## CHIEFLY OF RALEIGH.

Items of Interest From State Capital.

**A Fine Bicycle Run. Electric Cars Once More. State Bank Statements. Special Court Terms.**

**JOURNAL BUREAU.**  
RALEIGH, N. C., May 26.  
Governor Russell has decided to leave on Sunday for Nashville so as to be there on Governor's Day. Mrs. Russell and a party of ladies and 12 of the Governor's staff will be in the party. They will spend two days in Nashville.

Mr. Willis Briggs, the local editor of the "busted" Tribune will do special work in the interest of the State Fair. An expert printer has looked into the property of the Tribune and says that \$1,000 will more than cover the unencumbered property of the paper. Judgments for \$680 more were taken out yesterday.

The Y. M. C. A. wheel club made its first run of the season yesterday. A banner was carried by the club and they made a long and pleasant run.

Two of the new electric cars arrived yesterday and men will be here before Sunday when they will be put on the track. On that day all the employees will don handsome grey uniforms.

The racing at the State Fair will be very fine this year. The Fair date has been so arranged that it is right in line with the grand circuit of Maryland, Virginia and South Carolina, and the purses are so much bigger accounts for the outlook for the racing.

Governor Russell has decided that unless the oyster patrol steamer Lily is in actual demand for patrol use, it can be used by the naval reserves at Wilmington thus saving the State much expense of keeping it. She was built for a rich gentleman north as a pleasure boat.

Some of the State banks are making returns to the State Treasury and are giving the par instead of the actual value of their shares.

Governor Russell orders a special term of Transylvania Court June 28, Judge Norwood to preside, and also one of Buncombe July 12, Judge Timberlake to preside. Both are for civil cases.

State Auditor Ayer says that although the Supreme court delayed its decision in the property and poll tax matter the blanks will get to the registrars and tax collectors in ample time. The poll and property tax is the same as in 1895.

**CUBAN AFFAIRS.**  
High Tension in Madrid. Crowds to see Gen. Lee. They heard that he had money to give to the poor.

MADRID—Extreme tension continues between the political parties.  
The Herald, defending Senor Sagasta against the insinuations made by the conservatives, frankly exposes the deplorable military situation in Cuba. The Herald says the whole district of Ganaguey is in the power of the rebels; that there is only one Spanish column to operate over 82,000 square miles and that in the whole of the eastern regions in Cuba the Spanish troops have never yet set foot. It calls the alleged pacification of Cuba a comedy.

The same paper further insinuates that messages purporting to be from Senor Dupuy de Lome protesting against Senor Sagasta's speeches because of the effect produced in the United States, were written by conservatives in Madrid.

Premier Canovas' attitude has been as was predicted. His words in Parliament regarding the supreme necessities of the fatherland were: "I shall govern the country as it has been governed before, and as I myself governed it before, without the aid of minorities."

Mr. Calvo's attitude in regard to the Ruiz investigation is causing uneasiness and resentment here.

HAVANA—A rumor was circulated in Guanabacoa, near this city, that General Fitzhugh Lee, the United States consul-general, was going to distribute money to the poor. In consequence about six hundred persons gathered together in anticipation of receiving relief. They were advised by the police that there was no truth in the rumor and were ordered to disperse, it being unlawful for people to assemble in large numbers in a public place during a state of war. The crowds however, refused to obey and the police were compelled to disperse them by force, using the flats of their swords upon the most disorderly.

Captain-General Weyler camped last night on the banks of the river Tunoa and arrived at Sanil Spiritus, Province of Santa Clara.

**Congressmen Leave for Nashville.**  
WASHINGTON.—More than fifty members of the House of Representatives, many of them accompanied by their wives and other members of their families, left Tuesday in a special train over the Southern Railway for Nashville, Tenn. to visit the Centennial Exposition.

**THE COTTON MARKETS.**

July Rice, 4 3/4 4 3/4

**MOORE'S** Sarsaparilla has over and over again proved by its cures, when all other preparations failed, that it is the One True BLOOD Purifier.

## TRIAL OF HAVEMEYER

Sugar Magnate Before a Jury to Answer Charges of Contempt.

WASHINGTON.—The trial of H. O. Havemeyer, president of the American Sugar Refining Company, for refusing to answer a question propounded by the Senate Sugar Investigating Committee in the spring of 1894, has begun before Judge Bradley. No trouble was experienced in securing a jury, only three peremptory challenges being made by the defence, and none by the prosecution. District Attorney Davis conducted the case for the Government, and Nathaniel Wilson, John G. Johnson, of Philadelphia, and John E. Parsons, of New York, appeared for the defence.

