## RAILWAY DIRECTORS.

Burd is Reappointed and Meets in Greensboro Today.

The Former President to be Re-Elected. Secretary Will Turn Over the Books. Private and State Directors will Meet Together.

Special to Journal. RALEIGH, N. C. July 7.—Governor Russell reappoints the directors of the North Carolina railway whom he appointed last April except that Judge Avery takes the place of A. W. Graham.

The Board of Directors meets at Greensboro tomorrow. R. M. Norment will be re-elected President. E. R. Walton will be re-elected Secretary and Treasurer, and C. A. Cook attorney. Former Secretary Ruffin will turn over books and papers. Private directors say that they will meet with these State directors.

### THE POPULISTS.

The National Conference Declares for Reorganization and Opposes Fusion.

NASHVILLE, Tenn., July 6.—The National Conference of the People's Party reassembled in the hall of the House of Representatives today.

The evening session was devoted to an address to the people, which was adopted. This was lengthy, and across both the Democratic and Republican parties, declares against fusion, says free silver will not bring relief until trusts, combines and rings are abolished, and calls upon all to join in the contest in its waging.

A plan for reorganization and building up the party was adopted the chief points of which are, The election by this conference of a national organization committee to be composed of three members from each State represented here, said members to be selected by the several State delegations. In States not represented at this conference the national organization committee here created may at their discretion, provide for a proper representation on the committee, the election by this conference of a chairman of the national organization committee whose duty it will be to push the work of organization on strictly Populist lines and in the interest of Populist principles and Populist candidates; to preside over all meetings of the national organization committee and to perform all other duties usually incumbent upon such officers.

### THE MARKETS.

New York and Chicago Quotations on Stocks Cotton and Grains.

Special to Journal. New York, July 7.—The expected passage through the Senate of the tariff bill today helped prices.

Stocks advanced on an average one per cent. The cotton market opened weak on account of copious rains and on the anticipation of an early crop.

Foreign buying of wheat and a good export demand started an upward movement in the market. The possibility of a squeeze in July wheat caused other futures to sympathize.

Corn broke half a cent on the rains, but on later reports of damage to the crops there was renewed buying and the market closed at top prices.

The market look like going higher and would advise buying of grain and stocks.

### Latest News Items.

United States Senator Harris, of Tennessee, who has been seriously ill, is reported as somewhat better.

A Bombay dispatch says a plague of locusts in North India threatens to aggravate greatly the sufferings from famine in India.

President McKinley and his party returned here from Canton at 12:47 o'clock Tuesday on the regular train over the Pennsylvania railroad.

A warm wave, which is said to be due to a combination of an area of low pressure to the North and a high pressure area to the South, struck New York City Tuesday, and at noon the thermometer on the street level registered 102 degrees while the humidity recorded was 91 per cent. As the result of this intense heat there were three deaths and eleven prostrations.

The cruiser Raleigh has sailed from Smyrna for Tangier. The cruiser Minneapolis, arrived at League Island direct from the Mediterranean, where she has been on the European station. She will be put in reserve at League Island, under orders from the Secretary of the Navy.

There is a great deal of comment here on the position of the Bank of Spain. Its note circulation is larger than ever before, and it is said to have increased to 19,000,000 pesetas.

Miss Florence Leonard, of Connecticut, was married this week to Hugh T. Lee, a member of Lieut. Robert Peary's polar expedition. The young couple will accompany Lieutenant Peary on his expedition, which sails from Boston in a few days. It will be the first honeymoon trip to the arctic regions on record.

The special commission sent to India to study the bubonic plague reports that in a majority of cases the bacilli enter the body through the skin, although they sometimes enter through the lungs or by the tonsils. The period of incubation is from four to five days. The rat appears to be the only animal spontaneously affected, and it is unlikely that the disease will enter Europe under the present methods of supervision, except, perhaps, through rats in ships.

In consequence of the strike of engineers in London in support of their demand for an eight-hour work day, the Federated Employers' Association has posted notices throughout Great Britain looking out 25 per cent. of the members of the striking societies. It is understood that the societies will order the remaining 75 per cent. of their members to leave work immediately. Twenty-five thousand men will be affected.

Advices from the South of France show that the destruction by the floods there was greater even than earlier reports indicated. The losses are estimated at 200,000,000 francs in the aggregate. Hardly a village has escaped damage and the number of persons drowned is fully 200.

THE GREAT COAL STRIKE. Pittsburg is the Pivotal Point. Thousands of Miners Obeyed the Mandate.

PITTSBURG, Pa.—The strike order of the National Executive Board of the United Mine Workers of America was obeyed by from 10,000 to 15,000 miners in the Pittsburg district. The great struggle is now on in earnest, and the developments of the next few days will determine the success or failure of the fight for a uniform mining rate.

Pittsburg is the pivotal point in the five States engaged in the contest, and the success of the local officials' in their efforts to secure a general suspension in this district will have an important bearing on the outcome of the movement.

While it is estimated that at least two thirds of the miners have thrown down their picks, enough men are still at work, however, to seriously impair the chances, unless they can ultimately be brought out. This, President Dolan confidently claims, can be done. The operators, on the other hand, are in no wise disconcerted, and assert that the strike cannot succeed.

### GOMEZ IN DANGER.

He is Said to Be Surrounded by Strong Spanish Columns.

HAVANA, CUBA.—A telegram from Sancti Spiritus states that General Gomez is in danger of being surrounded by several strong Spanish columns operating in the vicinity of the San Jose estate, about twenty leagues from Sancti Spiritus.

Rebel bands under Rego, Camacho, Carrillo, Clavero, Perez and Bandera are reported to have learned of the commander-in-chief's peril and to have hurried to his assistance.

News is momentarily expected of a decisive battle between Gomez and the Spanish forces now closing in on him. General Weyler when last heard from was at Sancti Spiritus.

In the House of Lords the Marquis of Salisbury, replying to Lord Connemara, said the delay in the settlement of peace terms between Turkey and Greece was entirely the fault of the former power.

There was no delay so far as the concerted powers were concerned, but Turkey had carried deliberation and circumspection to such an excess that the delay was not without danger, though the danger was not immediate. They were apparently at present no nearer to a solution of the question than at the beginning.

We Sell Lots of It.

And that fact guarantees its freshness. It doesn't last long enough to get stale. It requires talent to make good soda. Everybody can't do it—but we can. We use the freshest fruit syrups, and filtered water. We know just how to mix things to make you say "ah" at the first sip. We're not bragging though you'll think us justified in doing so when you taste the soda.
