Extraordinary power has been delegated to former Secretary of State John W. Foster, who left Washington for New York on his way to Europe, where he goes on an important mission for the United States. Mr. Foster has practically permanent authority to negotiate and sign treaties with Russia, Japan and the United States for the better protection of the mails, and if he can carry out his mission successfully there may be a general reopening of the question, with Russia, Japan and this country arrayed against Great Britain.

THE WAR AT AN END.

Russia Intervenes and Forces Turkey to Suspend Hostilities. Peace Negotiations in Progress.

CONSTANTINOPLE.—There has been a sudden and unexpected change in the political situation. Russia quietly showed her hand and thereby forced Germany and Turkey out of the game, to all intents and purposes.

Turkey, supported by Germany, was practically defying Russia, France, Austria, Great Britain, and Italy insisting upon the annexation of Thessaly in addition to a huge war indemnity and seemingly was determined to march upon Athens.

The ministers received official advice from Sofia announcing that orders had been issued for the partial mobilization of the Bulgarian army, possibly at the instigation of Russia. There was a hurried consultation of the Ministers.

The war party was for further defiance, but in the end pacific counsels seem to have prevailed, for orders were telegraphed to Edhem Pasha, the Turkish commander-in-chief, in Thessaly to cease hostilities.

The peace negotiations will now be undertaken in real earnest and the Greeks will no doubt be spared any further humiliation.

It transpires that the Czar made a direct appeal to the Sultan to order his troops to cease hostilities and arrange an armistice, and this, coupled with the fact that the most serious results would have ensued in Turkey had persisted in her defiant attitude, brought about the present state of affairs.

It is now believed that the terms of peace will be negotiated directly between Turkey and Greece.

CUBAN BELLIGERENCY.

Senators Plead for Immediate Recognition of Cuba.

'If It Means War, Let It Come.' Said the Illinois Senator. Wellington of Maryland in Opposition.

WASHINGTON, May 18.—Cuba again occupied the foreground in the Senate today. It drew large crowds to the galleries and there were two notable speeches by Mr. Mason, of Illinois, in favor of the Morgan resolution, and Mr. Hoar, of Massachusetts, in opposition to it.

The Illinois Senator pictured in fervent terms the distress in Cuba, dwelling particularly on the starving condition of 100 United States citizens, as reported by the President and called upon the Senate to throw off its lethargy and pass the Morgan resolution. Mr. Mason had several sharp tiffs with Mr. Wellington of Maryland, the latter protesting that he was being misrepresented. It led to considerable commotion in the galleries. Juring which Mr. Wellington declared that he could not be choked off by the rudeness of the galleries.

Mr. Hoar spoke in his usual calm and dignified style and took occasion to decide unbecomingly to constituents and bragadoles as to our national strength.

Mr. Hoar's criticisms, although impersonal, were clearly aimed at Mr. Mason. Senators Gallinger, (N. H.) and Hawley, (Conn.) also spoke, the former for the resolution, and the latter urging that the United States not rush into war while our coast lines are manifestly in a defenseless condition.

There has been more criticism of Senator Wellington's speech than that of any other new member who has spoken at this session, but by conservative men it is conceded that his position is the proper one. The Senator maintaining that neither Mr. Cleveland nor Mr. McKinley says found enough in the reports that have reached the State Department during the last two years to justify the step which the friends of the resolution advocate, there must be something wrong with the statements which some Senators accept with ready credulity. The Senator has not changed his views, as he was opposed to any action regarding Cuba while a member of the House, and has been consistent throughout.

Even if the resolution passes both houses, it is probable the President will pay no attention to it until he receives a report from Mr. Calhoun, who is now in Cuba. The friends of the administration do not want Mr. McKinley placed in this position, and it is likely some of the Republicans who are advocating the passage of the resolution will also conclude it may be wiser to await the result of the investigation which the President is now making.

The belief is general that a majority in both houses favor the resolution, and interest in the development of the next few days is absorbing. A spirited fight in the House on Thursday is anticipated, and the Republican leaders have requested all Republican members to be present. They hope to control them in opposition to any action respecting Cuba, except upon the proposition to afford relief in supplying Army food, but the Democratic President there will be a considerable Republican defection if a roll-call is ordered.

Conservative members here, likewise on Tuesday, New York, Boston or other cities.

A Good Crop Anticipated.

The New Orleans Ploeyne regards the worst of the flood in the Mississippi Valley as over, and takes a hopeful view of the outlook. It says: "All the crop indications are favorable. Even in the portions of the Mississippi Valley which have been under water there is now a prospect that the water will recede rapidly enough to permit of a crop being planted. Elsewhere in the valley cotton, though slightly late, is doing well, with every indication of an increased acreage. In the territory immediately tributary to New Orleans the crops all promise very well.

The sugar-cane prospect never was better, as there is not only a larger acreage under cultivation than last year, but the cane is making excellent progress. Rice is also doing well, with a large acreage planted in the river section, which always furnishes the most reliable crop.

The first horses which ever left the Cumberland Valley, Va., for England were shipped to George A. Esnor, London. The two carloads were made up of heavy draught horses, intended for use in the streets of London, and were offered on a special trial to see if American horses would stand London street work. The horse dealers of the Cumberland Valley await with interest the result of his experiment.
