**MEN OF MIGHT.**

The Gold Seekers of Alaska of High Character.

Skagua Building up. Reason for Changing Bank Note Designs. Simple Plan of Sec'y Gage. Platt in Washington. Position of President.

JOURNAL BUREAU.  
WASHINGTON, D. C., Oct. 25. }  
Governor Brady, of Alaska, says in his annual report to the Secretary of the Interior: "Ship load after ship load of gold seekers and their freight has been rushed to the extreme limit of salt water navigation (Byrn Canal), and there they have been literally dumped upon the beach, some above high water and many below, as they learned to their sorrow when the water covered them as they slept. The gold seekers had a terrible time, but they are brave and started out to endure hardships. As a class they rank far above the average manhood of the country. Skagua is being built up rapidly. Lumber is in demand, and lots are selling as high as \$1,500. Americans are anxious to secure a route to the Yukon, which shall be entirely upon U. S. territory. Different parties are now out, and are carefully examining the mountains between Yakutat and Cook's Inlet. This is the third season of the work in Cook's Inlet. The excitement over the Klondike has drawn many away from there; nevertheless the output of gold this year will be no mean sum. The possibilities of the whole region bordering upon this inlet and upon Prince William Sound will draw crowds of adventurers in the near future."

The Secretary of the Treasury who doesn't change or attempt to change the designs of the paper money issued by the government is regarded by the old timers in the department as a freak. It will be remembered that a new and highly artistic series of designs for silver certificates was secured and put into use by the last administration. That these designs are the most beautiful ever used for the purpose is admitted, but a goodly percentage of the banks of the country have entered protest against continuing their use because of the difficulty, after the notes have circulated awhile in distinguishing the denominations at a glance and the ease with which the value of the notes are raised and passed upon the ignorant. That is why Secretary Gage has decided to have another change in design. If Secretary Gage's idea is carried out, and it probably will be, the same design will be used upon all notes of the same value and it will be made simple and distinctive so as to become associated in the minds of the people with notes of that value, thus making it almost impossible to fool anybody with a raised note. Secretary Gage's idea was discussed at the last meeting of the Cabinet and was favored on account of its simplicity. Bankers and all who handle money in large quantities will favor the idea because it will enable them to handle and assort notes with greater speed.

Senator Platt was in Washington a short time within forty-eight hours, and although he denied that his visit was for any such purpose, it is believed among the politicians that his principal object was to get President McKinley to write a personal letter expressing his desire for the election of Gen. Tracy to be Mayor of New York. While there isn't the slightest doubt that President McKinley wishes the success of Gen. Tracy, it is doubtful whether he will consider it either good policy or good politics to say so over his signature. He has a dread of being charged with meddling with local affairs, even in his own state. He considers it perfectly proper for Secretary Bliss to be actively working for Gen. Tracy, because he is a citizen of New York, and as such is personally interested in its city government.

**TRAIN IN A RIVER.**

New York Central Express Takes a Fearful Plunge Into the Hudson.

GARRISON, N. Y. October 24.—A New York Central Railroad train plunged into the Hudson river three miles south of Garrison's opposite West Point, just before daylight this morning, and twenty-eight persons were killed.  
Neither the engineer nor the fireman will ever tell the story of that terrible moment, for with his hand upon the throttle, the engineer plunged to the river bottom and the fireman, too, met death at his post. Behind them came an express car, a combustion car and three sleeping cars, and these piled on top of the locomotive.  
What seems to have happened was that beneath the tracks and the ties the heavy wall had given way, and when the great weight of the locomotive struck the unsupported tracks it went crashing through the wall and toppled over into the river into 50 feet of water.  
As the train plunged over the embankment the coupling-pin that held the last three of the six sleepers broke and they unobscuredly remained on the torn-up tracks. In that way sixty lives were saved.

The total cost of maintaining the navy during the last fiscal year was \$17,514,231.  
Three hundred Norwegians chartered the steamer Favorite and met the Luceana with Dr. Nansen aboard in New York harbor.  
The monetary commission has adjourned until November 3. Since October 11, when it reconvened after a short recess, much important work has been done. The commission will not recommend changes of radical character.  
The steamer Humboldt arrived at Seattle with five men from Dawson City, who left that place September 3. They say no more gold will come out this fall. The Yukon is already frozen hard and boats are laid up for the winter.

