THE STATE CAPITAL.

Cotton Growers Convention to be Held at Galveston.

To Protect the Price of the Staple. Sheriffs Convention at Morehead City. The Exposition at Charlotte. Soldiers Graves.

JOURNAL BUREAU, Raleigh, N. C., May 22.

Gov. Russell today received a letter from Gov. Culberson of Texas, enclosing a copy of a resolution adopted by the Texas legislature empowering him to call a Cotton Growers' Convention at Galveston August 2. He has issued a proclamation and asks the Governors of each of the cotton-growing States to appoint delegates at large and one for each congressional district. He asks that in view of the great importance of the convention the selection be of gentlemen who are to attend. Aside from the vast interest involved and the benefits occurring from the gathering, Gov. Culberson says delegates may be assured that they will be heartily welcomed and cordially entertained during their stay in Galveston—a city noted for its hospitality.

The resolution is a stirring one. It says over 65 per cent. of the world's cotton is grown in the South; that the industry is being depressed by speculators who control the product in their own interest by offering for sale fictitious cotton called futures at prices uniformly less than the current spot cotton market; cotton which they do not intend and are not compelled to deliver; they force the mill men to withdraw from the market and then draw away with competition, leaving cotton at the mercy of dictatorial prices. Raw cotton which should sell for not less than 50 per cent. of the price of the manufactured article is sold at 400 to 1,400 per cent more. There is no over production. The purpose of the committee is to devise and regulate concurrent legislation in the cotton-growing States, to relieve cotton from speculation and gambling in futures and to suppress unwholesome interference with the cotton trade.

The State Treasurer says the State convention of sheriffs will be held at the Atlantic hotel, Morehead City, about August.

At the State Museum there were received today from Beaufort fine specimens of the hammer-headed shark, bonnet-headed shark, several species of sting rays, the butterfly ray &c.

Dr. J. L. M. Curry evidently has a very poor opinion of the negro State normal schools. He says they belie their name.

Some of the Republicans seek in various ways to make it appear that the penitentiary was not self-supporting last year, but they cannot disprove the fact. Governor Russell expects to go to the Tennessee Exposition June 1st. In that case he will not attend the State University commencement.

The Women's Exposition of the Carolinas at Charlotte now in progress, is certainly in all respects admirable. Really it is the work mainly of the women of Charlotte. No other place in the State could have equaled it. It has the merit and the dimensions of a State exposition.

Tomorrow the Reade memorial chapel at the Confederate soldier's home here will be dedicated.

The dispensaries at Rutherfordton and Louisburg go into effect week after next. The white marble grave stones to be placed at the graves of the North Carolina soldiers at Winchester, Va. are being set and lettered here. They are nearly completed.

THE COTTON MARKETS.

May 22. The news from Liverpool advices were slightly better than expected although the spot sales were very small. An hour opened in New York at 7.17 and closed 7.16.

Yours truly,
J. E. LATRAM.

New York, May 21, 1897.

With the exception of one day this week, every day has recorded a decline the direct cause of the decline was the sales by disappointed holders of contracts. Purchases were made early in the month, on the assumption that Manchester business was good and that spinners, both in this country and abroad needed to buy liberally to carry their order to the new season. These promises may or may not have been correct, but certainly the evidence, presented during the past week or ten days, has been quite to the contrary. When we consider the limited character of the speculative demand, the importance of the regular trade support cannot be over estimated. It was the partial withdrawal of this support which weakened the market, and the selling out by those holders disappointed by the trade reaction together with those whose margins were exhausted, has resulted in present decline, which represents a loss of all the advance made since a month ago. The low range of values reached today should place the York stock within the reach of spinners everywhere. The hope of any improvement lies nearly altogether in this direction. Crop accounts are generally considered favorable.

Yours truly,
ROBERT ROBERTS & Co.

TO FREE CUBA.

The House Willing to Endorse the Belligerency Resolution.

Time for this Country to Act. Quarrel in Madrid. A Dispute About Cuba. The Trouble Arose Over the Belligerency Resolution at Washington.

WASHINGTON, D. C., May 21.—Pressure will be brought to bear upon Speaker Reed next Monday to allow the Senate resolution declaring the belligerency of the Cuban insurgents, consideration by the House, but there seems to be little probability that the Speaker will yield, at least for the present.

The prevalent belief among Democrats that a number of Republicans would vote for the resolution, if given an opportunity, seems to be not without sufficient foundation.

The Republicans do favor the action taken yesterday by the Senate, and are anxious to put themselves upon record as supporting a similar proposition. Representative Dalzell, who aided the Speaker yesterday in preventing a vote upon Mr. Bailey's resolution has declared that he is tired of the timid policy pursued by the House members. He says the party should either take a decisive stand in favor of Cuban independence, or vote down the resolution, and proclaim its determination to take no action.

There can be no question that in the opinion of a majority of both houses of Congress, the time has passed when any excuses can be offered for further delay in determining just what the policy of the United States is to be.

They are finally convinced that all that can be or need be learned, is already known. The reports of General Lee to the State Department are complete and accurate. Men who have travelled from one end of Cuba to the other, cluding the vigilance of the Spaniards have presented their sworn statements to members of the Senate Committee on Foreign Relations.

MADRID, May 21.—In the Spanish Senate today there was a heated and tumultuous debate regarding the resolution passed by the United States Senate yesterday to recognize the Cuban belligerents. The debate here was followed by an excited discussion in the lobbies. This led to a dispute between the Duke of Tetuan, the minister for foreign affairs, and Senator Conas, a liberal, which ended in the Duke boxing the Senator's ears. A great commotion ensued and the sitting of the Senate was suspended. The Duke of Tetuan and Senator Conas have selected seconds as a preliminary to a duel. The seconds decided that as the aggressions were reciprocal, a duel is not necessary.

The Duke of Tetuan resigned as a result of the incident. Senator Conas, the premier, said the government could only attach credit to such information as was sent by Captain General Weyler. He severely blamed the American newspapers for disseminating false news, and cited as a case in point recent statements attributed to Consul-General Lee.

GEN. MILES ARRIVED.

He has an Audience, With the Sultan.

CONSTANTINOPLE.—United States Minister Terrell, escorted Major General Nelson A. Miles, of the United States Army who was accompanied by his aide de camp, Captain Gannan and two secretaries of the embassy, to the ceremony of the Salimk today, after which General Miles received by the Sultan who gave him a special audience. General Miles will start for Thessaly in a day or so. Captain Sriben, a United States Military attaché at Rome, has been nominated military attaché at the American embassy at Constantinople.

The Ambassadors are still waiting instructions from their respective governments as to the capacity in which they are to act when presenting the note which is understood will be presented, whether as advisors or as negotiators. It is understood the Powers will consent to the demand of the Turkish government that the gulf of Volo and Arta be opened for the revictualing of the Turkish troops and that the peace negotiations will be conducted here.

Wonderful are the cures by Hood's Sarsaparilla, and yet they are simple and natural. Hood's Sarsaparilla makes PURE BLOOD.
