BAILEY OF TEXAS

Wants to be Either Speaker or Senator.

A Mammoth Farm in Louisiana. Canadians Admire this Country but are Loyal to the British Crown. Roosevelt Indispensible to Secretary Long.

JOURNAL BUREAU. WASHINGTON, D. C., Aug. 6.

Representative Bailey, of Texas, who is not yet thirty-four years of age, is so well stocked with ambition that he is in the field as a candidate for Speaker of the House and for U. S. Senator simultaneously, probably the first man who ever tried to use two such strings to his bow. As a starter Mr. Bailey is a candidate for reelection to the House. That is conceded to be easy. Then if a majority of the next House should be Democratic he will be a candidate for Speaker; if not, he will be a candidate to succeed Senator Mills, whose term expires in 1899. There is very little doubt that Mr. Mills will be a candidate to succeed himself, and he is a hard fighter. Mr. Bailey knows that the task he has set before him is no picnic.

It surprised a group of Western men when Mr. P. G. Vinton, of Louisiana, now paying a visit to Washington, said: "The biggest farm in the world is in the southern part of my state. It is owned and operated by a syndicate of northern capitalists and embraces 1,500,000 acres of land, devoted to the cultivation of cotton, corn, sugar and rice. East and west the estate extends 100 miles. The Southern Pacific Railway runs through it for nearly forty miles. A good deal of attention is paid to raising cattle, of which the syndicate owns 16,000 head. The syndicate operates several steamers on the navigable rivers that run through their mammoth farm, and they have also rice mills, a shipyard, ice plant, and a bank."

Representative Grafenreid, of Texas, who has been on a trip through Canada, has returned to Washington. He says the Canadians are kind and hospitable, but are far behind the progressive spirit found in every part of the United States in almost everything, and that there is a nagging with their feeling of jealousy and envy of the United States a sentiment of pride in our greatness that struck him as very amusing. He says that while 90 per cent of the Canadians want commercial reciprocity with the United States he did not come across a single one who believed in or wanted political union with us, and that there is no doubling their loyalty to the British crown.

The cause for the selection of Hon. Theodore Roosevelt Assistant Secretary of the Navy is becoming every day more apparent. Mr. Roosevelt has been acting Secretary more than half the time since he became Secretary Long's assistant, and as far as the direction of the navy is concerned is considered to be acting Secretary all the time. Mr. Roosevelt has devoted much study to naval matters and has several times surprised old naval officials by his accurate knowledge of technical matters of which the ordinary landsman is densely ignorant, and he will probably surprise a few more of them when he goes to sea with Rear Admiral Stead with the fleet, which has been ordered to assemble in Hampton Roads for a series of drills and sea maneuvers. Secretary Long neither knows nor cares to take the time and trouble to learn these things; he is contented to wear the honors of the position and let Roosevelt do the work, and, of course, he has the authority to put a brake on Mr. Roosevelt's enthusiasm at any time it may be considered necessary to do so. Mr. Roosevelt was not chosen for this position by the President, but by Secretary Long himself. That makes their relations entirely agreeable to both; they are carrying out an understanding made before Mr. Roosevelt became Assistant Secretary.

Miners in Want. PERRISCO, Pa., August 5.—Striking miners and their families in Monongahela Valley are reported to be wanting the necessities of life. Destitution is prevalent at every mining hamlet there, and hundreds of families have not had enough to eat for days. At Monongahela City a soup house has been started, and a committee appointed to solicit provisions.

Still Going Down. NEW YORK, August 5.—Silver bullion experienced today the most violent break of the entire session's decline. In London the price dropped one half penny per ounce from yesterday's price, selling at 25 1/2 pence per ounce, as against 27 1/2 pence a month ago. The New York price fell to 52 1/2 bid, a break of 1 1/2 cent an ounce from yesterday and of 4 1/2 cent with a month. At this price the bullion in the silver dollar is a trifle more than 48 cents. London despatches described today's weakness in silver to liquidation by New York holders of the metal. No such decline as today's has been witnessed since June 1895.

TRADING ACTIVE.

Prices on Wheat and Stocks Again Higher.

Foreigners Large Operators in American Markets. Rumor Cotton Corner in St. Louis. Conservative Buying of Cotton. Markets Look Higher.

Special to Journal.

New York, August 6.—Foreigners took advantage of yesterday's break and bought wheat on the opening. After first advance crowd were disposed to sell on big receipts, which resulted in a decline of one cent a bushel, followed by covering, which carried prices upward for one cent, closing strong.

We do not feel like buying until after Monday's visible supply is known. The statistical position is strong, but subject to the influence of a visible increase of stock. Cotton—nothing worthy of note in the market. The position is strong. The conservative crowd are buyers. It is rumored the September option is cornered in St. Louis. Liverpool was a liberal buyer. We believe in an advance in prices next week.

Stocks—A higher London market caused a continuation of yesterday's movement in the first hour. New records were made and prices were well held throughout the session, despite heavy realizing. We look for higher prices tomorrow.

Yesterday's market quotations furnished by H. W. Silsby & Co. Commission Brokers.

OAKLAND, Cal.—The British ship Cumberland, coal laden, was almost destroyed by fire. The fire is believed by Capt. Bernard to have been started by friends of Near, the East Indian, who stabbed Bernard. Some of the crew have been put in arms.

The Grandest Remedy.

Mr. R. J. Greve, merchant of Chilhowie, Va., certifies that he had consumption, was given up to die, sought all medical treatment that money could procure, tried all cough remedies he could hear of but got no relief; spent many nights sitting in a chair; was induced to try Dr. King's New Discovery; and was cured by two bottles. For past three years has been attending to business, and says Dr. King's New Discovery is the grandest remedy ever made, as it has done so much for him and also for others in his community. Dr. King's New Discovery is guaranteed for Coughs, Colds and Consumption. It cures all. Try Little Pills First at E. S. Duffy's Drug Store.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands. ROYAL BAKING POWDER CO., NEW YORK.

Gorman's Intentions.

WASHINGTON, Aug. 5.—The statement published this morning that Senator Gorman has determined to withdraw from the senatorial contest in Maryland has been received with derision here by those who know the Senator. He was in Washington for two hours this morning before leaving for Saratoga, and disclaimed all responsibility for the publication. He would not, however, either affirm or deny that he had proclaimed his intentions. He said he had no knowledge of the statement before it was printed, and, therefore, did not propose to discuss it now.

CASTORIA

For Infants and Children.

SODA WATER trade usually falls off in mellow season—ours doesn't, for our customers know molasses contain acids, while our soda contains only the purest natural fruit juices—productive of health and comfort. We Polish our glasses too.
