WHAT WILL WE DO.

New Spanish Premier will Not Accept Mediation.

The Navy Being Prepared for Service. Why the Name of Thomas Moore was Left Out. Interest in New York's Election at the Capitol.

JOURNAL BUREAU. WASHINGTON, D. C., Oct. 8. Secretary Sherman declines to discuss in any way indicate what this government will do when Spain officially declines our assistance in bringing about peace in Cuba. That is probably the proper position for the Secretary of State to take, but those who are not hampered by their official relations are discussing the matter with much interest since the new Spanish premier by his unofficial utterance has made it plain that the offer of mediation made by this government will not be accepted and that the most that Spain will do for Cuba will be to recall Gen. Weyler and offer the Cubans a sort of home rule, under Spanish direction. It is the general belief in Washington that the Cubans will not pay the slightest attention to this offer and that the war, which has already impoverished Spain, will go right along. That being the belief, everybody wants to know what this government intends to do. Will it try to aid Spain by persuading Cuba to accept the offers which have been made by the new Spanish ministry? or will it recognize the belligerency or the independence of Cuba? or may be go even further and send armed help to the Cubans? It is not difficult to find in Washington men of standing and influence who advocate one or the other of these steps, but those who have any idea of what the administration intends to do are keeping so close-mouthed that the public can only guess. The administration may have no idea of fighting, but there have been a number of orders issued concerning the preparation of ammunition for the navy which indicate that it is going to be prepared to fight, any way.

The Irish societies having raised quite a storm because of the omission of the name of Tom Moore from the honor roll of poets on the walls of the new Congressional Library Building, the committee of officials which selected the names has been called on for an explanation. Mr. A. H. Spofford, who was then Librarian and chairman of the committee, says there were two reasons for the omission of Moore's name, either of which, in his opinion, was sufficient. First, that Thomas Moore does not rank as a poet of the first class, and second, that he wrote poems containing scurrilous attacks upon the United States and personal abuse of President Thomas Jefferson. There may be two opinions as to the rank of Thomas Moore as a poet, but the correctness of his abuse of America and of Jefferson is apparent even at a casual glance at a little book now in Mr. Spofford's possession, which contains Moore's poems relating to America and Americans. In view of this showing, the gentlemen of Irish blood who announced their intention of appealing to Congress to have Moore's name put upon the wall of the Congressional Library may change their minds.

The eleventh hour refusal of England to participate in the sealing conference called to meet in Washington this month said to have been brought about by Canadian influence, is likely to cause hard feelings in other countries than the United States, as official representatives from Russia and Japan are now on their way to attend the conference, with the understanding that England would participate therein. No public criticism has been made by our officials, but it is not likely that the matter will be allowed to drop where it is.

Municipal campaigns do not as a rule cut any figure in national politics, but present indications are that the one in Greater New York will be an exception to the rule. It begins to look as though the candidacy of Henry George would receive the official endorsement of the Democratic National Committee as well as its active influence, as the silver Democrats are asking that such a course be taken to punish Tammany Hall for ignoring the Chicago platform. The administration claims to be keeping its hands off, but there is little doubt that its influence will be used for Gen. Tracy, or a compromise candidate who may be put up on the retirement of both Tracy and Low.

Horse vs. Bicycle.

DROUGHT AND FIRES.

Causing Great Damage in Arkansas. No Rain in Sixty Days.

LITTLE ROCK, Ark., October 7.—Drought and forest fires are doing great damage in Arkansas, and the situation grows worse daily. The people are holding meetings and praying for rain. Thousands of dollars' worth of timber and other property have been burned, and stock in nearly all sections of the State is suffering from the scarcity of water. In some places there is not even drinking water for the people.

No general rain has fallen for over sixty days, and in some localities the drought is of even longer duration. The forests being almost as dry as tinder and the ground covered with dry leaves, there come from all sections reports of disastrous fires. Miles of fences have been destroyed, cabins and saw mills burned, and in some instances the flames have been communicated to large fields of open cotton.

In hundreds of localities wells and springs have dried up. People are hauling water in barrels from streams, which in some cases, are twenty miles distant. Nearly all late vegetables have been parched in the fields.
