the part of one branch of the government. The President and Congress will act together. Certain official communications from Consul General Lee have been received by Secretary Sherman and discussed by President McKinley and the members of the Senate Finance committee, which seem to make it incumbent upon this government to act, and it may do it, although President McKinley would have preferred to have had the tariff bill out of the way first. Whether the action will be confined to recognizing the belligerency of the Cubans in accordance with Senator Morgan's resolution, or will go further and recognize their independence, is still a question. Mr. Calhoun's report will probably settle it. Arrangements are being made for a mass meeting of Cuban sympathizers in Washington, Sunday.

It is not certain that the amended tariff bill will be taken up on the 15th, although Senator Aldrich says he will call it up then in accordance with the original programme. There has been a delay in furnishing Senators with a comparative statement concerning the numerous amendments and that is likely to delay the taking up of the bill. The sugar schedule of the bill, is dead, a majority of Senators having declared against it. Many other changes will be made in the bill before it get through the Senate, not to mention the slashing when the bill goes to the conference committee.

An interesting debate in which political lines were ignored preceded the refusal of the House by a vote of 83 to 53 to concur in the Senate amendment to the Sundry Civil bill appropriating \$50,000 for the improvement of the entrance to Pearl Harbor, Hawaiian Islands Representative Hitt, of Ill., who will be chairman of the House committee on Foreign Affairs, made an impassioned appeal to the House to agree to the amendment, because of the necessity of the establishment of a naval station and of the danger that England or Japan would profit by our neglect. Representative Cannon, of the same State, who who will be chairman of the committee on Appropriations, pooh-poohed the suggestion of danger and said it was nonsense to make an appropriation that would not dredge the sand out of the harbor, and added significantly: "We hold Pearl Harbor because it is ours, because we have the right and power, and we hold the Sandwich Islands in the same way as far as the protection of Pearl Harbor and of our navy and our flag are concerned." Representative Amos Cummings, of New York, democrat, spoke for the appropriation, and said: "I have faith enough in the patriotism of President McKinley to believe that before he leaves the White House the Hawaiian Islands will be an integral part of this republic." Representative Hilborn, of California, opposed the appropriation, and Simpson, of Kansas, advocated it. Representative Henry, of Conn., closed his remarks by saying: "I am ready to announce myself in favor of the appropriation and as in favor of the annexation of the Hawaiian Islands." Representative Walker, of Mass., proposed an investigation to find out how much would be needed, and Representative Bayers, of Texas, closed his remarks against the appropriation by saying: "Next to a conflict with my own brethren, I would deplore a war with England, not alone because she is our mother country, but because she speaks the same language. I don't believe England wants a war with us any more than we want a war with her."

Senator Kyle made a personal explanation this week in which he denied having made any deal with republican Senators to secure committee assignments, and said that he believed the proper policy of the people to be to give the control and responsibility in the Senate to the Republicans who were in control of the other branches of the government.

The annual meeting of the Supreme Council of the A. P. A. is now in session in Washington. As usual the sessions of the council are secret, and the proceedings do not leak out as quick as those of an executive session of the U. S. Senate. It is stated that the number of new branches organized during the past year is 819, and that the membership of most of the old branches continue to increase. Representative Richardson, of Tex., will get well paid for the time he has spent in compiling the "Messages and Papers of the President." If nothing happens to the amendment to the Sundry Civil bill that gives him a duplicate set of the Messages and Papers of the President, the right to print and sell the books must be assigned to him, already for in his favor of the number of copies authorized to be printed by Congress, and as the amendment has already been agreed to by both House and Senate there is little danger of anything happening to it.

get for his work will be, may be judged from the offer of a publishing firm to give \$10,000 for the plates and right to print and sell the book. Mr. Richardson says what he has done and is having done in connection with the book could not be duplicated for much more than \$10,000. Be that as it may, his friends think he has a "snag."

## THE STATE CAPITAL.

#### Various Sessions of Different Organizations. A. & M. College Student Dead. Teachers Assembly.

JOURNAL BUREAU, RALEIGH, N. C., May 14.

Today the second annual convention of the Brotherhood of St. Andrew met in Christ Church in this city. The convention includes this State and part of South Carolina. The Daughters of the King also met today.

The sessions of the Episcopal convention are well attended. Last night the question of St. Mary's school was before the convention. The motion for the diocese to purchase the property was argued both ways and it was finally decided to buy. The question as to women voting church questions was referred to a committee.

Both the Masons and Odd Fellows chose Raleigh as the place for holding the meeting of the Grand Lodge next year. Raleigh seems to be quite a favorite city for conventions.

Next week the street car company will put five handsome new summer cars on the track here. All the summer cars were burned last winter, and only a few closed cars have been in use since the system has been resumed.

The fire, accident, guarantee and marine insurance business done in this State during the year 1896, as shown by the Secretary of State's report is as follows: Risks written aggregated \$3,947,819; premiums, \$894,549; losses, \$439,335.

Mr. Burns the new Keeper of the Capital has advertised for bids to paint the roof of the Capital and Supreme court buildings.

There have been no further developments in the elopement case of Mrs. Glass with Mr. Hart, of Richmond.

