Death of Ex-State Treasurer Tate. Child Bitten by Dog. Denial of Rumors Concerning Britchard and Butler.

JOURNAL BUREAU, RALEIGH, N. C., June 26.

The death of ex-state treasurer Samuel McDowell Tate of Morganton causes deep regret all over the State, particularly among the ex-Confederates. He was a very gallant soldier. At Gettysburg, as Colonel of the 6th, N. C. Regiment, he passed through a gap in the famous stone wall and with his revolver killed six men. He told me this himself. His statement was confirmed. He had flanked a line of men lying down, and emptied every chamber of his revolver as quickly as the weapon could be fired.

Managing editor R. C. Rivers of Senator Butler's paper, the Caucasian, says the reports that it was to divide with Barnes as to the public printing are inaccurate but that they came from the fact that Barnes Bros. needing a press and gas engine has taken those of the Caucasian and that the two offices will be operated together. He declares that this is all the Caucasian has in it, that it means a saving of rent and some returns on property.

Some of the Republicans are circulating a story today that Barnes will charge 37 cents for 1,000 ems for composition in the public printing contest, while Stewart Bros. charged only 27 cents and claim there is a job in this. Positive statements are made, on the other hand, that the new contract will save the State \$10,000 a year.

Next week the penitentiary superintendent will go to the line of the proposed extension of the Carthage railway to see what the amount of work will be. The president of the road, W. C. Pitty wants only 50 convicts, but Superintendent Smith says he wants to put in 100 and finish the 71 miles during August when there is no crop work for the convicts.

Last night a shepherd dog severely bit the little son of ex-Secretary Bruner of the Agricultural department. The dog had been trained by its young owners in the neighborhood to chase children and this time it became angry and bit the little boy.

A denial is made of the rumors that Senators Butler and Pritchard had made up all their quarrels and differences and were consulting together as to the division of North Carolina patronage. Every bit of this news was brought here direct from Washington by Republicans of the straitest sect. They gave it out and in no other way was it circulated.

The railway commission will devote several days next week to the annual assessment of the property of the 72 railroads and branch lines, 22 steamers line, 25 telegraph, 20 telephone and 5 street car lines.

The general opinion of all who attended the session of the Teachers' Assembly which ended yesterday is that it was the most satisfactory, practical and valuable ever held.

Under the provisions of an act of 1897 the State Treasurer is sending to bankers or officers and directors of banks, railroads and other corporations incorporated and doing business in this State, a blank form of oath which he, that he will observe the constitution and laws of the State and truly discharge according to law all the duties which may devolve upon them in the execution of the trust imposed upon them, and that they will not knowingly violate or permit to be violated any of the provisions of the statutes of the State under which the association has been incorporated, and that they are the owners in good faith and in the same right of the number of shares of the stock of the association required by the said statutes.

David Castillo Loughlin, a circus performer whose home is Henderson, is one of the men sick with yellow fever at Swinburne island New York.

An investigation is being made by lawyers as to the status of the defunct Egypt coal company. It is found strange to say, that there were two companies of the same name.

The Secretary of State has had the Supreme court reports stored in a leased building and did not know until yesterday how many there are of them. They are now in a book store, and there are found to be 18,511, which is nearly twice as many as he thought there were.

The records of charters granted the Secretary of State only extend back 4 years. There are about 500 of such charters in that period.

Mention was made of the fact that there came from Washington rumors that charges were impending in the U. S. Marshals office here and that W. H. Odum and Settle Dockery were spoken of as to be the chief deputy and clerk. Mr. Dockery writes that this part of the statement is certainly inaccurate, that Odum does not live in the district and that as for himself he will in a few days go to the University law school and will when he obtains his license devote himself to that profession.

UNBOUNDED SUCCESS.

Visitors Out Number Nashville's Entire Population.

Confederate Re-Union. Tennessee and Texas Remember the Alamo. Georgia has Her Day. Making Money Now. Not Very Hot.

NASHVILLE, Tenn., June 25.—Nashville has entertained more persons than her entire population during the week just ending. More have walked the streets of this city than have entered her gates during a similar period before, perhaps, and the Tennessee Centennial Exposition has, of course profited.

Editors from Kentucky, Missouri and Mississippi kept the exposition inclosure full of newspaper talent, and the reunion of Confederate Veterans, with its numerous auxiliaries, kept the streets of the centennial city thronged with wearers of gray uniforms, bright badges and the insignia of brigades, divisions and minor commands.

