FOR THE RESERVES.

Acting Secretary Roosevelt Has Plans for Them.

A Gunboat for their Exclusive Use. New Devices for Protecting the Treasury Yachts. American Missionaries in China to be Protected.

WASHINGTON, August 13.—A plan is being perfected by Acting Secretary Roosevelt which will eventually lead to a ship of the regular navy being assigned exclusively to duty with the naval militia organizations of the country. Mr. Roosevelt believes that the Reserves must prove a most valuable adjunct to the navy, and that better means should be employed to instruct them in the duties of their system. The summer drills have brought out clearly the necessity of a radical change in the present methods in order to promote the efficiency of the organization.

Mr. Roosevelt has accordingly outlined a plan whereby a vessel of the new gunboat class will be assigned to work with the Reserves, spending the winter months with the Southern bodies and the summer with the Northern, thus giving all organizations ample chance to secure the benefits of training on modern vessels of war.

The vessel for this duty is to be of light draught in order that she may ascend the shallow rivers on the Southern coast and can be readily handled in narrow waterways. As Mr. Roosevelt has entire charge of the Naval Reserve, he will probably carry out his ideas and some time this fall will assign one of the gunboats to exclusive work with the militia.

Ever since United States Treasurer Roberts came into office he has been thinking over the question of new devices for protecting the government against losses of money from inside or outside building. He has now arranged to have an electric protective system for the safe and vaults under his care, and the contracts will be let within a few days.

For years China has refused to comply with the requests of this government that a decree be issued instructing the provincial officials to afford better protection to American missionaries and holding these officials responsible for any harm that might befall the Americans through Chinese outbreaks. Advice lately received from Mr. Denby give hope that recent demands of the United States are about to be complied with, and that hereafter American missionaries can enter the interior of China with assurances of protection from injury.

NORTH CAROLINA.

Western Union Will Fight the Order to Reduce Tolls. The Boston Mills Disaster Revived.

RALEIGH, August 14.—Senator Butler and Governor Russell had two conferences this week. Politically, they are very close together. Democrats express contempt for the address making a declaration of principles which the Populist State Committee issued. The Republicans express pleasure at the tone of the address.

Several of the Baptist associations in North Carolina are demanding the resignation of Dr. Whitsett, as the head of the Theological Seminary. It is said his continuance in office threatens to split the church.

The Southern Railway is buying rights of way along the route of the road between Mooresville and Mocksville, work on which is to begin in sixty days. Convicts will probably do the grading.

The grand jury of Iredell county has found a true bill against J. A. Hand and Bud Shepherd for the murder of Hugh K. Leinster, who was killed in a frightful accident at Boston's bridge, or viaduct, in that county, in August, 1891, when forty-two persons were killed or wounded, a passenger train on the Western North Carolina Railway having been derailed. This bringing up of the worst railway disaster which ever occurred in North Carolina is highly sensational.

BUTLER SCHEME.
To Make Moye the Nominee for Congress.
Special to Journal.
RALEIGH, N. C., August 14th.—A rumor is current here that Senator Butler, has made a deal by which Moye of Pitt county is to be the Populist nominee for Congress in this district.

REPORT PROSPERITY.
Bradstreet and Dun Say Business is Booming.
NEW YORK, August 13.—Bradstreet's weekly report says:
Evidences of widespread revival in demand for merchandise and other products have become so numerous as to compel general recognition. The press has, therefore, ceased discussion whether trade has really improved or not, and have begun measuring the volume of business compared with preceding periods.

A buoyancy of feeling has appeared among buyers and sellers at New York, Baltimore, Chicago, St. Louis, and Kansas city, where the interior merchants have thronged this week, the like of which has not been seen for several years. Merchants are buying dry goods, clothing, shoes, groceries, and fancy articles far more freely than at any time since 1892. Crop conditions have improved at the South and Southwest, and merchants there are encouraged.

R. G. Dun & Co.'s Weekly Review of Trade says: Every city reporting this week notes increase in nearly all branches of trade and bright crop prospects. The great change in business is emphasized.
