ONLY SPENT PART.

Consul General Lee Uses but \$6,000 for Destitute Americans.

Members of Congress Wish to Get Away from the Heat. Death of Senator Harris Causes Depression. Hawaiian Bill. President's Vacation.

WASHINGTON, July 9.—United States Consul General Lee has been rendering some account to the Government of his expenditures from the sum appropriated by Congress for the relief of destitute American citizens in Cuba. His figures were presented to the Cabinet today and the showing was remarkable for it appeared that of the total of \$50,000 at the disposal of the Consul General he had expended only \$6,000.

It is thought to be extremely improbable that anything will be done at this session of Congress after the tariff bill is finally disposed of. It is doubtful if the proposition to authorize the appointment of a monetary commission will be considered, even if the President recommends such action, unless it is done while the conferees are endeavoring to agree upon the difference between the two houses respecting the tariff measure. Members of both bodies are anxious to get away, and cannot be persuaded after tariff legislation has been enacted that anything else can be of such importance as to necessitate their remaining in Washington during the remainder of the hot weather.

The Senate met today under the depressing influence of the death of Senator Harris, of Tennessee, who has been one of the conspicuous figures in the upper house of Congress for over twenty years. The desk he had occupied so long was not draped, as the Senate had as yet no official knowledge of his demise.

The Senate Committee on Foreign Relations made two efforts today to secure a full meeting for the purpose of taking up and if possible disposing of the Hawaiian annexation treaty, but failed.

No quorum was secured at the forenoon session and there was not a full attendance at the afternoon. The treaty was discussed at some length at the latter session and the more pronounced of its advocates suggested the advisability of early action.

President McKinley will spend most of his summer vacation on the shores of Lake Champlain. Plattsburg, N. Y., will be his nearest town. His party will consist of the members of the Presidential family, of Vice-President and Mrs. Hobart, Secretary Alger and family, Secretary and Mrs. Porter, and probably of several other members of official society.

The conferees on the tariff bill put in a very hard day's work. They recessed at 1 o'clock for lunch and again at 6 for dinner, and at 8 o'clock resumed their sitting, and continued in session until late tonight.

They have all taken a particularly binding pledge of secrecy, and are guarding their labors with unusual vigilance. Beyond the general statement that they were making satisfactory progress, the conferees would say nothing.

HEAT IN CHICAGO.

Many Deaths and Horrors Drop in the Streets.

CHICAGO, July 9.—Of all the hot days that have made life a burden since the warm weather of 1897 began this was the worst. There were more deaths of human beings and of animals, and the number of prostrations was greater than upon any other day of the long hot spell that has hung over Chicago. Sixteen people are dead from the heat, two are insane, and out of a large number of prostrations ten cases are critical. The night was a sizzling horror—there was comfort to be found nowhere, the hottest night Chicago had ever known. The mercury was 87 last midnight, and although near the lake it sank to 82, at 6 a. m. the decrease in temperature was more than offset by an increase in the humidity, which through the night and day made the discomfort far greater than is implied by the record of the thermometer.

The day was especially severe on horses, over 100 lying in the streets. Sixteen hundred men and boys were temporarily thrown out of employment in Pullman today. Owing to the intense heat the managers found it necessary to close the works at noon and send the workmen home. At Bloomington, Ill., the mercury reached 103.

Latest News Items.

Glorious weather prevails in San Francisco and the Christian Endeavorers crowded the vast churches where meetings were to be held.

Three masked robbers in Chicago held up the regular night car on Racine street last night at the eighth and ninth street crossing.

The Pull Mail Gazette says that owing to the drought in New South Wales and South Australia it will be necessary to import thousands of tons of Castoria wheat.

REWARD OFFERED

For Arrest of Perpetrators of the French Broad Case.

Chatham County has an Interesting Law Case. Insurance not in Compliance with Law. The Lease Again. Can Play in the Square.

JOURNAL BUREAU, Raleigh, N. C., July 10.—Governor Russell offers \$100 reward for the perpetrators of a strange crime was found floating in the French Broad river in Buncombe county. The coroner held an inquest and the jury was of opinion that the body was that of William Vestal. There seemed to be no clue whatever to the murderer or murderers. It was found that the latter after killing him had thrown the body in the river.