Noticeable in the great rush was the Texas delegation, which was one of the largest, the most enthusiastic and probably the most important. These Texans came a thousand strong, from all parts of the great State, with a double purpose. They came to take part in the reunion and they came to celebrate Texas Day at the exposition. To the reunion they contributed the principal speaker, Judge John H. Reagan, the sole surviving member of Jefferson Davis' cabinet, and to Texas Day they brought an enthusiasm that no other State has aroused on a similar occasion.

The people of Texas and the people of Tennessee are bound by the ties of blood and by kindred interests. The Alamo is the pride of Texas history. The Alamo was made famous by Davy Crockett, a native Tennessean, and Texas history is full of Tennessee names. The thirty members of the Texas Legislature who honored the day with their presence included a large proportion of natives of the State that is now celebrating the hundredth anniversary of her Statehood.

Georgia also celebrated her day at the exposition this week, and the flower of that State's beauty and chivalry took part in the interesting exercises.

The scene at the Union Depot during the first days of the week it not often equaled. All regular trains were run in from four to eight sections, and specials were arriving every few minutes. A queer lot of locomotives were pressed into service by this unusual demand, forcing the belief that switches and repair shops for many miles around had been compelled to give up their means of transfer for the time.

The week's attendance will prove a great advertisement for the exposition. Those who composed the crowds came mostly from the South, the section that is largely dependent on to boom the daily admissions during the warm months of July and August.

Director-General Lewis has just made a report to the stockholders, in which he shows that the receipts from all sources have exceeded the actual operating expenses by \$1,000 a day. He calculates that, on the same basis of receipts and disbursements, the company will be entirely relieved of debt at the end of the exposition period and have a more or less valuable lot of assets to dispose of for the benefit of stockholders.

Although the weather for a week was hotter than it usually gets in June here, the ambulance calls did not increase to a remarkable extent, and the attendance was not reduced. Many cities north of the Ohio river, notably Chicago, suffered more severely from the heat than Nashville did, and it is particularly gratifying to people here to note that the number of exposition visitors from the North has steadily increased.

PASS THIS WEEK.

Promised For The Tariff Bill. Life Savers to be Paid Monthly. Car Wrecks in New York.

WASHINGTON, June 25.—All the internal revenue features of the tariff bill are to be eliminated, it is understood. Assurances have been given to Senator Wellington and others opposed to the increased tax upon manufactured tobacco that no increase will be made, and the finance committee has also agreed to a slight increase in the duty upon Canadian coal, which is entirely satisfactory to Senators Wellington and Elkins. The duty on Canadian coal is raised to 67 cents a ton from 60 cents. This makes the rate practically the same as that imposed by Canada upon coal from this country.

The Republicans are now confident they will pass their bill next week, and the Democrats admit the probability of

ROYAL BAKING POWDER Absolutely Pure

such action unless some unforeseen obstacle presents itself.

The compensation of keepers and crews of life-saving stations throughout the country hereafter will be paid to them monthly instead of quarterly, as heretofore. A letter to disbursing officials to that effect has been issued by Superintendent Kimball, with the approval of the Secretary of the Treasury.

Ex-Secretary Carlisle has definitely determined to settle in New York City. He is now there selecting law offices and a residence. It is understood he will offer his house in this city for sale. This action indicates he has concluded to withdraw finally from Kentucky politics, and as a friend of his put it today, to devote the rest of his life to making money. His son, Logan Carlisle, will be associated with him, and he will have a friendly connection with the law firm in New York City of which ex-Assistant Secretary for the Treasury Curtis is a member.

STEADY IMPROVEMENT.

The Tide of Business Has Again Begun to Rise.

NEW YORK—R. G. Dun & Co's. Weekly Review of Trade, says: There is no step backward in business, although the season of midsummer quiet is near. Improvement continues gradual and prudently cautious as before, although in many branches evident, where no signs of it appeared a few weeks ago. Business men of the highest standing in all parts of the country, having gradually perceived that the tide has begun to rise, are regulating their contracts and investments and their plans for the future, with a confidence quite unknown to them a short time ago.

Great changes before the adjournment of Congress are hardly to be expected, but removal of uncertainty is with reason expected to bring in operation buying forces which have been restricted for months.

AS PER PROMISE.

Fortune Succeeds Riddick as Clerk of U. S. District Court, at Raleigh.

Special to Journal.

RALEIGH, June 25.—Julius B. Fortune, who lately came here from Shelby, N. C. was today, as promised by Senator Pritchard, appointed by Judge Farnell, as clerk of the U. S. District court here, to succeed N. J. Riddick, who is removed, the change to take place July 1st.