**YELLOW FEVER STAMPED.**

Thousands Fleeing From Alabama to Escape the Disease.

Special to Journal.  
RALEIGH, N. C., October 25.—Word comes from Atlanta this afternoon that a special train arrived at that city today, carrying two thousand persons from Montgomery and Selma, Alabama, and from other points where yellow fever appeared to be increasing.  
More people are on the way. At Selma twelve thousand dollars worth of railroad tickets were sold yesterday.  
There was frost at Atlanta this morning.

**IMPORTANT TERM.**

Wake Superior Court Will Hear Cases of Interest.

The Great Scalchi in Raleigh. Vanderbilt has the Advantage. Robbed the Mails. The Smith Case. Methodist Conference.  
JOURNAL BUREAU.  
RALEIGH, N. C., Oct. 25. }  
Wake Superior court meets here today with Judge W. S. O'Brien Robinson presiding. There are to be several cases of State interest before this term of court. The case of John H. Pearson against S. O. Wilson will be the first taken up. Then there will be ex-enrolling clerk's Swinson's case and the case of Stewart Bros. the ex-state printers. The eyes of the State will be upon the court this week.

Tonight Madame Sofia Scalchi appeared at the Academy of Music. She sang "Il Travatore. Raleigh has been very fortunate in having good operas this fall, and many good attractions are booked at the Academy for the rest of the season.  
The fact that Vanderbilt took 70 premiums and the \$100 special prize at the Fair last week looks rather unfair. The farmer who has little spare cash puts forth every effort to make a creditable exhibit, hoping to be at least repaid by the premium money, and he has to compete for these premiums with a man who has unlimited cash to make his exhibit a perfect one. The Biltmore exhibit could get all the diplomas and honorable mention, but let the cash prizes go to the farmers.  
At the U. S. court which will meet here in December, William E. Morris of Roxboro will be tried for robbing the mails of three registered letters. He has pleaded guilty before U. S. commissioner Daniels.

Raleigh's leading literary club, the Monday Evening club begins its fourth year's work this week. It has a very large membership and has been productive of much pleasure as well as profit.  
It is said that Gov. Russell and three of the penitentiary board are in favor of removing Superintendent Smith. Chairman Dockery and the rest of the Board are in favor of keeping him there under the thumb of the executive committee who will be paid a salary for keeping Superintendent Smith straight.

This week the Supreme court hears appeals from the 5th district. Most of the districts have light dockets. About 200 appeals are heard generally at each term of court.

Henry George's canvass in New York continues to be the spectacular feature in the political campaign. His army of speakers hold hundreds of meetings in all parts of New York every night, but Mr. George himself is the most effective advocate of his cause, preaching the crusade against poverty with the zeal of Peter the Hermit, declaring himself an instrument in the hands of God to better the condition of his fellow-men.

**REPLY OF SPAIN.**

Predictions of War Made in European Capitals.

Determined to Suffer no Interference About Cuba. A Protest Against Filibusters. Supported by the Spanish Press. A Critical Stage.  
Special to Journal.  
WASHINGTON, October 25.—The definite reply to Spain by the diplomatic note of the United States containing the demands of this government in regard to Cuba is the cause of war talk at all the European capitals.  
The London papers all declare that the attitude of Spain towards the United States will be definite and firm and they predict a rupture between the two countries.  
The hurried return of Gen. William F. Draper, the United States Ambassador, to Rome in connection with the reply of Spain causes comment among foreign governments.  
MADRID, October 25.—Spain's reply to the note of the United States, hinting at moderation in Cuba and requesting an answer before the end of this month, was placed in the hands of the American Minister here, General Woodford. The draft of the reply, made by Foreign Minister Gallon, was unanimously approved by the Cabinet.  
The communication is courteous in tone, but very determined in rejecting the substance of the American note.  
Spain resolutely asserts her determination to settle the Cuban question herself without foreign assistance or interference of any kind. She declines to fix any date for the pacification of Cuba, which she proposes to bring about as she sees fit, by force of arms and by political reforms, culminating in autonomy, combined.

The press today unanimously approved the attitude of the Sagasta Cabinet as being in touch with national sentiment, the people having become weary of his predecessor's policy of continuous concessions to American diplomacy.  
The Spaniards seem to be certain that their relations with America are approaching a grave and critical stage.  
A government note protesting against filibustering will be handed to United States Minister Woodford tomorrow.
