THE STATE CAPITAL.

Testimony Being Taken at Salisbury on the Lease Matter.

A. & M. College Election. Greensboro Normal School. Type Setting Machines in Raleigh. Valuations of Railroads and Telegraphs.

JOURNAL BUREAU. RALEIGH, N. C., Sept. 7.
There were a good many left here yesterday for Salisbury where Special Master Craige, according to Judge Simonson's order, is to take testimony as to the lease of the North Carolina R. R. to see if there was any fraud in the transaction.

The stockholders of the Atlantic and North Carolina R. R. will hold their annual meeting on September 23rd.

Quite a number of students for the University passed here yesterday and today to enter for the fall term.
The Executive Board of the Agricultural and Mechanical College yesterday afternoon elected Mr. T. L. Wright of Sampson county assistant professor of mathematics at a salary of \$600. He succeeds Prof. J. J. Britt resigned.

An agricultural department is to be added to the State Normal School at Greensboro, and also a dairy farm. President Chas. McIver is here looking into the workings of both these departments at the A. & M. College.

The big printing house of Edwards & Broughton will put in their establishment type setting machines. When this is done there will be no necessity to send work out of the State to be done for the State printers. As it is the outside houses can do the work so much cheaper than it could be done here.

Mr. J. C. L. Harris has succeeded in getting the Agricultural Bulletin carried through the mail free and irretting the quarantine laws so changed that cattle can be now shipped from Wilkesboro where an inspector will be stationed.
The tax books turned over to the county commissioners show the total State general and specific taxes of the county not including the 18c property tax to be \$36,108.66; the total tax levy for schools and property levied by the legislature and county commissioners is \$31,627 total county tax is \$30,428, township special tax for graded schools \$13,955; special road tax \$6,850, with a total for taxes \$111,061.

The city was yesterday all excitement over a large number of Gypsies who are camping on the outskirts. There are about 75 in the band. They are of the same order as is usually seen dirty and disreputable. They are moving South.

The interest here today is on the vote for the \$50,000 bonds for street improvements. It will go largely for the issue.

The total valuation of property in the State exclusive of telegraph railroad and steamboat property as reported by the board of equalization is \$332,906,343 against \$230,961,531 last year. Watanga county has not yet sent in her report so of course that cannot be included.

The Kingston Naval Reserves give a reception and ball on Thursday and some of the State Guard officers will attend. The band of the 1st Va. regiment will furnish the music.
At the Halifax farm there are 1400 acres of corn all ready for fodder pulling and convicts will go there to do the work.

UNDER A WALL.

Workmen Buried Beneath the Ruins. Two Badly Bruised.

Special to Journal.
CINCINNATI, O., September 7.—A wall fell in today at the Lane and Bodley boiler works.

A number of workmen were buried in the debris, and two were taken out badly bruised, their names are Thomas Main and William Gemmyer.
It is feared that several others are still under cover, and the fire department has been called upon for assistance to clear away the debris.

Gold Seekers in Trouble.

JUNEAU, August 29.—The steamers City of Kingston, Farrallon, Rosie and Queen have brought upward of 300 people from the sound ports and San Francisco, together with horses, cattle, sheep, etc., during the past few days, carrying about the entire cargo in each instance to Dyea or Skagway. Those landed at Dyea are getting over the Chilkoot Pass all right, but some as yet have got over the White Pass via Skagway. Many horses have been ruined by the mire and the men know they cannot get through, so that many have had their goods carried around to Dyea, but it is expensive, and a large portion of the army of travelers have no money for such purpose, and just what such outfits are going to do is a mystery.

They are now eating supplies which they expected to use in the Yukon country. Juneau merchants have sent up a stock of goods to sell at Skagway, and a small amount of lumber has gone up, so that a few shacks can be erected.
Quite a number have turned back without allowing their outfits to be taken off the land which brought them up.

Quite a number have turned back without allowing their outfits to be taken off the land which brought them up.

IT IS YELLOW FEVER.

The Disease Broken Out at Ocean Springs, a Resort Below New Orleans.

NEW ORLEANS, September 6.—President Oliphant, of the Louisiana Board of Health, has sent a telegram to that Board, confirming the report of the physicians at Ocean Springs, declaring that the prevailing sickness is undoubtedly yellow fever.

The doctors came to this conclusion after holding an autopsy on the body of a person who died yesterday.

Couriers are now skirmishing around the city for sufficient members to make up a State Board of Health in order to quarantine Ocean Springs, which is about 100 miles from this city.

There is little or no alarm here, but sojourners on the coast are returning to the city and will spend the balance of the hot weather at home.

The State Board of Health has decided to enforce a rigid quarantine against Biloxi and Ocean Springs. Quarantine will also be enforced against the other watering places on the coast until President Oliphant returns and more light is obtained on the situation.

Guards are to be put on the trains and at the stations, all baggage is to be fumigated and every precaution is to be taken to keep the disease out of the city.

City Health Officer Fisher of Galveston, Texas, has declared quarantine by water against New Orleans.

The fever had unquestionably been communicated by the constant intercourse of Ocean Springs with Ship Island, where there is a United States Government quarantine station. Ships from all parts of the world touch there. A large number from tropical countries where yellow fever is indigenous to the soil, report there weekly. There has been steady and uninterrupted communication between the island and coast towns and Dr. Walmaley has little or no doubt that this has been the means of bringing into Ocean Springs the deadly germs of yellow fever. If a rigid quarantine had been maintained between the island and shore he believes that Ocean Springs would now have little else to contend with than dengue fever. Immunity from epidemic, however, has had a tendency to breed carelessness and the result is to be found in the calamity that has befallen the popular southern resort.

BASE BALL.

National League Games Played Yesterday.

Special to Journal.
NEW YORK, September 7.—First game New York, 6; Cleveland, 1; second game New York, 4; Cleveland, 1.
