State Department officials ridicule the story attributed to Canadian sources that the United States is negotiating with Denmark for the acquisition of Greenland. It is positively denied that the United States has any designs upon the territory in that part of the world.

The Queen Regent of Spain has accepted the Cabinet's resignation, but has asked General Azcarraga to continue in office until a solution of the crisis is found. Her Majesty will summon the leaders of the various parties of the presidents of the chambers to consult as to the situation. Senor Sagasta has been telegraphed for, and it is believed that the Liberal leader will be asked to form a Cabinet. It is said that Senor Sagasta is in favor of superseding Captain-General Weyler, and of granting autonomy to Cuba immediately.

The three days' session of the Labor convention in Chicago ended in a climax of incendiary speeches. E. M. Bannister, of St. Louis, chairman of the convention resigned the gavel to introduce a resolution advising strikers in general to arm themselves for resistance when necessary.

Fire broke out in the central power station of the Capital Traction company, at Washington and in thirty minutes the magnificent six story structure was doomed. The building occupies the entire block from Pennsylvania avenue to G street, and from Thirteenth and One-half to Fourteenth streets. The blaze started on the southwest corner, and despite the efforts of the engine fire department swept like wind through the enormous building. The heat was so intense that the men were driven from the adjoining street.

MORGAN IN HAWAII.

All the Better Classes Favor Annexation. The Treaty Has Been Passed by the Hawaiian Senate.

New York, September 29.—United States Senator Morgan in a dispatch to the Herald, mailed from Honolulu, September 28, and telegraphed tonight from San Francisco, says:

"There is no active or organized opposition to annexation in Hawaii. Some royalists naturally regret every step that leads to the dedication of the country to free self government, which is now beyond reversal, and they excite the apprehensions of some natives that annexation will tend to their social degradation. But the effort and its results are insignificant. The less informed classes are free from political cares and the educated natives are free from all jealousy toward the white race. Their desire for annexation is intense and earnestly patriotic. They are Americans in the most decided form, without any tolerance of Asiatic theories of forms of civilization. They copy nothing from the Asiatics."
