Cheat yourself by  
staying away but  
Lay in a Supply.

## MAKES GREAT CHARGES.

Russell Attacks the Agricultural College with Vigor.

State Chemist Battle Put Out, Charges Against Carroll Explained. Names of Members of the College Executive Committee.

**JOURNAL BUREAU,**  
RALEIGH, N. C., June 11. }  
The board of trustees of the Agricultural and Mechanical College and experiment station, backed by the governor, has finished its work, and dropped good men to put in office men who are seeking pie. The State should be congratulated that it has left the President of the College, Col. Holladay—and part of the faculty. Dr. Battle, State chemist is ousted. His successor is not yet appointed, but his duties will be attended to by Prof. W. A. Withers. Professor of chemistry at the College, until an appointment is made. Governor Russell declared he would get control of the College if it required the calling of an extra session of the legislature.

Raleigh and Henderson will cross bats on the 14th at Athletic Park here. Marshall Carroll will hold his office his full term which is until February. The charges against him are all explained. The new board of trustees of the A. & M. has five Democratic members. In filling the position of Dr. Battle they will have to go out of the State. There was a spite against him is why he was displaced. The new executive committee of the college is J. C. L. Harris, A. L. Holladay, E. V. Cox, J. H. Waller and J. R. Chamberlain. The experiment station ranks first in the South. One of the Democrats withdrew declining to act with the board. The majority of the board really wanted to oust the entire faculty at the college but they did not.

## MARVELOUS SPEED.

Torpedo Boat Made a Mile in Two Minutes Without an Error.

New York.—The United States torpedo boat, Porter, on Sunday made the marvellous record of a mile in less than two minutes, with scarcely an effort. She made the circuit of Long Island in faster time than it has ever been made before, and successfully passed the most severe test that ever has been given a boat in her class.

The vessel was put under all conditions of huller power and run at various speeds, but was not let out any time, the highest speed for any hour being twenty-seven knots.

The Porter cut through the white caps like a knife and despite her high speed, scarcely any water was taken on deck.

The board will try torpedoes and test the vessel's manoeuvring qualities.

## Latest News Items.

Henry G. Bryant has arrived at Yachutat, at the base of Mount St. Elias, with a party of five who will scale the mountain.

Dispatches from Verona Italy announce that a terrible cyclone, accompanied by hail, devastated the Valley of Caprino. All the crops, including the mulberry crops, were destroyed, entailing a great loss of silk worms.

The government of Argentina has been officially informed that the gunboat Suarez, of the Uruguayan navy, yesterday landed a force of Uruguayan troops on the Argentine coast. After the troops had been landed the Suarez sank a vessel flying the flag of Argentina.

Advises by the steamer Empress, of Japan, are to the effect that the fatality from famine and plague in China is appalling. The famine north from east of Seachuan is causing many deaths. A traveler who has just returned from there reports having seen numbers of dead bodies lying unattended to. In one large town half the population had perished from the starvation and the fever that follows in its wake.

The members of the ivy committee of the class of '96 who are still at Yale have decided to make another effort to have an ivy planted. Last year they got a sprig from the grave of Gen. Robert E. Lee, but it was pulled up in September. The committee has obtained another ivy from the same place, and will plant it in a few days.

New England was visited by a storm Thursday which, from the damage done, has become one of the worst in many years. Most of the rain which fell came down with great violence at intervals between 4 p. m. and midnight.

The steamer Windward started again from London for Franz Josef Land Wednesday in order to bring back from the Arctic regions the members of the Jackson-Harmsworth expedition who have now spent three winters at their little Arctic settlement, Elmwood, near Cape Flora, where they erected an observatory 2,000 feet above sea level. During the present summer the expedition was to make an attempt to reach the highest point north through an opening in Queen Victoria sea, the open water discovered by Mr. Jackson.

**WONDERFUL** are the cures by **Lee's Serrapella**, and yet they are simple and natural. **Lee's Serrapella makes PURE BLOOD.**

## SUGAR ADVANCES

Over Two Per Cent. on Tariff Legislation.

Cotton is Dull and Fractionally Lower. Further Legislation Sends Wheat Down from a Higher Opening.

(Special to H. W. Silsby & Co. Commission Brokers.)  
COTTON.