An interesting legal case comes up from Chatham county. A. P. Terry of Pittsboro made application to the county commissioners for license to sell liquor, and 275 out of the 410 voters in the township signed the petition. The county commissioners refused to grant license. Proceedings were today begun to force them to grant it, on the ground that the law does not give them absolute discretion or power to refuse generally. The wording of a previous act was "shall without discretion grant license," which that of the present act is "may." But there is a proviso, which is in the former act and which was evidently by an oversight left in the new one, and it is on this proviso that Terry's counsel base their contention.

The southeastern tariff insurance association will not comply with the law of the last Legislature requiring insurance on farm houses to be as low as the rates in the southern counties of Virginia. The act also requires a reduction of rates on farms in the country. With this act the companies comply, but they ignore that part of it relative to country dwellings.

A Pinkerton detective is now at Lexington trying to unravel the mystery of the murder of Mr. A. A. Springs.

The Louisville dispensary is making sales at the rate of about \$20 a day. The commissioners ordered beer kept on ice but this the board of control stopped.

The new State directors of the North Carolina railway seem to be quite the reverse of sanguine as to Gov. Russell's carrying out his plan to annul the lease of the North Carolina railway to the Southern.

The keeper of the capital issued an order that no children or adults would be allowed in the Capital square after 7 p. m. The board of public building held a special session yesterday and rescinded the order. There is some comment on the fact that not the least notice was taken at the Capital or by the treasury department of the death of ex-State treasurer S. McD. Tate. The capital board yesterday discussed this matter, in view of newspaper strictures.

The law now requires a report of the amount of air furnished in mines. The first report of this kind ever made came today from the Cumback coal mine.

The military company at Henderson will go to Washington, D. C. Monday on its annual outing. The deputy revenue collectors in this district have made an excellent record this year in the matter of seizures of illicit distilleries.

FOR ARBITRATION.

Labor Leaders Advise this Course in the Coal Strike.

A Conference in Pittsburg and a Manifesto Issued. A Joint Meeting of the Arbitration Boards May be Held Soon. Number of Miners Out.

PITTSBURGH, Pa., July 9.—The greatest gathering of labor leaders that ever assembled in this country in the course of a strike was held in this city tonight to devise means to assist the coal miners in their contest for increased wages. The conference was called "suddenly," but the officials who responded represent nearly every branch of organized labor in the United States.

A manifesto was issued in part as follows: "Every effort, it was determined, will be made on the part of those present to secure the co-operation and practical aid of organized labor for the struggling miners. All the circumstances warrant the firm conviction that the miners will ultimately achieve victory, and to this end the aid of labor and the sympathetic public is invoked."

Conscious of the great interest which the public has in a contest so widespread as that of the miners, it gives us great satisfaction to know that the miners have not been and are not now opposed to arbitration. We, therefore, urge and advise that a conference be held by the representatives of the miners and the operators with a view of arriving at a settlement of the present suspension."

The suggestion that a joint meeting of the arbitration boards of Ohio, Indiana, Illinois and Pennsylvania be held in this city next week, and an effort made to settle the strike is received with favor here, and it is believed that both operators and miners will welcome it.

Next week there will be thirty representatives of the organization at work and by next Friday there will be 150,000 to 160,000 men in line. It is difficult to make an accurate estimate as to how many miners have joined the strike, but 125,000 is a conservative one, and the number is daily increasing.

THE MARKETS.

New York and Chicago Quotations on Stocks, Cotton and Grain.

Special to Journal.

New York, July 10.—Stocks, today, assumed a half holiday dullness, but showed great strength.

It is confidentially expected that President McKinley, on Monday, will send his financial message to Congress.

Railway earnings continue good. Industrial stocks are all stronger, and the market should go somewhat higher.

Cotton was depressed on rains in Texas, but rallied on the government report, which showed the condition to be 86, which was a less percentage than expected.

The feeling in wheat is bullish on the receipts, and the expected Government crop report, but the market declined only fractionally on fears that the continued foreign demand, with our small visible supply may bring about a squeeze in the market.

GOVERNMENT REPORT ON COTTON.

The department of agriculture report the July returns for cotton indicate an average condition of 86.9 as compared with 83.5 in June. An increase of 3.5 points. The average for July 14, 1896 was 92.5.

The average by States is: Va., 87, N. C., 90; S. C., 85; Ga., 83; Fla., 80; Ala., 83; La., 89; Tex., 88; Ark., 88; Tenn., 80; Mo., 95; Okla., 83; Miss., 81; Ind. Ter., 63.
