111 N. 11th St.

EDUCATIONAL BENEFITS.

School Apportionment Will Be Increased this Year.

Gone to Klondike. Fish Commissioner Worth. House Entered by Thieves. Pests that Need Exterminating. New Professor A. & M. College.

JOURNAL BUREAU, RALEIGH, N. C., August 27.

The State Board of Education at its last meeting discussed the advisability of apportioning some of its accumulated funds among the public school children of the State. The last apportionment was made in 1894 and the amount was about seven cents to each child. It was decided to increase that amount to 9 cents for each child between the ages of 6 and 21. To do this will take about \$50,000, Superintendent Mebane says this apportionment will prolong the school term from three to four weeks in the larger counties.

Mr. Richard Merrimon of this city has gone to the Klondike gold fields. He will be joined there in a short time by Mr. James D. Ennis.

Mr. Stephen G. Worth who was at one time fish commissioner of this State and lived here in Raleigh, has been sent to Irwin Tennessee where he is to be superintendent for the construction of a fish station. Mr. Worth has for several years been the chief clerk of the fish commission in Washington City.

Mr. J. Hal Babbitt a prominent druggist here has notified friends by wire that he was appointed Secretary of the American Pharmaceutical association at its session in Minneapolis, Minn.

Gen. R. F. Hoke and family are away for the summer, and their home here was closed. Yesterday morning the doors and windows were found opened, and upon investigation it was found thieves had entered the house and gone through everything.

Requests for space at the Fair grounds are coming in rapidly and there will be no vacant places.

At the Liquor Dealers Convention this week held at Durham Frank O'Donnell of Asheville was elected President, and F. W. Ortman of Wilmington Secretary and Treasurer.

The legislature created a commission for the extermination of pests. There was a meeting held yesterday and Prof. Massey of the A. & M. college was appointed botanist and entomologist of the board. There is no pay attached to the work. Could not the commission be induced to exterminate certain human pests, among them let it get to work on the last legislature, the creator of this much needed commission.

The subject of most interest here right now is the question of the \$50,000 bonds for street improvements. The election to settle whether the bonds will be voted will be held in about two weeks.

The new professors at the Agricultural and Mechanical college to vacancies made by resignations are: Prof. F. A. Weihe the chair of physics and electrical engineering. Prof. Eldridge succeeds Prof. Craighill to the chair of mechanical engineering.

Chairman J. W. Wilson and Mr. S. Otho Wilson of the railroad commission came in today. There will be some pretty lively words when they appear before Governor Russell on September 1st. Many believe Walter Clark wrote the letters to the commissioners, at any rate he and Butler had a conference before the letters appeared.

The first new bale of cotton came in yesterday. During the last year there have been 27,408 bales of cotton brought here by wagon, and the year before there were 22,174 bales.

It is said that Butler is arranging for a deal between the Populists and Republicans, for he fears the Democratic silver plank will catch many Populists and thus ruin his party.

Two convicts from Lenoir who have served their time say that two convicts Hand and Shepherd, confessed to the wrecking of the train at Boston. Bridge some years ago. True bills have been found against them by the court in Ireland.

THE MARKET.

THE MINERS STRIKE.

Gompers Thinks Miners Will Win.

Destitution Among Men in Ohio. Seventeen Thousand Persons on Charity Lists.

WASHINGTON, D. C. August 27.—President Gompers of the American Federation of Labor, thinks the big coal strike will be over by the end of September, and the strikers will win.

It is given out that as six hundred of the seven hundred and fifty mines, in West Virginia are closed there is hope that men used to hardships will stay out.

There is imminent danger of a fierce bread riot in the mining districts in Ohio.

Inspector Hazelton reports over seventeen thousand persons on the lists dependent on charity.
Hazelton says he is unable to relieve this post.

Greece Asked Questions.

Special to Journal.
CONSTANTINOPLE, August 27.—The Powers have asked Greece to state the amount she is able to pay as the first installment on Turkish indemnity and mention revenues she can assign to guarantee the whole amount.

Piot Discovered.

Special to Journal.
MADRID, August 27.—An anarchistic plot to avenge the death of Goli, by assassinating the Queen Regent, has been unearthed in London.

A Typical Mushroom Town.

SEATTLE, Wash., August 26.—Advice from Skaguay by the steamer Williamette describe that place as a "camp of 5,000 people. Five miles up the trail there are tents all along on both sides, but a greater part of the people have never been up the trail. Rain, mud, discontent and confusion prevail.

The men have a great respect for the vigilance committee, but they refuse to obey any authority when it comes to working on the trail. Buildings are going up rapidly and stores and saloons are opening every day.

The first dancehouse and saloon was opened while the steamer was in port. The receipts at the bar for the first hour the dancehouse was open aggregated \$1,848. On the outside of this house is a tree upon which several significant notices are posted and from a limb of which dangles a new one inch rope with a noose. This was put there by the vigilance committee, and it is more effective than a hundred volumes of statutes against crime.

There are many restaurants at Skaguay but the fare is abominable.

Rural Mail Delivery.

WASHINGTON, Aug. 26.—The matter of the possible replacement of many of the post offices and star routes now in operation by the establishment of rural free delivery service has been taken up by the Postoffice Department, and in a few days an experiment in this line will be made. Its results are expected to show the extent to which the offices and routes can be done away with in favor of the rural delivery routes. The town of Grand Isle, Vt., has been selected for the test.

The recent experiments to demonstrate the feasibility of rural delivery service in a general way indicated that its establishment throughout the country would involve an additional annual expenditure of from \$50,000,000 to \$60,000,000.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands.
ROYAL BAKING POWDER CO., New York.

By having it substituted for postoffices and star routes wherever possible the expense may be cut down by \$15,000,000 or \$20,000,000. The test may result in Congress being asked to give authority for the establishment of rural free delivery in certain districts meeting certain conditions.

MUST FLOP TO POPULISM.

Thomas E. Watson Says That the Silver Democrats Will Have to Leave Their Party.

ATLANTA, Ga., August 26.—Thomas E. Watson, of Georgia, late candidate on the Populist ticket for Vice-President of the United States, says that [by] the time the fall campaigns begin there will not be a silver Democrat in the country, as men holding silver views will be compelled to walk into the Populist ranks and leave the old party organization to the gods.

He issues an urgent invitation to all silverites to take shelter under the "broad arms of populism," and says the struggle between the two metals will be short, sharp and decisive. Mr. Watson argues that the gold wing of the Democratic party, "by its persistent attacks on Mr. Bryan, combined with the supreme contempt with which it has always regarded anything approaching free-silverism," will eventually split up the party and show to the advocates of silver the necessity of embracing the cause of a party that is "more tolerant and has more new issues to fight for than the old line Democrats."

The time has come, says Mr. Watson, when the people of the Union realize that the only party which will devote all of its power to the conquest of monopolies, trusts and rings is the Populist party, and that it will be the vantage ground on which all true patriots will rally in 1900. He speaks skeptically as to the assertion that the advance in wheat and cotton is to be credited to Republican agencies, and says that what is called prosperity may be attributed to the scarcity of crops abroad and the expectation that the actual harvested crops will fall far below the estimates. If this is not the case, he says, it is simply an excitement raised by the "gamblers in the pit" for selfish ends. He does not say as much, but Mr. Watson is planning for a big State campaign this fall, and declares that his party will carry the election here by a tremendous majority.