New York, June 11.—Dullness was the leading feature in the cotton market to-day. Liverpool cables were unchanged to one point lower at the opening, and lost two points during the day. Our market opened off 2 to 4 points, and declined to 3 points during the day under the pressure of realizing sales for local accounts. The fall months were noticeably the weakest, with New Orleans a moderate seller near the close. Reports from the southern belt are more favorable, the nights are reported warmer and in the late sections, the plant is doing much better than was expected a few weeks ago, we look for a narrow market until business becomes more settled, after which cotton will sell lower.

## LIVERPOOL COTTON MARKET.

LIVERPOOL, June 11, 12:30.—Spot business quiet, prices favor buyers. American mulland uplands 4 5-32. Sales today 6000, of which 500 are for speculation and exportations. Receipts 1000 of which none are American.

Futures opened quiet, demand moderate and closed easy at a loss of one to two points for the day.

The following was the range of prices for the three leading months today:

Opening	
June and July	4.4
July and August	4.3
September and October	3.56
2 P. M.	
June and July	4.3-1
July and August	4.2-3
September and October	3.56
4 P. M.	
June and July	4.2b
July and August	4.1s
September and October	3.5s

## STOCKS.

New York, June 11.—The London market for American securities was fractionally higher this morning, but business from this source, was somewhat curtailed owing to the fortnightly settlements which have just been made in that market. Stocks here opened firm, about 1/4 to 1/2 per cent over yesterday close. Sugar was the most active again today and the close this afternoon shows a net gain of 2 1/2 per cent for the day, the most of which was gained during the last hour. The Washington contingent was the buyers. The actions of the Senate convince us that this monopoly will fare even better at the hands of its Senate friends, than it did in the house. There was a slight inclination to cover in Jersey Central during the afternoon on rumors that the Company had already earned over two thirds of their next quarterly dividend.

We are becoming very skeptical as regards much higher prices in this market. Should the financial condition of the country become more unsettled owing to tariff agitations, and international controversies, it would be impossible for speculators to sustain present prices.

## CHICAGO MARKETS.

CHICAGO, June 11.—The Government Crop report issued at four o'clock yesterday afternoon shows the condition winter wheat 82.1 and spring wheat 86.9. This was considered rather bullish, and was reflected in the early foreign cables, which were considerably above yesterday's close. Wheat here was active on the curb at an advance of 1/4 to 1/2 cents. The opening was irregular and on a scale of from 1/4 to 1 cent above yesterday's close for the July option and 1/4 to 1/2 for the fall months. The opening proved to be the best for the day, as the advance brought out considerable long wheat especially for the September deliveries, and a sharp decline quickly followed and the loss more than exceeded the gain. Conservative speculators are not inclined to give the government report much credit, as they seem convinced the conditions are under-estimated. Personally we concur in this belief as we are convinced that conditions throughout the wheat belt are much better than this report would indicate. We can find nothing to alter our ideas as regards the future of this market and look for much lower prices. Corn lost 1/2 cent on more favorable reports from the frost bitten sections. Provisions continue dull and totally without feature.

## WHITHER BOUND?

The Battleship New York Puts Out to Sea With Sealed Orders.

BOSTON.—The United States cruiser New York, the flagship of the North Atlantic Squadron, with Rear-Admiral Montgomery Sicard on board, steamed out of the harbor not a soul on board knowing to what port she is bound, for it will only be when the big white cruiser is well outside of Boston light, with her pilot over the side that the sealed orders from Washington will be opened, and her destination ascertained.

It is generally believed, however, that when she reaches Cape Cod she will turn her nose to the southward, and that her twin screws will not stop until she is somewhere in the neighborhood of Cuba; for when she started she was fully provisioned and coalled, and could, if necessary, go so far as Gibraltar or Rio Janeiro without laying in more supplies.

## TROUBLE NOT OVER.

Turkey Will Retain Thessaly. Sultan is Preparing for War.

LONDON.—The Constantinople correspondent of the Standard says: "At Tuesday's conference of the ambassadors for the decision of the terms of peace Twelk Pasha was present, and with categorical instructions to persist in the retention of Thessaly given him by the Sultan personally.

When the conference ended, the Sultan summoned his ministers to a special council at the Yildiz Kiosk, which sat until 2 o'clock in the morning of Wednesday.

The decision arrived at was that the evacuation of Thessaly was impossible, but there was no necessity for precipitate action. Being in possession, the Porte, it was argued, was able to wait patiently and even indefinitely, while discussing academically a point with the powers. It was also decided to make active preparations for war.