Elverton R. Chapman, the New York sugar broker, who is serving a thirty days' sentence in the District jail for the offence for which Havemeyer is being tried, was present as a witness, but did not testify. The witnesses were the file clerk of the Senate, the committee's stenographers, and Senators Gray, Lodge, Davis, and Lindsay, who were on the Investigating Committee. The line of defence, as disclosed is that the question asked, which looked to the production of data as to the political contributions of the sugar company, to State and local elections, was not pertinent to the inquiry.

This was shown by the repeated development of the fact that Mr. Havemeyer answered the question as to the national campaign, and as to the election of United States senators before the Legislature. This line of defence was anticipated somewhat by the District Attorney. Considerable stress was also placed on the attempt of the defence to show that Senator Allen's question (which Mr. Havemeyer declined to answer) was an individual and not a committee question, but the testimony went to prove the query was propounded by the direction of the committee.

**Late News Items.**  
It is officially announced that the wheat area of France is 593,908 hectares (a hectare is 2.47 acres) below the area of 1896 and that the wheat crop will probably be 23,250,000 hectolitres (a hectolitre, dry measure, is 2.75 bushels) less than in 1896.

A special dispatch from Cape Town says the natives of Portuguese East Africa are defeating the Portuguese troops in various directions and that the Governor of Delagoa has urgently requested the government at Lisbon to send him reinforcements.

During a display of fireworks at Nantes four persons were killed and a score of people were injured by the explosion of a bomb.

An engine on the Jamaica Railroad ran into a trolley car in a tunnel killing three persons and injuring four others.

The Observatore Romano announces that Emperor Nicholas has made special provision for the freedom of Roman Catholics in Russia.

The strike of the garment-workers in Philadelphia, was practically ended in favor of the strikers. The contractors signed bonds that they would faithfully observe for one year the agreement for the advances demanded.

Albert M. King, the Boylston National Bank messenger, who disappeared last week with \$10,400 of the bank's money, and who was arrested at Farmington, Me., last Saturday, was arraigned in the municipal court here. He pleaded "not guilty."

**The Alaskan Boundary Treaty.**  
WASHINGTON.—The sub-committee of the Senate Committee on Foreign Relations which has been investigating, in connection with the Alaskan boundary treaty, the question raised at the last meeting of the full committee as to the effect of accepting Mount St. Elias as a part of the boundary marked by the 141st meridian has practically completed its work and the committee is of the opinion, after the inquiry, that the provision in regard to Mount St. Elias is not a serious matter but as a precautionary measure they will recommend that the treaty be amended so as to declare specifically that the acceptance of the peak as a boundary mark in determining the 141st meridian shall not be construed as a concession of any territory which the United States may claim under its purchase from Russia along the sea coast. It is believed that this amendment will have the effect of preserving all the sights of this country and at the same time retaining the mountain as a landmark, which is very desirable.

**Florida's Oyster Industry.**  
A bill is before the Florida Legislature for the oyster industry of that State. The proposition is this: For the State authorities to assume actual control of the public waters containing oyster beds, or capable of sustaining beds created by planting, and lease out the territory to such persons as may offer the largest revenue to the State for the exclusive control of such territory for a definite term for the purpose of propagating and gathering the oysters. Details boundaries, confining each lessee to his own beds, would secure his rights as against others and encourage him to increase and develop the industry.

**THE MARKETS.**  
Chicago, May 26.  
CLOSING. Close.  
July Wheat, 70 1/2 69 1/2  
July Rice, 4 3/4 4 3/4

**MOORE'S** Sarsaparilla has over and over again proved by its cures, when all other preparations failed, that it is the One True BLOOD Purifier.

**T. J. TURNER,**  
NEW BERNE, N. C.

**Best Spring Remedy.**

**PAINE'S CELERY COMPOUND.**  
There is one true specific for diseases arising from impure blood and a debilitated nervous system, and that is Paine's Celery Compound, so generally prescribed by physicians. It is probably the most remarkable remedy that scientific research of this country has produced. Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college, first prescribed what is now known as the world over as Paine's Celery Compound, a positive cure for dyspepsia, biliousness, liver complaint, neuralgia, rheumatism, all nervous diseases and kidney troubles. For the latter Paine's Celery Compound has succeeded again and again where every other has failed.

Those Small Pig Hams Have Come.

And they are Dandy Little Feasts. Call and get one before they are all sold, Only 12c pound.

Fresh Loose Oat Flakes, Grits, Carolina Rice, Lima Beans and White Beans Just Received.
