RUSSELL A FAILURE.

Admitted So By Republicans Throughout the State.

Official Courtesy Violated by Governor. Capital Square Walks. Railroad Survey. School Special Tax Vote. Sympathy for Senator Pritchard.

JOURNAL BUREAU, RALEIGH, N. C., August 28. Governor Russell is in bad odor with his party. An Eastern Republican said today: "He is a failure. I will admit it and I have the additional mortification of knowing that I helped elect him. But he is particularly dead. His war on vested rights has killed him. His advisers are a small coterie. We Republicans know who they are."

One of the leading lawyers in this State, a man in high public life for 40 years, said: "I never knew so gross a violation of official courtesy as was shown by the Governor in giving to a newspaper the official letters which were sent to two of the railway commissioners, so that the publication was made two days before they received the letters, letters which were by all the rules of official etiquette for them alone." J. C. L. Harris is engaged by S. Otto Wilson to appear for him in his reply to the Governor's charges.

It was remarked today by a prominent citizen that this whole matter is the result of "a conspiracy between the Governor, Senator Butler, another official and two lawyers." Such is the language used. It was a Republican who used it and he said that in his whole life he had never heard of so injudicious a proceeding. The Cape Fear and Yalkin Valley railway today paid into the State treasury \$5,170 taxes.

Today was the last of registration for the city election for \$50,000 street improvement bonds. Registration today was heavy and the advocates of the bond issue expressed themselves as confident of success.

The walks in the capital square are being paved with brick made at the penitentiary. The work is being done by "green" convicts. Some persons express regret that shell rock was not used for making the walks. A Goldsboro man says that if shell rock is brought here and put down in the summer it will cause sickness and holds it responsible for sickness at Goldsboro.

City physician James McKee says this is the most notable summer Raleigh has ever done so far as health is concerned. There is talk that Thomas M. Nags of Raleigh will be asked for U. S. attorney of this district. Claude Bernard, one of the three chief aspirants says as much.

Seaboard Air-Line surveyors are making a preliminary survey for a branch line from Gastonia to Denver and perhaps to Newton.

It turns out that only 7 townships out of 1321 in the State voted for the public school special tax. In over 20 townships a majority of votes were cast for the measure, but not a majority of the registered vote.

Three barns and a storehouse on Col. Benahan Cameron's farm at Fairintosh, Durham county, were burned yesterday, the loss being some \$4,000.

It is claimed that the establishment of a dispensary at Fayetteville has largely decreased drunkenness.

The Secretary of State has a letter from an Alleghany county man dated "Ait Bellows." No such ridiculous postoffice can be found, and it is suggested that Arobolla was intended.

The friends of Senator Pritchard greatly regret to hear of the perhaps fatal shooting of his brother George, a very plucky fellow, the sheriff of Mitchell, by a desperado.

Old city bonds to the amount of \$10,000 were yesterday destroyed. They had been paid off and were burned in the presence of witnesses according to law. There were \$31,125 in interest coupons destroyed also. This year bonds amounting to \$24,750 have been paid off.

Out at the State Fair to be held in October, Mr. J. T. Wyatt of Palth, N. C., will exhibit a cabinet of minerals and curios that will be well worth seeing. Any one having anything in that line to exhibit should send it to him with their name attached and it will be exhibited.

Professor Chas. Barkerville of the University has been elected Secretary of the American Association for the advancement of Science. There are over 2,000 members of the association.

On September 19th the corner stone of the principal building of the Pickedford Sanitarium at Southern Pines will be laid. This is the hospital to be built for colored consumptives.

The Governor declines to honor the resignation of the Governor of Georgia for a man named Conley Hodges.

A reward of \$100 was offered by the State for Alex Gilmore who is wanted in Cumberland county for burglary. And a \$500 reward is offered for Gilbert Ward, a man who murdered a woman in Wayne. Col. Andrews will start for San Francisco the first of next week. He will go in his private car and will take his family and his private secretary.

Wagon fillings of coal, \$1.40 a bushel, ready delivered, pure guaranteed, 10c. the

WILL FIGHT ON

The New Spanish Premier Announces That The Cuban Policy Will Be Unchanged.

MADRID, Aug. 27.—General Azcarra, the Spanish premier, at the cabinet council over which he presided last night, declared the government would follow in the footsteps of the late premier, Senor Canovas del Castillo.

Continuing, General Azcarra announced that the government had full confidence in Captain-General Weyler's political and military conduct of affairs in Cuba. Personally the premier was aware that the insurrection in Cuba was approaching an end, and if the United States made any demonstration, which he hoped would not be the case, he said, Spain would do her duty.

The premier closed his speech by appealing for the good will of all conservatives.

Senor Sagasta, the liberal leader, has made a fresh declaration on the political situation. He says it is daily growing worse in Cuba and continues serious in the Philippine Islands. Senor Sagasta is ready to apply autonomy to Cuba, and expresses the belief that the liberals will assume power earlier than expected.

Referring to the possibility of a rising in favor of Don Carlos, the pretender to the Spanish throne, Senor Sagasta asserts that the Carlists are already prepared for a rising, and are only awaiting a false step upon the part of the government or a favorable opportunity to take up arms.

Improvement Continues.

R. G. Dun & Co., in their weekly market review says:

"Speculative markets have their turns of reaction, but business has none this season, gaining with a steadiness which is most gratifying. The starting of works increase in hands employed, advance in wages and in prices of products and the heavy movement of crops are facts before which all speculative influences have to bow.

The week's despatches mention sixteen iron works which have started against one closing. Fifteen woolen mills have started, and so in many other branches, while many more works have increased the force and many are preparing to resume and some increased wages. While these things continue, with grain rising and going abroad in enormous quantities money markets have reason for abounding confidence and speculative markets for strength.

Crop prospects are contradictory as usual at such a time, but it is noteworthy that none of them indicate anything less than ample supply of the great staples. Sympathy with other markets rather than reports of injury, which capital authorities deem not important, account for the deviation of the 3-16 in cotton, but the mills are resuming work with a rush.

A general replenishment of stocks by dealers will call for heavy additions to supplies.

The wool market also reflects in greater strength and further advance in some grades the heavy buying of woolsens, which has set many mills at work night and day, and caused makers of many grades to withdraw them entirely from the order market, but while the mills have been buying somewhat more, most of them hold large stock and the trading has been mainly speculative between dealers.

Prevailing Conditions Good.

In regard to the financial and speculative situation, May & Penderton, Bankers and Brokers, in their New York letter say:

"The one thing more particularly noticeable than any other in the present stock market is the tenacity of holders and the quickly renewed courage of sold

CASTORIA

out bulls. Those who have engineered the reactionary influences also show courage at times, but their efforts have thus far resulted in disaster to bank accounts. The money which is now pouring into first hands in a golden flood is sure to return enriching all transportation treasuries and middlemen everywhere, whether engaged in the manufacture or distribution of products which the agriculturists buy.

It is not a temporary condition, but one which will run through the season and likely be again emphasized by advances in the prices of products in the face of new evidences that those products are for sale in abundance to satisfy the demand. Not more than once or twice in a generation do such conditions prevail as markedly as now and no speculator should fail to take advantage of the unusual circumstance.

THE MARKET.

Yesterday's market quotations furnished by H. W. Silsby & Co., Commission Brokers.

NEW YORK, August 28.