Old Mr. Albert Johnson, the oldest living locomotive engineer was today appointed State Standard Keeper. He succeeds Mr. J. C. S. Lumsden whose term has expired.

C. J. Harris, one of the students at the A. & M. College died there this morning of dysentery. He was carried to his home at Mebane.

The prospects for a big attendance at the Teachers Assembly is fine. The summer schools at some of the colleges will be postponed so as not to conflict with the assembly, this will of course swell the number.

## Winter in Europe.

LONDON—Heavy snow falls and severe frosts continue in all parts of Austria and Hungary. There have been avalanches in the Austrian Tyrol and the Soazkammergut. In some parts of Styria and in Silesia and Teschen the people are starving. Great damage has been done everywhere to crops, vines and fruits. The branches are breaking with the weight of the snow, which is three feet deep on the mountains of Carinthia. Telegraphic and telephonic communication is interrupted. Sheep and game are perishing, and there have been earth shocks near Graz, Fiume and elsewhere. A large quantity of snow has fallen in the Italian province of Udine.

PARIS—A dispatch from Auxerre the centre of the wine-growing district of the department of Yonne, says there was a general and sudden frost destroying the crops of vines, fruit and vegetables. The amount of damage done in the department of Yonne is estimated at 20,000,000 francs, (\$4,000,000). The inhabitants are in consternation.

## DID NOT SAIL.

#### Suspects Arrested as They were About to Sail.

PHILADELPHIA—Captain John D. Hart who was recently convicted of having violated the neutrality laws of the United States by aiding and abetting filibustering expeditions to Cuba, was arrested by a Pinkerton detective as he was about to embark for Jamaica on the British steamship Elbehead with a number of other Cuban sympathizers.

William Weiner, who was one of Captain Hart's sureties pending a review of his case by the United States Court of Appeals, fearing that Hart was about to flee from the United States, caused a bailpiece to be issued for his arrest, and had him taken before Judge Dallas in order that he might be released from further responsibility for Hart's appearance. Efforts were made by Hart's counsel to convince Judge Dallas that one of a number of bondsmen could not come into court and surrender the prisoner without the consent of the remaining bondsmen.

Judge Dallas did not think the point well taken, but finally concluded to hear the case on Friday next with Judge Hart sitting with him.

Hart left the court room in charge of the detective until Friday. The other bondsmen, John Bailey, Charles Linton, and William Neely, have been notified to be present at the hearing on Friday. Hart is under \$20,000 bail, and Mr. Weiner is responsible for \$7500.

Mr. Rubens, the attorney for the Cuban cause, and a number of men said to be connected with the insurgent army, were among the party which engaged passage on the steamer.

**ROYAL BAKING POWDER**  
Absolutely Pure

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

## STATE CROP REPORT.

#### Says Cotton Average 102. Corn 101. Compared With Last Year. Episcopal Convention Decides Against Women Voting.

Special to Journal.

The State Crop report shows the cotton acreage as compared with last year 103 per cent, and corn 101.

The Episcopal Convention decides not to allow women to vote on parochial matters.

The clerical vote was 9 for, and 17 against, while the lay vote was a tie.

## GREGO-TURKISH WAR.

#### Hostilities Continue. Turkish Military Preparations on Large Scale.

LONDON—The correspondent of the Standard at Constantinople says: "Edem Pasha has wired to the Porte that he is quite certain of being able to capture Domokos and the Greek army as well; and in response pressing orders have been sent to the Turkish staff to go ahead with the greatest energy regardless of diplomacy."

"General military preparations continue here on the largest scale."

The situation at the scene of hostilities appears to be Turkey is determined to occupy Domokos before consenting to an armistice, and Greece is convinced of the impossibility of holding out against the serious attack which Edem Pasha is preparing to deliver. It has been decided to evacuate Domokos, and to fall back upon the old frontier. This plan will probably be carried out, if it has not already been accomplished and the way will be opened for peace negotiations.

The Powers are in no mood to yield over much to the demands of Turkey. The war has quite an unexpected effect in revealing an amazing military vitality in the Sultan's dominions, which is in no way to the humor of Russia or the other Powers.

Hence the Sultan will be reminded that it was his original misgovernment which led to the war; that only the influence of Europe has prevented a general blaze in the Balkans, and that it is therefore advisable for him to accept reasonable terms.

## CRISIS IN CUBAN AFFAIRS.

WASHINGTON, D. C.—There was a sad and violent outbreak of the Cuban sentiment at the capital, and the drift of opinion was strongly toward speedy and radical action by both Congress and the Executive, but there was somewhat of a reaction upon its becoming known that the President, while keenly alive to the situation and anxious to learn everything possible that could guide his conduct of our Cuban and Spanish relations, felt that further information was necessary and the immediate question was not the recognition of the belligerency of the Cubans, but the protection of American citizens.

The Senate Foreign Relations Committee, it should be stated, while agreeing with the necessity for the relief of the suffering Americans, is favorable to more radical measures and a number of its members are earnestly desirous of instant action of the Executive in favor of the insurgents, but have not succeeded in converting the administration to its views that immediate action is appropriate and imperative.

## THE COTTON MARKETS.

May 11.  
COTTON continues dull with small changes. It opened at 7.34 and closed at 7.38 1/2 August in New York today. Yours truly, J. E. LATHAM.
